The Best Man! THE STATESMANSHIP OF THE PURITY PARTY. (From the Toronto Mail.) The infinite versatility of the Party of Purity is just now being exhibited at Prince Edward Island. We in Ontario who have seen the Purists denounce and support Conditions, and anathematize and practice corruption, do not wonder at the sight; but the good people by the sea are amazed.

Queen's County in the Commons: JAS. C. POPE TO REPRESENT

The Issue: WILL WE OR WILL WE NOT TAMELY SUBMIT TO BEING YET DEPRIVED OF REPRESENTATION IN THE CABINET? DO WE OR DO WE NOT APPROVE THE ACTION OF THE DOMINION GOVERNMENT IN REMOVING MR. LAIRD, AND NOT EVEN OFFERING HIS VACANCY TO A REPRESENTATIVE OF THIS PROVINCE?

THIS IS THE SQUARE ISSUE NOW BEFORE THE PEOPLE OF QUEEN'S COUNTY. The Examiner, Charlottetown, Nov. 20, 1876.

THE SQUARE ISSUE. Let the questions upon which the people have to decide next Wednesday be fairly understood. They are no mere local issues, but concern the policy of the Dominion Government.

Do we approve of the base attempt to rob one-half of the electors of this Island of their franchise? Do we approve of P. E. Island being deprived of its only seat in the Cabinet? Do we approve of subsidizing a Bank with \$20,000 to \$30,000 a year of the public money, because its President came down handsomely to help in a "Big Push"?

Do we approve of subsidizing the Speaker of the House of Commons with eight thousand one hundred and seventy dollars, contrary to the spirit and letter of the law? Do we approve of subsidizing a Cabinet Minister (Mr. Vail) with a fat printing contract, contrary to the spirit and letter of the law?

Do we approve of paying four cents a pound more on sugar, only to put money into the pockets of Yankee sugar refiners? Do we approve of the Steel Rail transaction through which the country has lost \$900,000? Do we approve of Mr. Cauchon as President of the Council?

Do we approve of Mr. Laird's slooping off to the Northwest with a parcel of beads and looking-glasses for his Indians, forsaking the interests committed to his care, without saying one word to his constituents? Do we approve of the hypocrisy which leads a Party to brow beat "purity" and to "elevate the standard" in such a way as to lose FORTY SEATS FOR BRIBERY?

To vote for Mr. Welsh says "Yes" to these questions. To vote for Mr. Pope says "No." We have little doubt how the intelligence and honesty of the free and independent electors of Queen's County will dictate their answer.

MR. DEBLOIS' LETTER. We again publish Mr. DeBlois' letter for the benefit of the Patriot. To the Editor of the Examiner.

Sir:—From the action taken by several members of the Local Government in the present Queen's County Election for the Dominion House of Commons many of my political friends may be surprised that I, a staunch Liberal Conservative, should, up to this time have kept aloof from all party meetings.

My reason for so doing is indeed that given by yourself in the article, which appeared in the last issue of your journal, headed "Meeting in the Athenaeum," although your words express a little more than my views. You say: "Local politics have nothing whatever to do with Dominion Politics; and Mr. DeBlois is, no doubt, that Local Government Official should take no account whatever in Dominion Elections." Now, if these words are meant to be simply upon the present state of Local Politics in this Province, I entirely concur in them, but not in their more extended application.

I maintain that the first duty of a constitutional government is to look to the interests of those from whom their power is derived, and to carry out to the best of their ability the measures upon which they were allowed to assume the reins of state. Now, to do this effectually, harmony should exist to the greatest possible extent, at least amongst the members of the Executive. Our present Local Executive is composed of, I think, five "Liberal Conservatives" and four "Reformers." Now, suppose the five "Liberal Conservatives" even one of them had met the four "Reformers" at such meetings as that at the Athenaeum, where would have been the harmony in the Executive, and what might have been the result to the subject for which its members were elected? Feeling, then, that my duty to those who brought the present Government into existence, was, if possible, to maintain harmony in that Government, I have up to this time refrained from taking any part in Political Meetings, and may still continue to do so, although I do not hesitate to say, that, as an individual elector I shall record my vote in favor of the Liberal Conservative Candidate, Mr. J. C. Pope; and shall advise any Liberal Conservative who ask my advice to do the same thing.

I am, sir, your obedient servant, G. W. DEBLOIS, Devonport, Charlottetown, Nov. 9th, 1876.

