A telegram from Toronto of the 14th inst., says:—"Last evening as a party of ladies and gentlemen named E. Coleman, Miss Carrie Coleman, Miss Kate Gage, Miss Creighton, and George Creighton, were rowing on the Desjardines Canal, the steamer Argyle passed them, causing their boat to upset. Efforts were made to save them, but all were drowned except George Creighton.

A fire occurred in Brantford, Canada West, on the 14th inst., which resulted in the destruction of thirty buildings. The loss of property is estimated at $125,000.

NEW BRUNSWICK.

WESTERN EXTENSION SURE.

IMPORTANT NEWS.

We are authorised to announce that the New Brunswick and Maine European and North American Railway Companies have made contracts which involve the following provisions and results:

First. The New Brunswick Company will take $200,000 in stock, paying the same down in cash, as required.

Second. The Maine Company will find the balance of capital beyond this sum and the Government gift of $10,000 a mile required to complete the New Brunswick portion of the road to the American frontier, that company having already secured the funds required for its own end of the line, conditionally on the entire line being carried through.

Third. The Maine Company will build the road of a character satisfactory to the New Brunswick Government and Company, and when it is completed, they will accept a Lease, which the New Brunswick Company agrees to grant, of the road, the rent to be sufficient to cover the interest of the stock, minus the Government gift of $10,000 a mile.

Thus the Government subsidy and the New Brunswick subscription list will enable the Maine Company to obtain the capital for *their* line, while *they*, in turn, so deeply interested in our road, will reciprocate New Brunswick co-operation and with characteristic energy make the work a fixed fact.—*St. John N. B. Journal.*

CITY COUNCIL.

At a Meeting of the above, held on Saturday last, his honor the Recorder read a Copy of a letter addressed by him, to the Hon. Attorney General, respecting a nuisance on Grafton Street, and that he had waited on that officer, who stated that he deferred giving an answer until he had submitted the question to the local Government. The Clerk read a letter from Charles Wright, Esquire, agent for Lady Wood, proposing to sell to the City, the vacant Lot on South Side Queen Square, for a Market House to be erected thereon, the price of said Lot to be £1,200 P. E. Island Currency. A discussion then took place relative to the purchasing of said Lot, for the purpose of building a Market House thereon, in order that the Queen Square site might be fenced in and ornamented.

Diversity of opinion on that subject was expressed by several Councillors; no definite action was taken thereon for the present.

On motion, the law for the Inspection of Flour was amended, making it imperative on the Inspector to open barrels short of weight, and cause the same to be filled to proper weight.

A tender from Mr. William C. Lockerby was read offering to contract with the City for watering the public streets.

It was ordered that a contract be entered into with Mr. Lockerby for one Water Cart, on the terms of his proposal.

Councillor W. E. Dawson, Chairman of public accounts, submitted several Accounts due for work on Streets, &c., all of which were ordered to be paid.

DETROIT CONVENTION.

A public meeting, convened in compliance with a Requisition of the citizens, by his Worship the Hon. T. H. Haviland, Mayor, was held at the City Hall, on Tuesday evening last, to consider the expediency of sending Delegates to represent P. E. Island interests at the Detroit Convention. His Worship the Mayor was called to preside over the meeting, and P. McGowan, Esqr., City Clerk, was appointed Secretary.

His Worship the Chairman, opened the meeting, by a few explanatory remarks, relative to the object for which it was convened.

After which the Hon. Mr. Coles addressed the meeting on the subject of the Reciprocity Treaty—its advantages to this Island—the injurious consequences which would follow its abrogation, and the necessity of using every means possible to secure the continuance of that Treaty. At the close of his remarks the Hon. gentleman moved the following Resolution, viz:—

RESOLVED, That this meeting deems it highly expedient to send a delegation of three members to represent the interests of this City, at the Convention of Mercantile Bodies to be holden at Detroit, on the 11th of July, proximo, to consider the question of Reciprocal Trade between the United States of America and the British North American Provinces.

Hon. Mr. Beer seconded the above Resolution, and also briefly addressed the meeting on the subject under consideration.

J. S. Carvell, Esq., then read to the meeting a letter from Mr. Aspinwall, President of the Board of Trade, of Detroit, showing the object of the Convention, and requesting Delegates to be appointed to represent the Mercantile interests of the City of Charlottetown. He also read a letter from Mr. Hickson, Secretary of the Grand Trunk Railway, granting free passes over the Railway, to Delegates to the Convention at Detroit.

