## Lightest And Heaviest On Halifax Team Combine For 5-3 Win Over Beavers

HALIFAX, Nov. 7—(CP)—Muckle Hollett, lightest player on the team, and Eddie Brown, the heaviest, combined tonight to lead Halifax St. Mary's to a 5-3 victory over Saint John Beavers in a Maritime Senior Hockey League game here.

Fast and elusive, Hollett sped through Beavers for three goals, while heavy-shouldered Brown contributed three assists.

The win gave second place Saints a three-point lead over Beavers. In turn, Halifax trails Charlottetown Islanders by seven points.

Thirteen penalties were called by referee Stan Swain in a heavy bumping game. Thomas and Platz drew majors for fighting in the first period, while Labelle and Black received the same sentence for trading blows in the second period. Brennan, who took a swing at tormenters back of the screen, sat out a misconduct penalty.

The game was held up for five minutes while first aid was given referee Swain, knocked to the ice when involved in a collision with Heon and Campbell.

Beavers led 3-2 at the end of the first period but fell apart in the middle frame when Saints roared through for three goals. There was no scoring in the final period.

Hollett opened the scoring, deflecting Watson's puck into the net on a play that had been started by Eddie Brown.

Beavers swept back and Paul Platz, former Cape Breton League player, fired the goals past D'Aoust. Tommy Brennan, at marked in the corner, set up the first. Whitlock made the play on the second.

Hollett and Hughie Campbell tied the score on a breakaway. Hollett scored the shot. But the Beavers forced ahead again on Heon's screened shot.

Saints put on the pressure in the second period. After six minutes of play, Watson deadlocked the score 3-3. Brown and Wilkes were given assists on the goal.

Less than a minute later, Thomas scored the winning goal on a backhand shot that barely staggered over the line.

Line-ups:  
Saint John: Goal, Brodeur; defence, Labelle, Heon; centre, Whitlock; wings, McIntyre, Nicolie; subs, Bolton, Blackburn, Mudie, Brennan, Jodan, Armstrong, Jackson, James, Platz, Mousseau, Labelle.

**More Police When Islanders Play At Moncton**

MONCTON, N. B., Nov. 7—(CP)—City Council decided tonight that "six additional policemen be in attendance when required" at the Stadium here.

The decision came after Alderman A. E. Store said better protection is needed during Maritime Senior Hockey League games—especially when league-leading Islanders come to town.

"It used to be Saint John, now it's Charlottetown," said the Alderman. At present three policemen and six members of the Corps of Commissionaires are on duty at hockey games.

**Eight Clubs Represented On All-Star Baseball Team**

By Joe Falls  
NEW YORK, Nov. 7—(AP)—Eight clubs are represented on the 1950 Associated Press All-Star baseball team, but the National League champion Philadelphia Phillies drew a surprising blank.

Not even their Jim Konstanty, the loop's most valuable player, could make the grade. The great relief specialist placed fourth among righthanded pitchers.

On the other hand, Phil Rizzuto, the A. L.'s most valuable player, was an overwhelming favorite. The New York Yankee shortstop was named on the most ballots, 360. The Phil's Gran Hamner received only nine votes.

The American League, as usual, dominated the team, as selected by 381 sports writers and sportscasters. Seven junior leaguers were honored, compared to only four for the National.

The Moncton crew had to do it the hard way too. After battling an overtime 3-3 deadlock with Halifax on Saturday night, the Hawks took to the ice on Monday against Beavers to come from behind a one goal deficit twice for their winning effort. Their recent victory has sent them to three wins and a tie in their last six starts. Pretty smart average for a team that is holding down the cellar position in the League standing.

Due to the fact that this column was written prior to last night's game, there can be no comment as to how they fared out against the Islanders here but the details can be found elsewhere, however, on the sporting page of this paper. But a little advance prediction as to the outcome of that game might be in order.

Despite Hawks recent strong showings against the other two teams in the League, Saint John and Halifax respectively, it is doubtful if the Hawks are in a position yet to overcome the powerful Chamberlain-coached Islanders. There is a wide difference between the styles of the two teams, and the difference is mostly in favor of the Islanders.