IS THIS FAIR REPRESENTATION? Ontario 5, Quebec 4, Nova Scotia 2, New Brunswick 2, Prince Edward Island 0

ELUCIDATE, stamp the act of the "Breaker of Pledges"—ride Saturday Review—in depriving you of Representation in the Cabinet, contrary to promise, with the seal of your disapproval by voting for Pope.

The situation in the East is not by any means promising. The feeling prevalent in the minds of the Turks that Russia will make inadmissible demands in order to provoke a rupture, seems to be the keynote to the extensive and warlike preparations that are being made on both sides.

The Black Hills Pioneer says:—Judge Ford of this city, formerly of Bismarck, loaned Gen. Custer a famous dog. The dog accompanied the General during the engagement against Sitting Bull. Ten days after the battle the dog returned to Fort Lincoln, a distance of 500, in search of his master.

HOW IT IS MORE GRIT "FREE TRADE" PROMISED. A McKenzie-Cauchon organ—the Kingston [Ont.] Whip, of late date says:—"The probability is that the Government will, DURING NEXT SESSION, VERY MATERIALLY INCREASE THE TARIFF in order to meet the requirements of the times."

SENATOR HAVILAND ON THE LIVE ISSUE. Another reason why I cannot support Mr. Welsh at the approaching election, is that the McKenzie's Government, which he supports, have been guilty of a breach of promise with regard to allowing us a seat in the Cabinet. When the Representatives from this Island gave them their support, it was upon the understanding that this Province was to have a Representative in the Cabinet. We have had this admission from the Hon. Daniel DeBlois himself. I went to Belfast the other day to show my consistency in following my present course, and that there was nothing wrong in the Liberal Conservatives going back to their old standard. I am now accused by Mr. W. D. Stewart of inconsistency. I have no present quarrel; but he had not a word to say respecting the Hon. D. Davies, a Member of Parliament, being present at all the Belfast meetings! Nor did he say a word respecting the attendance of Mr. Mansoul Rowe, a Dominion official, at those meetings! But I am glad that I went to the meetings for I never had a fairer or more impartial hearing than I had there. I was much amused at a statement which I lately saw in the Kingston Whip, to the effect that McKenzie would be just as well without a Cabinet minister as with one! As this Dominion is a federal union, it is necessary that this Province should have a voice in the Government. Letting it out of our hands, we are in every way entitled to be represented in the Cabinet. I do not blame Mr. Laird for taking his present high position; but I do not think he has acted as he should have done with reference to this Province. He should not have left his constituents, who lifted him into his present position, without a voice in the Councils of the country. Have we been deprived of a Representation in the Cabinet because we have no money to pay for it? McKenzie in the Dominion Parliament, who are fitted for that high position? Where is Hon. D. Davies and Mr. P. Sinclair? If they did not care to run their election over again, where was Hon. R. P. Haytmore, a gentleman who has done his part in this country, in any Government? Why are those gentlemen whom I have named would have filled the vacant seat in a creditable manner. There are gentlemen representing Nova Scotia and New Brunswick in the Dominion Legislature whose chief business is their sabbies. As matters now stand, we have no man to bring any matter of importance to us, before the Dominion Cabinet. We have no one to express our views with reference to the law, in the Cabinet, during the next session of Parliament. The Dominion Government can settle their whole campaign for next session of Parliament without consulting this Province; and we might as well be buried in the waters of the Gulf of St. Lawrence, for all the part we shall take in the further government of the country, under the present Administration. We are told by some of Mr. Mackenzie's supporters, that if the right man is returned, we shall get fair play, and that the seat will be restored to us. This is only a little game to tickle the fancies of the electors during the present contest, it means nothing. I believe that when Parliament meets we shall have no representation in the Cabinet. Do you think Mr. Mills will resign if Mr. Welsh goes to Ottawa? There is not the shade of a chance to think that he will do so. We are told that Mr. Geoffroy has resigned his seat on account of ill health, that vacancy is not yet filled up, and we must get that seat. That seat belongs to the French, and will be filled by one of their Representatives. The government are only waiting for the right man to turn up, with whom to fill it. The Government want a leading French name, to counteract the influence of Mr. Cauchon, whose name is not quite so high as the leading Grits of Ontario wish for. But at the end of two years, the McKenzie Government will require to look to their own interests, and not the influence of Mr. Cauchon, whose name is not quite so high as the leading Grits of Ontario wish for. But at the end of two years, the McKenzie Government will require to look to their own interests, and not the influence of Mr. Cauchon, whose name is not quite so high as the leading Grits of Ontario wish for.

