

### Parish Gives Farewell Party For Popular Minister

— Rev. S. J. Davies, B.A., Mrs. Davies and family were tendered a farewell party at St. Mark's Hall, Kensington, on Tuesday evening, October 10th, by the members of St. Mark's Church. There was also a good representation from St. Stephen's Church, Burlington. Bright bouquets of out flowers were pleasantly arranged about the hall.

Mr. Ernest Mill, capably filling the role of chairman, in a few suitable remarks, spoke of the purpose of the gathering, and called upon Mrs. J. G. Townsend, who read an address which convincingly conveyed the feeling of irreparable loss experienced by his people following the announcement by Mr. Davies of his resignation as rector of New London Parish, to take up the work of Field Secretary for the British and Foreign Bible Society. The effectiveness of every phase of his ministry was noted, and although the loss to this parish will not be light, there must yet be a sense of rejoicing that he should have been chosen for a work of a broader scope. Keenly felt will be the departure of Mrs. Davies, John, Margaret and Baby Linda, as well as Mr. McEwen, father of Mrs. Davies, who has in several visits to the rectory, come to seem like one of the family.

A beautiful pair of all wool blankets and an all wool bed throw were presented by the people of St. Mark's, and a gift of money from St. Stephen's. Small gifts were also given the children and Mr. McEwen. Mr. Davies also received a set of Briar pipes on behalf of St. Mark's A.Y.P.A. Those assisting in the presentation were

Miss Mamie Mill, Mr. Lloyd Howard, Miss Elva Graham and Mr. Eddie Murphy.

Mr. Davies replied on behalf of the family, and spoke of the kindness extended to them, from the time they had come to St. Mark's Rectory two years and five months ago, of the great improvement made in the church property in this time, continuing the good beginning made by the previous rector and of the reverence constantly noted in all religious services. Mrs. Davies also expressed her appreciation.

Others speaking briefly were Messrs. John Howard, Reg Holman, Lloyd Howard, J. Weeks Murphy and John Fillman. Their remarks ranged from deep regret that the rector and his family who had in a short time come to be so much a part of the parish and the community should be severing their connections here, to gladness that the honor should have come to Mr. Davies, obviously so well fitted for the position, while rector of this parish; from appreciation of his cordial respect accorded him and as spiritual leader and guide, to his family as citizens and friends; and the satisfaction of knowing that they are likely to return from time to time.

A sing-song followed with Mr. Davies as song leader and Mrs. Cecil Mill at the organ.

A delicious lunch was served by several of the ladies of St. Mark's, and the evening concluded with the National Anthem and Benediction pronounced by Mr. Davies.

home for him and you are not so lonely as you would be if you went away and never even heard from him. You should love him after the way he treats you, nor that you should bear with him and forgive his sins against you, but the love of a wife for an erring husband has nothing to do with justice. It gets to be the divine pity that a mother has for her child who is a weakling.

DEAR MISS DIX: I am just 14 and I do like the boys a lot. Some people say I am boy-crazy. Am I not supposed to like boys? Tell me how I should act.

ANSWER: I suppose most girls of 14 are boy-crazy. It is so new and thrilling to them to find out that they can attract the opposite sex that it goes to their heads and they can think of nothing but boys, talk of nothing but boys, and have no interest in anything but boys.