A discussion then followed as to the best steps to be taken, in the absence of a Chamber of Commerce, for the appointment of Delegates for this Island, during which different opinions were expressed.

Hon. Messrs. Coles, E. Palmer, and F. Brecken, Esq., spoke in favor of their appointment by the Government, and the defraying of their expenses by the Legislature, as the Agricultural as well as the Commercial interests of the whole Colony were involved in the important question of the Convention.

Hon. Messrs. T. H. Haviland, J. C. Pope, D. Laird, B. Davies, Esq., and others, were opposed to the Government have anything whatever to do with the subject, on the grounds that the Convention was purely Commercial, and that the invitation, emanating from the Detroit Board of Trade, was addressed to the respective Boards of Trade or Chambers of Commerce throughout the Colonies, and not to Governments; and also that in the other Colonies no Delegates had been appointed by Government.

J. S. Carvell, Esq., then moved the following resolution, seconded by B. Davies, Esq.:

RESOLVED, That in order to the carrying out of the foregoing Resolution, it is expedient that a Chamber of Commerce be constituted.

Which was unanimously carried.

The meeting was also addressed by the Hon. Messrs. J. Longworth, A. A. McDonald, of Georgetown, and F. Brecken, Charles Palmer and H. Haszard, Esqrs., and others, all of whom concurred in the necessity of taking immediate action to secure the representation of the Colony at the Convention.

It was then resolved that a Committee of five gentlemen be appointed to draft a Constitution for a Chamber of Commerce for the City of Charlottetown, and that the following gentlemen compose the same, viz:— J. S. Carvell, W. Heard, H. Haszard, J. C. Pope, and L. C. Owen, Esqrs.

After which the meeting adjourned till Wednesday evening at 7 o'clock.

ADJOURNED MEETING.

WEDNESDAY, June 28.

His Worship the Mayor in the chair.

The Committee appointed to draft Rules, &c., reported a code of regulations for the government of a Chamber of Commerce, which were read, and a list of subscribers to the same was also submitted. After which it was resolved that that meeting close, and that those gentlemen favorable to the formation of a Chamber of Commerce, should enrol their names on said list, and proceed to the appointment of officers, &c.

Hon. D. Brenan was then called to the chair, and A. H. Yates, Esq., requested to act Secretary *pro tem.*

After which the Meeting proceeded to the election of Officers, when the following gentlemen were appointed:—

Hon. D. Brenan, President; Hon. D. Davies, Vice President; W. Heard, Esq., Treasurer.

COMMITTEE OF GOVERNORS:

Hon. J. C. Pope, Hon. T. H. Haviland, Hon. George Beer, L. C. Owen, Benjamin Davies, Owen Connolly, John Ings, William Dodd, D. Laird, Wm. Heard, J. S. Carvell, H. Haszard, Esquires.

The meeting then adjourned until Thursday evening, at 7 o'clock, then to meet for the purpose of nominating Delegates to attend the Detroit Convention.

☞ At the adjourned meeting on Thursday night, the following gentlemen were elected Delegates: Fredk. Brecken, Esq., W. Heard, Esq., and Hon. G. Coles.

SUPREME COURT

Daniel Jackson Roberts, vs. the Government of P. E. Island.

This was an Action brought by Mr. Roberts against the Government, to recover £50 for services rendered as an Accountant in the preparation of the Classified Public Accounts for 1864. The Government valued Mr. Roberts' services at £15. The suit was tried and the Jury returned a verdict for the Plaintiff, £36. Mr. Roberts had been employed in March last, on behalf of the Government, to assist the Auditors in preparing the classified accounts; no stipulation was made as to remuneration. Mr. Roberts was occupied six days—for which he charged £50, on the plea that he had worked incessantly at the rate of sixteen hours each day. The Government considered the demand extravagant and refused to pay it.

It was strongly urged by the Counsel for Defendant, that as the Crown pays no costs, their verdict should be for a sum sufficient to cover the costs, in addition to the sum they might award Defendant as remuneration, and it is fair to assume the Jury acted on this principle.—*Isl.*

Died,

At Rustico, on Thursday, June 22nd, Mr. Abram Pineau, in the 78th year of his age, leaving a widow, a family, and a large circle of relatives and friends to mourn the loss of an affectionate husband, a kind parent, and a true friend. Deceased was a Director of the Farmers' Bank at Rustico, and had won the esteem and confidence of the Society for his integrity and good judgment in the management of affairs concerning that institution.—R. I. P.