MR. POPE THE BEST MAN TO SEND TO OTTAWA.—I believe truly and conscientiously that Mr. Pope will do more good for this Province, at Ottawa, than Mr. Welsh, and, therefore, feel bound to support him as a Candidate to fill the vacant seat.—Senator Haviland.

ADVICE TO VOTERS. The following is from an address issued by one of the state Central Committee during the late Presidential election. By substituting our party names for theirs and making some additions to suit the locality, the advice is worthy the attention of the electors of this County on Wednesday next.

Each member of your organization should constitute himself a committee to secure the attendance of voters at the polls, and see to it that all attempt to fraudulently get the polls which takes place at 9 o'clock a. m., until the close, which takes place at 5 o'clock p. m. Be at the polls early and get in your votes if possible before 12 o'clock.

Watch your ticket closely and be sure and make your marks opposite the name of JAMES C. POPE, and not on the line. See to it that those who are placed on the inside of the polling places are reliable, and that a Grit in disguise is not permitted to occupy a place that should be filled by a Liberal Conservative. If you know a man is a fraudulent or illegal voter, challenge him and prevent his vote being taken and deposited in the box, if possible; unless you do, many of our votes will be neutralized.

Keep your men from partaking of any intoxicating drinks on election day, and particularly have them abstain from wordy discussions at the polls which will be attempted by the Government. Party only to confuse and distract, and in the result of which we would be the losers. You will have no time on election day for anything but seeing that every Liberal Conservative voter does his duty at the polls, and that he is not robbed of the value of his privilege by a lack of care and watchfulness.

We cannot afford to lose this fight by loss of blood received in the house of our friends, and the only way to prevent it is for every man to feel and act that upon him and him alone, the result depends.

The issue is a magnificent one—the right of Prince Edward Island to representation in the Government that imposes taxes upon us, and administers our affairs.—Act. Eva.

Hon. John Hillyard Cameron died in Toronto on the 14th inst.

The Medical Society of Savannah has declared yellow fever to be at an end in that city.

Sentence was passed on Dr. Strassberg, lately on trial, at Moscow, condemning him to banishment from Russia.

The position of affairs in regard to the Presidential election remains in statu quo, everything being remarkably quiet in the South, considering the immense interest that attaches to the result of the vote in the disputed States.

ELUCIDATE, stamp the act of the "Breaker of Pledges"—ride Saturday Review—in depriving you of Representation in the Cabinet, contrary to promise, with the seal of your disapproval by voting for Pope.

The mastery of pure mind over human prejudices and passions is never so well exemplified as in the play of containing emotions that sweep over the face of a young lady at church when she looks on the same hymn-book with a man who has been eating onions.

Another claim case looms up in England. Australia again furnishes the lost heir. An estate of considerable value now in possession of a member of the Warrington Town Council is claimed by Mr. John Alderson.

Twelve thousand pupils in Yeddo schools are studying foreign languages, including English.

AND YET ANOTHER.—Another member of the Dominion Ministry, it is rumored, is about to leave the sinking ship and to be provided for in some more permanent manner. Mr. Vail, the Minister of Militia, we hear from a pretty reliable source, is to be the next to resign. Of course the organs will deny it, but they have uniformly denied every report of coming change, which time, however, always verifies.—Montreal Gazette.

Within the past few years a new and extremely lucrative employment, namely, ostrich farming, has sprung up at Cape Town, Africa. Formerly the birds were shot for their feathers. This, of course, tended to greatly diminish their numbers. Now the nests of the ostriches are closely watched, and as soon as the eggs are hatched they are taken from the mother and sold, when a week old, for \$10 each to those engaged in ostrich farming. They are furnished with their usual food, but are housed at night. Between the ages of one month and two years they are taken out in paddocks, and are greatly diminished in number. Now the nests of the ostriches are closely watched, and as soon as the eggs are hatched they are taken from the mother and sold, when a week old, for \$10 each to those engaged in ostrich farming. They are furnished with their usual food, but are housed at night. Between the ages of one month and two years they are taken out in paddocks, and are greatly diminished in number.