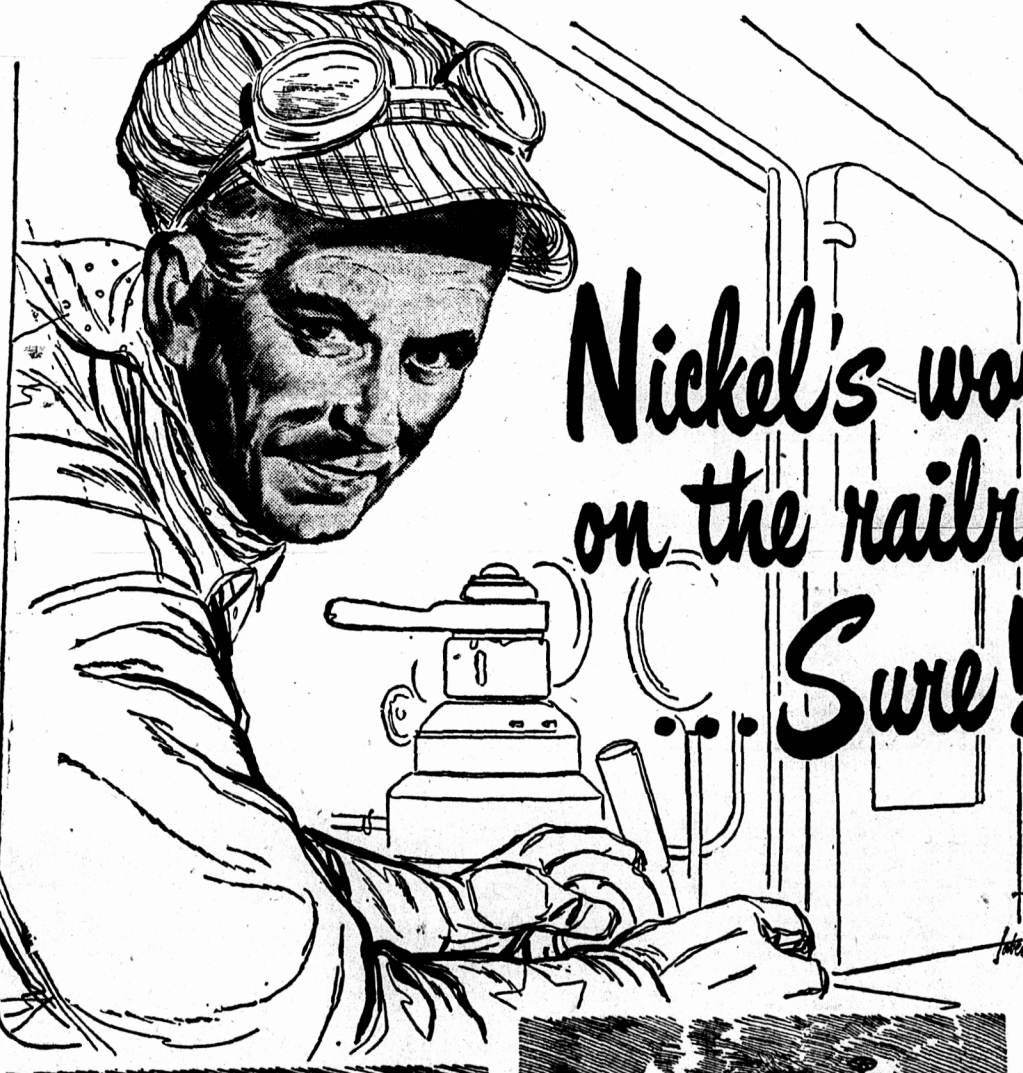

As to how to act while you are suffering from boy-craziness, I can only suggest that you take it as easy as you can. Don't let it obsess you to the extent of making you oblivious to your studies at school and indifferent to whether you get an education or not.

Then, don't run after boys. That way you make yourself ridiculous and cheap. Besides, you scare the boys off. The things that men value even in women are the things that are hard to get. Don't be a telephone hound, who is always calling up boys who don't want to hear from her. Don't write two letters to a boy's one.

Above all, don't fancy yourself in love just because you are boy-crazy and get married while you are still in your teens and spend the balance of your life in repenting it. Just remember that people who are crazy are not in their right minds and are incapable of making wise decisions. Wait until you get back your senses.

DEAR MISS DIX: What is the difference between personality and character?

ANSWER: The dictionary gives about the same definition for both as the qualities that distinguish an individual, but as the terms are commonly used they are quite different. A man, for instance, may possess a fine and noble character. He may be honest, upright, an exemplar of all the virtues, but he may have such a disagreeable personality that all of his good qualities go for naught. On the other hand, many a man has a charming and gracious personality and is a scapegrace utterly devoid of principle.

Nickel's working on the railroad? Sure!

Frames of modern locomotives and railway cars are made of Nickel Steel — stronger, lighter in weight, springs and roller bearings are of tough, long-lasting Nickel Steel. Many modern trains are largely built of Stainless Steel, containing a high percentage of Nickel.

Back in the dining car kitchen those gleaming surfaces where food is handled are "Monel" — sanitary, rust-proof, Nickel-Copper alloy.

In the new diesel electric locomotives Nickel Steel gives greater strength with less weight. Steam locomotive boilers are made of Nickel Steel — tough, strong and durable at high temperatures.

Forty-three years of research have uncovered hundreds of uses for Nickel in the United States and other countries. New Nickel exports bring in millions of U.S. dollars yearly. These dollars help pay the wages of the 14,000 Nickel employees in Canada and also help pay Canadian railwaymen, lumbermen, iron and steel workers and other men and women making supplies for the Nickel mines, smelters and refineries.