The Archduke Rudolph, aged seven, heir apparent to the Austrian throne, having lost his fresh colour and healthy appearance, a physician was summoned to examine him, and soon discovered sufficient reasons for his indisposition. It appears that the little boy was practically taught five languages at one and the same time by means of attendants of five different nationalities; he was regularly drilled, and every now and then he was awakened in the night in order that he might learn to have his wits about him.

Waltham Watches and Ayer's Pills are said to be the highest specimens of American art, each of their kind: one in mechanics and the other in medicine. With a Waltham watch in one pocket and a box of Ayer's Pills in the other, you should be at your work in season with the health to pursue it.—*Advertiser, Norway, Me.*

which are now recommended by the highest medical authorities and warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure, and must supercede all other tonics where a healthy, gentle stimulant is required.

They purify, strengthen and invigorate.

They create a healthy appetite.

They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours.

They strengthen the sytem and enliven the mind.

They prevent miasmatic and intermittent fevers.

They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation.

They cure Diarrhœa and Cholera Morbus.

They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya bark, wintergreen, sassafras, roots and herbs, all preserved in perfectly pure St. Croix rum. ANTIQUITY OF A BAD HABIT.—Henry the Fifth was a learned prince, but he had the bad habit of borrowing books and never returning them. After his death a petition was sent to the Regency by the Lady Westmoreland, his relative, praying that her Chronicles of Jerusalem and the expedition of Godfrey of Boulogne, borrowed of her by the late King, might be returned. The Prior of Christ Church likewise, in a most pitiable complaint, said that he had lent to his dear lord, King Henry, the works of St. Gregory, but they had never been restored to him, their rightful owner.

A Clergyman of the Church of England has shown recently the power of stating debtor and creditor account better than has ever been done by even the most intelligent accountant. In his new church he has two distinct pews, one side of the church being for those who have paid pew rent who are his creditors, the other side having pews for those who do not pay pew rent—that is the Reverend gentleman's debtors.

According to a letter from Lemberg, a serious fire has occurred at Bely. In an hour and a half 100 houses were consumed, and 400 poor Jewish families were left without shelter. The damage exceeds 400,000 florins. A subscription has been set on foot by the local authorities.

A fellow just sentenced to five years imprisonment at Sing Sing was married on Tuesday to a young lady who had given him her heart in brighter days. The ceremony was performed in one of the New York jails, and the bridegroom went to prison on Wednesday.

Ayer's Cathartic Pills

Are the most perfect purgative which we are able to produce, or which, we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the ordinary medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart a healthy tone with strength to the whole system. Not only do they cure the every day complaints of everybody, but also formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief, were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted, suffering fellow men.

The Agents below named are pleased to furnish gratis our American Almanac, containing directions for the use, and certificates of their cures, of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifyng the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body, or obstructions of its functions.

Do not be put off by unprincipled dealers with other preparations which they make more profit on. Demand AYER's and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by DR. J. C. AYER & Co, Lowell, Mass. and sold by Geo A. Bayard, St. John, N. B.; Avery Brown & Co, Halifax, N. S.; and by W. R. WATSON, Ch'town, P. E. I.

Holloway's Ointment and Pills.—Ulcerous sores and scrofulous eruptions of the worst kind, for which all sorts of "established" remedies have been tried in vain, have been thoroughly cured, in an almost incredibly short time, by Holloway's Ointment. The common topical applications are mere palliatives; but this unrivalled Unguent penetrates the source of the evil, destroys the secret virus, and gets rid of the disease for ever. In ordinary cases the Ointment should be briskly rubbed into the parts affected; but if they are too tender or irritable for this process, they should be gently smeared with it at least twice a day. The most inveterate external diseases will yield, sooner or later, to this Ointment.

IF THE BABY IS CUTTING TEETH, use that old and well-tried remedy, MRS. WINSLOW'S SOOTHING SYRUP, which greatly facilitates the process, and is sure to regulate the bowels. It relieves the child from pain, corrects acidity and wind colic, and, by giving the infant quiet, natural sleep, gives rest to the mother. Offices, 48 Deystreet, N. Y, and 205 High Holborn, London, England.

