OUT OUR WAY By J. R. WILLIAMS

AMONG THE FARMERS

Federation of Agriculture Newsletter

With one down and two to go the County annual meetings seem to be shaping up very well. The meeting at Hunter River had the best attendance there has been for some time. There was probably more discussion on the part of the audience on some of the important matters that came up.

The Superintendent of the Experimental Farm added a practical touch with his excellent talk on Conservation. The story was told in language that the listeners could understand and it went to the point. The President of the Provincial Federation, Mr. Waugh did an excellent job of explaining where the Federation stands on farm problems and how it can assist farmers in their solution.

Resources Roads A question of interest being discussed at the Federation meetings is that of the proposed Federal-Provincial road building program. Up to this point the emphasis has been placed on roads to develop the tourist industry and to a lesser extent the fishery. No one will question the importance of our farm resources or is likely to doubt the value of good roads, leading to all our markets.
