Poetry.

A Cottager's Lament.—An English laborer whose child was suddenly killed by the falling of a beam, wrote the following lines, suggested by the melancholy event. They are touchingly beautiful.

Sweet, laughing child—the cottage door
  Stands free and open now,
But oh, its sunshine gilds no more
  The gladness of thy brow;
Thy merry step hath passed away;
  Thy laughing sport is hushed for aye.

Thy mother by the fireside sits
  And listens for thy call;
And slowly—slowly, as she knits,
  Her quiet tears down fall;
Her little hindering thing is gone;
  And undisturbed she may work on.

HOME IS WHERE THERE'S ONE TO LOVE US.

Home's not merely four square walls,
  Though with pictures hung and gilded,
Home is where affection calls—
  Filled with shrines the heart hath builded;
Home!—go watch the faithful dove
  Smiling 'neath the heaven above us,—
Home is where there's one to love!
  Home is where there's one to love us!

Home's not merely roof and room,
  It needs something to endear it;
Home is where the heart can bloom,
  Where there's some kind lip to cheerit
What is home with none to meet?
  None to welcome, none to greet us?
Home is sweet—and only sweet
  Where there's one we love to meet us.

A Creditor's Stratagem.—A week or two ago, four creditors started from Boston, in the same train of cars, for the purpose of attaching the property of a certain debtor, in Farmington, in the State of Maine. He owed each one separately, and they each were suspicious of the object of the other, but dared not say a word about it. So on they rode, acquaintances all, talking upon everything except that which they had most at heart. When they arrived at the depot at Farmington, which was three miles from where the debtor did business, they found nothing to "put 'em over the road," but a solitary cab, towards which they all rushed. Three got in, and refused admittance to the fourth, and the cab started. The fourth ran after, and got upon the outside with the driver. He asked the driver if he would sell his horse. He replied that he did not want to—that he was not worth more than fifty dollars, but he would not sell him for that. He asked him, if he would take a $100 for him. Yes, said he. The "fourth man" quickly paid over the money, took the reins and backed the cab up to the bank—slipped it from the harness, and tipped it up so that the door could not be opened, and jumped upon the horse's back and rode off "lick-a-ty-switch" while the "insiders" were looking out of the window, feeling like singed cats. He rode to a lawyer's, and got a writ made and served, and his debt secure and got back to the hotel, just as the "insiders" came up puffing and blowing. The cabman soon bought back his horse for fifty dollars. The "sold men" offered to pay that sum, if the fortunate one, who found property sufficient to pay his own debt, would not tell of it in Boston.

Innocent Gaiety.—The mind of every man is by nature inclined to cheerfulness, and swayed by a desire to indulge in pursuits which will gratify this natural propensity. Cold indeed must the philosophy of him who would subdue the gladdening temperament of his nature, and substitute an austere severity and a rigid indifference to the innocent amusements of the world! It would be absurd to imagine that melancholy could be consonant with the feelings of man as a gregarious creature. Few or none of the tender sensibilities which at present unite him with his fellow-men could exist, if each individual were influenced by a selfish thoughtfulness, and an utter distaste for what might excite animation or sprightliness; each would be a morose Timon, and the very links of social intercourse would be dissevered.

A Rich Retort.—It is said of the Marquis of Townsend, that when young and engaged in battle, he saw a drummer at his side killed by a cannon ball, which scattered his brains in every direction. His eyes were at once fixed on the ghastly object, which seemed to engross his thoughts. A superior officer observing him, supposed he was intimidated at the sight, and addressed him in a manner to cheer his spirits. "Oh," said the young Marquis, with calmness but severity, "I am not frightened—I am puzzled to make out how any man with such a quantity of brains ever came to be here!

A Hymn to Old Age Wanted.—Many a poet has sung laments over departed youth; did any ever sing, or chant—for it would be like a psalm—the peace, the joy, the comfort of growing old; of knowing passions dead, temptations conquered, experience won, individual interests become universal, and vain fantastic hopes merged into sublime strong-builded faith—faith which makes of death its foundation stone, and has for its summit Eternity? The "Hymn of Old Age" would be one not unworthy of a great poet; who will write it?

To make an Nightmare.—Just before going to bed eat two pig's feet and a fried pie. In less than an hour you will see a snake larger than a hawser, devouring eight blue haired children, who have just escaped from a monster with sorrel eyes and a red-hot overcoat.

The first hour a person spends at sea is commonly devoted to admiring man's triumph over the deep—the next in admitting that the deep is gradually triumphing over him. "Steward, where's my room? I begin to feel, as if I should very soon need a little weak brandy and water, or a good deal of tin basin."

To forgive and forget is something of a difficulty, but to forget and forgive is the easiest thing in the world.

A promise is a just debt which should always be paid, for honour and honesty are its security.

An Irishman was asked at dinner whether he would take some of the apple-pie. "Is it houlsom?" inquired Teddy.—"To be sure it is" was the reply. "What makes you ask such a question?" "Because," said the new comer, "I oncet had an uncle that was killed with the *apple* plixy, and sure I thought it might be something of that sort."

There is a large and fertile space in every life, in which might be planted the oaks and fruit trees of enlightened principles and virtuous habits, which growing up, would yield to old age an enjoyment, a glory, and a shade.