A THING OF BEAUTY IS A JOY FOREVER.— Who can be beautiful with a sickly pale complexion? Keep the pores of the skin free, and the blood pure, and your cheeks will vie with the Rose and Lily. The skin is formed with thousands of pores in every inch of surface, whose office it is to carry off the impurities of the blood—the acknowledged cause of all disease of mankind. When the skin is dry and parched—when it is covered with eruptions—when it is cold and clammy—when there is inward fever or inflammation—it is impossible for the skin, under these circumstances, to perform its proper functions, and to carry off the impurities from the body as designed by our Creator. JUDSON'S MOUNTAIN HERB PILLS remove these obstructions, and produce free and healthy blood, remove the eruptions from the skin, and cause it to brighten with the flush of youth and beauty. Beauty so much admired and loved. Beauty without paint and cosmetics; but beauty produced by health and happiness. Judson's Mountain Herb Pills are sold by all Medicine Dealers.

TEA TIME.

Come Lucy, put the kettle on,
I'm thirsty as can be,
And nothing do I doat upon
So much as Bell's famed Tea.

It cheers, revives, and freshens me,
These sultry summer days,
And dearly do I like to see,
My Caddy full always.

But now I find 'tis running low,
And therefore bye and by,
To Bell's pray do not fail to go,
And get a fresh supply.

And as the price of Bell's famed Tea
Has lately been reduced,
Of course we very soon shall see,
Much benefit produced.

For a trifle less in every pound,
Which we are wont to buy,
Will save before the year comes round,
A dress for you and I.

OCULIST-OPTICIANS,

15 Bernard Street, Russell Square, London, G. B., and at the Halifax Hotel,

Desire to inform the Clergy, Gentry and Inhabitants of Charlottetown and vicinity that Mr. N. LAZARUS, a member of the firm, is now on a professional visit to P. E. Island, and can be consulted at the PAVILION HOTEL, Charlottetown, on and after MONDAY, the 10th JULY next, for TWO WEEKS ONLY.

The great success of Messrs. L. & Co., as OPTICIANS, is to be found in their peculiar skill.—Any one with weak or impaired vision will find

The Adaptation of Lenses to the Eye

attended with only pleasing results. The eye is first examined, and on that examination the Optician bases his selection of the Lenses. It will be found that

The First Pair of Spectacles invariably suit,

and will be necessarily grateful to the sight, and the eye so fitted with spectacles possessing the requisite power, neither more nor less, do not fail, or require the constant changes that are so necessary where badly fitted or improper glasses are used.

To Consumers of Gas.

THE Directors of the Charlottetown Gas Light Company will loan, FREE of CHARGE, a few Patent Gas Cooking Stoves. Consumers desirous of proving these most desirable and economical Gas Ranges are requested to make an early application at the Gas Works, as only a limited number will be disposed of.

By order,
WM. MURPHY, Manager.

TESTIMONIALS.—REPORT OF COMMITTEE OF HOTEL PROPRIETORS, PUBLISHED IN GUYER'S PROGRESSIVE AGE, CHICAGO, ILL.—We, the undersigned, present by invitation, yesterday, to witness the operation and working of the new principle of gas used for cooking purposes, were present during a series of experiments, in our view fully calling out the utility of these Stoves. As the result of actual experiment the following was performed:—

Beefstake was cooked in four minutes, its juices and flavor retained; and, further, the claim of the inventor abundantly sustained, by this process tough meat is rendered tender and delicious.

Quail were, in two instances, broiled in five minutes, and that to a turn.

Bread cut fresh from the new loaf was delicately browned in two minutes.

In each case these viands would be pronounced deliciously and thoroughly cooked. In the case of the meats, the exterior surfaces were coagulated and rendered firm; the substance of the whole, when cooked, retaining their juices and flavor.

In neither nor any case was there the faintest perceptible flavor or odor of gas in or about the Stoves, or in the food when cooked. We regard the process as entirely superior and successful.

SAMUEL HAWK, Richmond House.
GEO. H. FRENCH, W. F. TUCKER, } Briggs House.
J. W. HUMPHERY, Massosoit House.
A. M. STODDARD, Revere House.
JOHN WRIGHT, "Anderson's."