Using a wide-open, fast and aggressive method of attack, the Islanders have been dishing out a style of play that the Monctonians have been unable to cope with so far this season. In a little more seasoning, the Islanders are expected to have suffered defeats that the Hawks have suffered to date. It may be that coach Drillon will have adopted a new method of combating this at last night's game. But what that would be is hard to say, judging from what has been seen so far this season.

They have tried matching stride for stride and bump for bump, but it got them no further than their worst defeat of the season, 11-2 here a week ago Monday, when the game was open and only two penalties handed out. They have adopted the defensive style of play against the Islanders too, but that hasn't worked either. From what has been seen of their play this year, they haven't got the speed to lay back and wait for the breaks. There is too much speed and effective backchecking on the Islanders' roster.

However, much of the Hawks may have been changed since the Hawks passed here last, but it is doubtful if such a change will be sufficient to hold down that hard checking, goal hungry group of players known as the "Islanders". It could be, but we doubt it. Such might be the case later on in the season, who knows, but right now we still think it will be the "winless" Hawks as far as the Islanders are concerned.

ling in sterling-area countries, and also in certain countries which are closely connected with it; such as Belgium, Belgian Congo, Norway, Sweden, Egypt. These are known as "special arrangement" countries.

In other countries payment for Canadian goods must be made in United States dollars.

This dollar resolution said that present regulations add the burden of exchange risks to the already numerous problems of Canadian exporters.

The resolution asking Commonwealth and "special arrangement" countries to make more Canadian-earned dollars available for spending for Canadian goods, notes that the dollar position of these countries has improved and that Canada has contributed to the improvement by encouraging imports from them.

The resolution stated that the import of the recent liberalization of conditions for entering the British West Indies market is not yet fully apparent.

"Comment should be made, however, that the new agreement, which is restricted to certain products or groups of products, does not permit all products to be exported that were exported in the base years, and therefore it seems to be discriminatory."

The resolution seeking better trade conditions with the United States says that many United States products are admitted to Canada on a much lower rate of duty than the corresponding Canadian products entering the United States.

It adds:  
Unfair competition is faced by Canadian exporters as a result of U. S. Government subsidies on certain products; example—the U. S. potato subsidy.

The resolution on use of Canadian shipping facilities states that Canadian vessels, Canadian railroads and Canadian ports have played an important part in the development of Canada's trade and are essential to Canada's defence; and "as large a measure of employment as possible should be afforded Canadian seamen and other shipping labor."

**Canadian Exporters Present Case To Federal Gov't**

By Forbes Rhude  
OTTAWA, Nov. 7—(CP)—Canadian exporters today asked that they be allowed to accept Canadian dollars in all countries in payment for their goods.

They made the request on the Canadian Government by resolution passed by the annual convention of the Canadian Exporters Association.

Other resolutions asked:  
That the United Kingdom allow non-self governing territories in the Commonwealth to use for buying in Canada a substantial part of the dollars they earn from selling in Canada, without discrimination as to the kind of products, whether they be primary or manufactured; and that the self-governing Commonwealth countries and certain "special arrangement" countries also spend more Canadian-earned dollars to buy here. Special trade delegations to these countries was suggested.

Further:  
That the Canadian Government increase its efforts with the United States to provide for mutual trade "on an equitable basis, and mutual treatment of similar goods entering both countries."

That wherever and whenever shipping rates and facilities are competitive, Association members be urged to give first consideration to Canadian shipping services and that the Government take whatever economic steps are possible to increase Canadian shipping facilities to the point that so far as is practicable Canadian goods be shipped in Canadian bottoms through Canadian ports.

The resolution asking that payment in Canadian dollars for Canadian exports be allowed in all countries said that, falling this, all possible efforts should be made to maintain existing "special arrangements" and to extend them to dollar-area countries, particularly to Latin-America; "thus developing the Canadian dollar into a true world currency."

At present exporters may accept Canadian dollars or pounds sterling.

**Maine Continues To Have Sept. Voting**

PORTLAND, Me., Nov. 7—(AP)—The rest of the United States holds its elections in November but Maine continues to have September state elections for reasons that date back 130 years.