Woman's Heart (*A Contradiction*).—Nothing can be so kind as a woman's heart, and less likely to inflict a blow; and yet, strange to say, it is never so happy, as when it is beating. —*Young Spooney.*

The consciousness that we have, by our own misconduct, brought our sorrows upon ourselves, is an immense aggravation to their misery.

PATENT ARTIFICIAL SLATE.

And Unchangeable Metallic Paints:
PROOF AGAINST FIRE & WATER!

Manufactured by the Patentee, in Colchester, Nova Scotia.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which converts the surface of materials covered, into a *Coating of Actual Slate—Proof* against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by rendering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the *Slate.* As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either *Free Stone* or *Granite.* The oil must be evaporated by the action of the weather before it is *Fire* proof, which will take from nine to twelve months.

The METALLIC PAINTS, *Purple* and *Red*, are offered as *Weather and Water Proof solely.* Their base being Iron, secures them from Galvanic action so fatal to lead and other Paints on *Iron* work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphureted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as *Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing.* The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigment, this mineral must rank with the most *indestructible and unchangeable* bases. For covering Metallic Ware, its composition shows that it is eminently fitted.

(Signed) AUGT. A. HAYS, *State Assayer.*"

Directions.—Artificial Slate. Mix the powder with pure Boiled Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paint, and apply with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two Coats.

If Shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

Fredericton, N. B., Nov. 13, 1850.

Mr. J. W. Irish.

Dear Sir,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,
STEWART & NEILL.

St. John, N. B., July 20, 1850.

John Ross, Esq., *Patentee of the Purple Metallic Iron Paint.*

Sir,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of Paint and Oil, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c.
ROBERT G. MORAN.

Ross' Metallic Paints.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Esq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinions therein contained.—*Halifax Sun.*

☞ The METALLIC PAINTS are mixed and put on like an ordinary paint.

WONDER OF THE WORLD.

Gravel Cured of five years standing.

Messrs. Curtis & Perkins, Bangor, Me.

Gentlemen,—I have been entirely cured of the Gravel, by the us of your *Cramp and Pain Killer.* I commenced taking the Cramp and Pain Killer in the Spring of 1847. I had been a great sufferer for ten years previous; some four or five years of the time I suffered beyond all my powers to describe.

During this time, I have had medical aid, and tried various specifics, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured.

Doctor Toby, a regular practising Physician, of East Machias, writes us under date of March 20, 1847:

"Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I ever used."

The Doctor first made use of it in his own case, for a severe sprain in the shoulder, caused by the upsetting of a stage, and found immediate relief, and has since used it in his practice.

Read the following. It speaks for itself.

RHEUMATISM CURED.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; nor could I walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoc, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of *Cramp and Pain Killer*, prepared by Curtis & Perkins, Bangor, and after *three applications* was entirely relieved and free from pain, and am now entirely well. I also cured a friend of mine, who had been suffering for a long time with a lame side, with the same bottle. I believe it the best medicine in the world, and am happy to add my testimony in its favour.

IS HERE YOUR REMEDY!
HOLLOWAY'S OINTMENT.

A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.

Extract of a Letter from Mr. William Galpin, of 70, Saint Mary's Street, Weymouth, dated May 15, 1851.

To Professor Holloway,

Sir,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and greatly inflamed. Her agonies were distracting, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without seam or scar, and her sleep sound and undisturbed. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would indeed feel delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN.

A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING

Copy of a Letter from Mr. Wm. Abbs, Builder of Gas Ovens, of Rushcliffe, near Huddersfield, dated May 31, 1851.

To Professor Holloway.

Sir,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scorbutic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated; yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ABBS.

The truth of this statement can be verified by Mr. W. P. England Chemist, 13, Market Street, Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.

Extract of a Letter from Mr. Frederick Turner, of Penshurst, Kent, dated December 13, 1850.

To Professor Holloway,

Dear Sir,—My wife had suffered from Bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was, I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDRICK TURNER.

A WONDERFUL CURE OF A DANGEROUS SWELLING OF THE KNEE.

Copy of a letter from John Forfar, an Agriculturist, residing at Newborough, near Hexham, dated May 15, 1850.

To Professor Holloway,

Sir,—I was afflicted with a swelling on each side of the leg, rather above the knee, for nearly two years, which increased to a great size. I had the advice of three eminent Surgeons here, and was an inmate of the Newcastle infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them, and in less than a month, I was completely cured. What is more remarkable I was engaged twelve hours a day in the Hay Harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint.

(Signed) JOHN FORFAR.

AN INFLAMMATION IN THE SIDE PERFECTLY CURED.

Copy of a Letter from Mr. Francis Arnot, of Breahouse, Lothian Road, Edinbro', dated April 29th, 1851.

To Professor Holloway,

Sir,—For more than twenty years my wife has been subject, from time to time, to attacks of inflammation in the side, for which she was bled and blistered to a great extent; still the pain could not be removed. About four years ago, she saw in the papers, the wonderful cures effected by your Pills and Ointment, and thought she would give them a trial. To her great astonishment and delight, she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

(Signed) FRANCIS ARNOT.

The Pills should be used conjointly with the Ointment in most of the following cases:—