The cost of cooking by this method we append as made up from careful tests yesterday, accepted but not tried: 12½ lbs. bread cooked in 42 minutes, consuming 4 cubic feet of gas, cost 1 cent. 2 lbs. steak broiled in 5 minutes, consuming ½ of a cubic foot of gas, cost ⅓ of a cent. 1 quart water boiled in 9½ minutes, consuming 1 cubic foot of gas, cost ¼ of 1 cent. 24 breakfast biscuit baked in 12 minutes, consuming 1 foot of gas, cost 2½ mills.

Having frequently examined the mode of action of SHAW'S STEAK-BROILER, I have been led to the conclusion that the tissues and integuments of tough meat are ruptured and broken through the effect of highly heated, even red hot steam, of which this gas-flame is highly composed. At the first instant this steam penetrates and scalds the meat, and the subsequent browning retains a portion of the water formed, with the juices produced.

The gas-flame, as obtained in the devices of Mr. Shaw, is the purest flame which art affords; and there is nothing present, as vapor of gas, which can give odor to, or any way interfere with the production of the delicious flavour of broiled meat.

This apparatus secures the greatest economy of time in cooking steaks; it renders the toughest meat more tender than in any other mode of broiling it, and, with the simple noting of time, enables the cook to produce with certainty any gradation of effect.

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston Street, Boston.

FROM WILLIAM M. LORING.

W. F. SHAW.—The Gas Cooking-Range and the Gas Heating-Stoves of your invention, which I have used the past four years, I can unhesitatingly say have given me perfect satisfaction; and I can confidentially recommend them, as I have found them, to be the most economical and convenient cooking and heating apparatus I have ever met with.

In the Gas Cooking Range, the quality of the food is most surprisingly improved. The juices of the roasted meat are all retained, so that they do not appear to lose any of the weight. In the course of a season, this saving amounts to quite an item in the economy of this mode of cooking, as it is a well known fact that meats lose much of their weight when cooked in the ordinary coal range oven.

Respectfully yours,
Boston. WM. M. LORING.

From D. B. COOK, 111 Lake st., Chicago.

I regard W. F. Shaw's Patent Gas Smoothing Iron" as one of the greatest inventions of the age. It is all you claim for it,—novel, economical, and exceedingly convenient.

The much-dreaded "ironing day" is welcomed with pleasure wherever the Gas Iron is used; and no housekeeper will consent to be without it after giving it a trial.

Yours, &c. D. B. COOK.

From Mrs. W. W. Everts, Chicago.

It is with pleasure that I give my testimony to the great value of the Gas Stove you are now offering to the public. The Stove for ironing I regard as a desideratum long needed in housekeeping.

The fatigue and exhaustion occasioned by many hours spent at the ironing-table, in a room heated to the ordinary temperature, is all spared by using your stove, which heats the irons quickly, and leaves a comfortable room.

This stove is equally successful as a broiler.—Much more might be said in simple justice to this great invention were it necessary.

Yours respectfully, MRS. W. W. EVERTS.

WANTED, a Farmer Servant; must be a good Ploughman; liberal wages will be given. Also, a Lad about 16 years of age. Apply to the subscriber.

The Union of the British Provinces.

A brief account of the several Conferences held in the Maritime Provinces and in Canada, in September and October, 1864, on the proposed

Confederation of the Provinces,

together with a REPORT OF THE SPEECHES delivered by the Delegates from the Provinces, on important public occasions. Compiled by the Hon. Edward Whelan, M. P. P., (one of the Prince Edward Island Delegates.) Charlottetown, Prince Edward Island: Printed by G. T. Haszard, 1865.

The above little work contains 239 pages. It has just been issued from the press, and is handsomely bound in boards, cotton and roan. It contains the principal speeches delivered on the question of Confederation during the progress of the Conferences in the Maritime Provinces and in Canada, with a brief narrative interweaving the events which called forth the speeches. The speeches have been carefully revised and corrected—in most cases by the speakers themselves, and all superfluous matter relating to merely passing incidents eliminated from them.

Those who take an interest in the question of Confederation—(and their number is not on the decrease, but the reverse,)—may, it is hoped, find this Compilation useful for instructive reference.

Only a limited number is reserved for sale. They may be had at the Bookstores in the course of the present week. Prices—3s (Boards)—4s (Cotton)—4s 6d (Roan). [June 5, 1865.
