Opening lead—king of hearts. Excellent teamwork by East and West enabled them to defeat the contract in today's hand, where the slightest slip would have proved fatal.

West's double was on the light side but was justified by the part-score situation. South had enough power to carry on to three clubs practically singlehanded.

The king of hearts was opened and East signaled with the queen. Although it is accepted practice, when a defender opens with the king of a suit, for partner to signal high-low when he has a doubleton, this convention is not used when the partner's doubleton consists of Q-x. Experience has shown that the queen can seldom

be spared in such cases. As a logical extension of this principle, when the queen is played on the king, it indicates that the queen is accompanied by the Jack or else that the queen is a singleton.

West, anxious to put East in the lead, therefore led the deuce of hearts and East won the trick with the nine. It was obvious to East that if the contract was to be defeated, declarer would have to be prevented from ruffing in dummy any spade losers he might have.

Accordingly, East returned a trump and South was well on the road to defeat. Declarer took the club with the ace and could now do no better than lead a low spade towards dummy's queen.

East won with the king and continued the relentless campaign by returning another club. It was the finishing blow. Declarer finessed, but his play made no difference.

He was destined to lose two spades, two hearts, and a club. The opponents had grabbed control at the beginning of the hand and never let go until their work was done.

The tempo had to be exact. Had West played any other card than the deuce of hearts at trick two, declarer would have made the contract. The heart signal by East and the repeated trump leads were more than South could handle. The defense was just too good.
