VARIETIES.

A Time to Die.—"She took cold at the ball, and never afterwards left her room until her death." This has been the closing history of many a gay and blooming girl, and it is a sad history. And have not some taken cold in church, which has terminated fatally? Very true; but when the last messenger comes, how much better to be found by him in the way of duty than in the paths of folly! The most thoughtless would scarcely say deliberation, that the ball-room is the fitting place where the announcement should be made to them—this day, or this week thou must die. Habitual attendance on such places of amusement is altogether unfriendly to serious feeling, so that none think of praying to God or worshipping him amidst the dance. To be found there by death is hence a sad proof of a surprise in sin. The world insists upon the innocence of the amusement; but let them associate its frivolity, its abuse of time, its vanity, its jealousies, its rivalries, with the near approach of death, and say, if they can, that it is the right time and place to receive God's solemn messenger.

Lying in Bed with the Head High.—It is often a question among people who are unacquainted with the anatomy and physiology of man, whether lying with the head exalted or even with the body, was most wholesome. Most consulting their own ease on this point, argue in favour of that which they prefer. Now, although many delight in bolstering up their heads at night, and sleep soundly without injury, yet we declare it to be a dangerous habit. The vessels through which the blood passes from the heart to the head, are always lessened in their cavities when the head is resting in bed higher than the body, therefore in any diseases attended with fever, the head should be pretty nearly on a level with the body; and people ought to accustom themselves to sleep thus to avoid danger.—(Medical Journal.)

What is a Cabniet Council?—When I came into office, I was curious to understand the course of proceeding or interior constitution of our government. It is vague in the extreme, and often irregular and inconvenient. The cabinet, which is legally only a committee of the privy-council, appointed by the king on each distinct occasion, has gradually assumed the character, and in some measure the reality, of a permanent council, through which advice on all matters of great importance is conveyed to the crown. But through the necessity of a well-concerted or party government, in a limited monarchy and popular constitution, has generally established the wholesome doctrine, that each and every member of the cabinet is in some degree responsible for the measures adopted by the government, while he is a member of it, yet there are no precise laws nor rules, nor even any well-established or understood usages, which mark what measures in each department are or are not to be communicated to the cabinet. There is nothing but private agreement or party feeling generally, or the directions of the king accidentally, which obliges even a secretary for foreign affairs to consult his colleagues on any of the duties of his office, before he takes the king's pleasure upon them. When a cabinet is held at a public office, it is generally at the foreign office. The acts of that office, however, are not invariably nor necessarily laid before the cabinet; and the secretary of state at his own discretion advises and completes many without any such consultation. In the other branches of administration, such as the Treasury, the Home Secretaryship, the Chancery, the Admiralty, the discretion is yet larger, as to the matters in their respective departments on which the ministers take the king's pleasure directly, or previously consult their colleagues before they advise him.—(Lord Holland's Memoirs of the Whig Party.)

The R. M. Steamer Niagara conveyed her living freight of soldiery to Malta, landed it, and was back, ready to convey a second cargo, in less than twenty days. The sailing vessel that had performed the same distance in 50 days would be considered a klipper.

MRS. WINSLOW.

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP, For Children Teething.

For the Nervous Affections, Convulsions, Fever, Inflammation of the Bowels, &c. that attend this period of children, she recommends it as sure to produce the desired effect, giving *Rest to the Mother, and Relief and Health to the Infant.*

A child in Congress-Street was cured by the Soothing Syrup, of Infantile Dysentery or Diarrhœa after being given over by the attending Physician.

Mr. Blackman, of Eddington says, it has *never failed to cure* the Dysentery or Diarrhœa in children whenever used in the village. Lots of it is sold.

One parent informs me his child has suffered to an alarming extent, with Flatulence or Wind Cholic. Lately they have used the Soothing Syrup, and it always effects a *speedy cure.*

Hundreds of like instances might be enumerated.

PROOF POSITIVE.

Messrs. Curtis & Perkins:—Please send us a further supply of Soothing Syrup. We are selling large quantities of it, and from what we can learn, it is used with *uniform success*, both by children and adults, in all cases of Dysentry or Diarrhœa.

Yours respectfully,
W. D. Crumbie,
J. Morrill.

