ITALIAN INTEREST  
A few days ago, a collection of 24,187 UMPA standard r a n c h mink was 92 per cent sold at Hudson's Bay Company fur sales, New York. Prices according to the report, were very firm compared to the January sale and there was a strengthening tendency evident on females and lower end merchandise.

**One-Time Judge Who Made History In 1933 Dies At 79**

WINNIPEG (CP) — Lewis St. George Stubbs, removed from the bench in 1933 in the course of a legal and political career that made his name known across Canada, died here Monday night. He was 79.

His dramatic removal from the bench was mainly due to charges concerning his actions in 1929 and 1930 as Manitoba Surrogate Court judge. He had refused to grant letters of administration in the estate of Alexander MacDonald, millionaire Winnipeg merchant, to MacDonald's daughter, Mrs. Grace Anne Forlong, and her husband.

The Manitoba Court of Appeal granted the letters over his head and, he charged, clandestinely. He held a public meeting in a Winnipeg theatre and a resolution was passed asking the legislature to invalidate the Appeal Court action.

Superior Court Judges asked the federal justice minister to remove Judge Stubbs from the bench and Mr. Justice Frank Ford was appointed royal commissioner to investigate.

ADJUDGED GUILTY  
The 24-day hearing created intense interest across the country. Judge Stubbs suggested that the inquiry be held in the Winnipeg Auditorium and that admission be charged.

After hearing 600,000 words of evidence Justice Ford found him guilty of judicial misconduct. Testimony included the fact that Judge Stubbs had often said that "there is one law for the rich and another for the poor."

In his own defence, the judge said: "I would much rather have done what I did and go off the bench, than not to have done it."

LONDON (Reuters) — A Pan-Am DC-7 airliner carrying 32 persons landed safely on three engines at London Airport Monday after being escorted for the last 1,300 miles of its Atlantic flight by an RAF plane. The airliner, flying the polar routes from San Francisco to London via Frobisher in the Canadian Arctic, sent out distress signals about two hours flying time from the Irish coast.