When Maine's constitution was written in 1819, travel to polls was difficult at best and impossible in bad weather.

So those who wrote the constitution provided that "the election of governor, senators and representatives shall be on the second Monday of September annually forever."

The day chosen was between the early and late harvests, the least busy season for rural folks.

## Third Period Goal By McKenzie Gives Moncton 2-1 Win In Game Here

Two goals by Rod McKenzie and outstanding goaltending by Les Colvin were the two big features that paced the Moncton Hawks to a 2-1 victory over the Islanders here at the Forum last night for their fourth victory in Maritime Senior Hockey League play this season.

The win puts Moncton to within three points of third place Saint John Beavers who lost to Saint Mary's at Halifax last night. The Islanders still lead the loop with 22 points over Halifax who jumped their points to 15 in their win over Beavers.

Playing their best game ever at Charlottetown ice this season, McKenzie sent the Drillon-coached Hawks to one goal lead in the first frame when he went on a two-man breakaway with Lou Milani during a pressure attack by Islanders. Set up by Milani's pass, McKenzie tore in on left wing to fire a hard shot that beat Hal Gordon cleanly. The goal came at 16:59.

Kevin Conway tied it up for Islanders at 4:27 of the second period when he fired in a screened shot from a couple of feet inside the Hawks' blueline on a passout from Bucko Trainor during a gangling attack inside the opposing blueline.

McKenzie again made the red light flicker at 8:40 of the final canto for the winning goal with a fluke shot. It came during a Hawks power attack around the Islanders cage, McKenzie flipping it into the air, the puck bouncing off Gordon's shoulder and into the net behind him. Islanders were playing a man short at the time, Johnny Duchak serving two minutes for elbowing.

But on the whole, it was an exhibition of good, hard and indifferent hockey. Most of the thrills were confined to the last ten minutes of play when the Islanders pressed to even the score.

The Drillon-coached team appeared an improved outfit, exhibiting confidence born of aggressiveness as they took advantage of every momentary lapse on the part of the disorganized Islanders.

But the big factor in the Hawks' win was the sterling performance by Les Colvin in the Moncton cage when he kicked out 29 shots on the nights play against 19 on Hal Gordon, who also made some smart saves against intruding Hawks forwards.

Colvin was particularly outstanding in the third period when he weathered 12 shots banged at him during pressing Islanders gangling attacks. Holding the better of the play in an effort to get the equalizer, the Islanders hemmed the Hawks in behind their blueline that only allowed them four shots on Gordon in addition to their winning tally.

Colvin's performance earned him the "best player" award of the night, a new hat donated by Henderson and Cudmore of Charlottetown.

Line-ups:  
Moncton: Goal, Colvin; defence, Gallipeau, Jeanneau; centre, McKenzie; wings, Morrow, Denny, Barkwell, Demchuk, Richardson, Imonti, Win Mousseau.  
Charlottetown: Goal, Gordon; defence, Conway, McLagan; centre, Beaudry; wings, D. Horeck, Gray, Subs, Travis, Duchak, Vitale, Trainor, Favaro, Pawlynszyn, Bathgate, J. Horeck, Beaton.

**Pittsburgh Fans Excited Over Rickey**

PITTSBURGH, Nov. 7—(AP)—Excited Pittsburgh baseball fans were virtually unanimous today in their reaction to the news of Branch Rickey's move to Pittsburgh Pirates.

The happy chorus went like this: "We can't do any worse than last year."

The die-hard Buc followers referred to the 1950 race which found their heroes wearing the National League dunce cap.

Pennant-hungry Pittsburgh hasn't had a championship club since 1927. The city caught pennant fever four years ago when the present Pirate owners took over.

Despite the Bucs' poor record since then the Forbes Field turnstiles have clicked beyond the 1,000,000 mark each season.

Rickey took over the reins at Forbes Field Monday.

The baseball wizard cleared out of Brooklyn a week ago after selling his stock in the Dodgers. He is executive vice-president and general manager—one of three, he whimsically announced—in the new Pirate setup.

Rickey is widely regarded as the most capable front office manipulator in the game.