We cheerfully comply with the request of a friend to insert the following letter which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast amount of suffering may be prevented, and many valuable lives saved, by calling the attention of mothers to this valuable prescription of an old and experienced nurse:

Dear Sir:—I am happy to be able to certify to the efficiency of Mr. Winslow's Soothing Syrup, and to the truth of what it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would not permit any of the family to do so, I purchased a bottle of Soothing Syrup, in order to test the remedy,—and when given to the boy according to the directions, its effect upon him was like magic, he soon went to sleep, and all pain and nervousness disappeared. We have had no trouble with him since; and the little fellow will pass through with comfort, the excruciating process of teething, by the sole aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children, should possess it. H. A. Alger.

NEUROLOGY, or SCIATIC RHEUMATISM CURED.

This may certify, that for about four years I was seriously afflicted with a disease in the hip, which Physicians termed Neurology, or Sciatic Rheumatism, and resorted to various remedies without any permanent relief; have been under the care of a regular Physician for six months at a time. Last spring, had a very violent attack, which laid me up, when I made use of the *Cramp* and *Pain Killer*, prepared by Messrs. Curtis & Perkins, of Bangor. It gave me immediate relief, and I do not hesitate to say, that it is the best article I ever used. I cheerfully recommend it to all who may be afflicted with similar complaints. Henry Hunt.

Hunter's Balsam. It is not often that we *can* say anything favorable of patent medicines, on the testimony of those with whom we are acquainted, two who have used and tested their merits. But in regard to Hunter's Balsam, put up by our fellow citizen, Jeremiah Curtis, Esq. we have the testimony of many of our own citizens and those of neighbouring towns, unanimous in its praise. The testimony of one individual with whom the public are acquainted, carries with it more weight than whole columns of certificates from strangers, whose faces we never saw, and whose certificates, for aught we know, may have bean procured by fraud. INDIAN DISPEPSIA PILLS,

For cure of Costiveness, Acidity of the Stomach, Bilious Habits, Headache, Dizziness, Heart Burning, Pain in the Side, Lung and Liver Complaints.

DYSPEPSIA AND IDIGESTION,

With Costiveness, Acidity of the Stomach, Heart Burning, Bilious Complaints,—producing Headache, Pain in the side, Loss of Appetite, and general Debility,—can be remedied, removed, and entirely cured, by the use of the *Indian Dispepsia Pills.* These Pills have effected the most astonishing cures in hundreds of cases of the above complaints, and are an invaluable remedy, in an especial manner, for Dispepsia. They are a mild and gentle Cathartic, operating mostly upon the blood, cleansing and purifying the same, and causing the digestive organs to perform their appropriate duties, with regularity.

COSTIVENESS.

Habitual Costiveness is, if not removed in time, a cause of more than half of the disorders and pains to which humanity is subject. The medicines too generally had recourse to, do more harm than good, as they weaken the peristaltic action of the bowels, and thus aggravate instead of removing the complaint.

Also, in all Bilious Diseases, attended with Pain in the Side and Right Shoulder Blade, with a dull, sallow countenance. In all Diarrheas,, Ague and Fever, Bilious Fever and sick headache, they are an invaluable Remedy.

They will be found the best Family Physic in the world, purifying the blood, restoring the appetite, and leaving the stomach and bowels in a healthy state. Price 25 cents per box.

For purifying the Blood, we do not believe these ills have their equal in the world.

The Far-famed Medicine!

HOLLOWAY'S PILLS.

SURPRISING CURE OF A CONFIRMED ASTHMA, AFTER FIVE YEARS' SUFFERING.

The following testimonial has been sent to Professor Holloway, by a gentleman named Middleton, of Scotland Road, Liverpool.

Sir,—Your Pills have been the means, under Providence, of restoring me to sound health, after five years of severe affliction. During the whole of that period, I have suffered the most dreadful attacks of Asthma, frequently of several weeks' duration, attended with a violent cough, and continual spitting of phlegm intermixed with blood. This so shook my constitution that I was unfitted for any of the active duties of life. I was attended by some of the most eminent medical men of this town, but they failed to give me the slightest relief. As a last remedy, I tried your Pills, and in about three months they effected a perfect cure of the disease, totally eradicated the cough, and restored tone and vigor to the chest and digestive organs.

I am, Sir, your obedient Servant,
(Signed) H. MIDDLETON.

Dated Jan. 1st, 1853.

A PERMANENT CURE OF A DISEASED LIVER, OF MANY YEARS' DURATION.

Copy of a Letter from Mr. Gamis, Chemist, Yeovil, to Professor Holloway.

Dear Sir,—In this district your Pills command a more extensive sale than any other proprietary medicine before the public. As a proof of their efficacy in Liver and Bilious complaints, I may mention the following case: A lady of this town, with whom I am personally acquainted for years, was a severe sufferer from disease of the Liver and digestive organs; her medical attendant assured her that he could do nothing to relieve her sufferings, and it was not likely she could survive many months. This announcement naturally caused great alarm among her friends and relations, and they induced her to make a trial of your Pills, which so improved her general health that she was induced to continue them until she received a perfect cure. This is twelve months ago, and she has not experienced any symptoms of relapse, and often declares that your Pills have been the means of saving her life.

I remain, Dear Sir, yours truly,
(Signed) J. GAMIS.

AN ASTONISHING CURE OF CHRONIC RHEUMATISM, AFTER BEING DISCHARGED FROM THE HOSPITAL INCURABLE.

Copy of a Letter from Mr. W. Moon, of the Square, Winchester.

To Professor Holloway,

Sir,—I beg to inform you that for years I was a sufferer from Chronic Rheumatism, and was often laid up for weeks together by its severe and painful attacks. I tried everything that was recommended, and was attended by one of the most eminent surgeons in this town, but obtained no relief whatever; and fearing that my health would be entirely broken up, I was induced to go into our County Hospital, where I had the best medical treatment the Institution afforded, all of which proved of no avail, and I came out no better than I went in. I was then advised to try your Pills, and by persevering with them was perfectly cured, and enabled to resume my occupation, and although a considerable period has elapsed, I have felt no return whatever of the complaint. a

I am, Sir, your obliged Servant,
(Signed) W. MOON.

AN EXTRAORDINARY CURE OF DROPSY, AFTER SUFFERING FOR EIGHTEEN MONTHS.

Copy of a Letter from Mr. G. Briggs, Chemist, Goole, dated February 15th, 1853.

To Professor Holloway,

Sir,—I have much pleasure in informing you of most surprising cure of Dropsy, recently effected by your valuable medicines. Captain Jackson, of this place, was afflicted with Dropsy for upwards of eighteen months, to such an extent that it caused his body and limbs to be much swollen, and water oozed as it were from his skin, so that a daily change of apparel became eecessary; notwithstanding the various remedies tried, and the different medical men consulted, all was of no avail, until he commenced using your Pills, by which, and a strict attention to the printed directions, he was effectually cured, and his health perfectly re-established. If you deem this worthy of publicity, you are at liberty to use it.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Inflammation
Asthma	Dysentery	Jaundice
Bilious Complaints	Erysipelas	Liver Complaints
Blotches on the skin	Female Irregularities	Lumbago
Bowel Complaints	Fevers of all kinds	Piles
Cholics	Fits	Rheumatism
Constipation of the Bowels	Gout	Retention of Urine
Consumption	Head-ache	Scrofula, or King's Evil
Debility	Indigestion	Tumours
Sore Throats	Stone and Gravel	Worms of all kinds
Secondary Symptoms	Tic Doloureux	
Ulcers	Venereal Affections	
	Weakness, from whatever cause, &c.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases — Costiveness, Indigestion, Jaundice, Dropsy, Rheumatism, Fevers, Gout, Humors, Nervousness, Irritability, Inflammations, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors. and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen to whom we are allowed to refer for these facts, are

Prof. Valentine Mott, the distinguished Surgeon of New York City.

Doct. A. A. Hayes, Practical Chemist of the Port of Boston, and Geologist for the State of Massachusetts.

Ira L. Moore, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long used them in his extensive practice.

H. C. Southwick, Esq., one of the first merchants in New York City.

C. A. Davis, M. D., Sup't and Surgeon of the United States Marine Hospital, at Chelsea, Mass.

Did space permit, we could give many hundred such names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimonious and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting wherever they exist such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.
