**Presentation.**  
On Saturday evening last a deputation, composed of the officers of the Charlottetown Engineer Company, waited upon their Captain, William A. Weeks, Esquire—who joined the noble army of Benedictus—and presented him with a handsome marble clock, and Lieut. Charles Leigh, Jr., for the Company, read the following ADDRESS.

To William Arthur Weeks, Esquire, Captain of the Charlottetown Militia Engineer Company.  
Dear Sir—We, the officers, non-commissioned officers, and men, of the Charlottetown Engineer Company, cannot allow this, to you, most important and happy occasion to pass without extending to you our felicitations and united wishes for the future welfare and prosperity of yourself and your chosen wife.

For six years you have been the chief officer of this company, during all of which time you have been indefatigable in your efforts to make us the premier Engineer corps of Canada; and in what manner your efforts have been rewarded, a glance at the reports of the different inspecting officers will show. We trust that having placed us at the zenith of our ambition, your new ties, so soon to be formed, will not intervene to prevent you keeping us there.

We beg you to accept the accompanying token of our affection and appreciation, and to believe that, as the pendulum marks the fleeting moments, no length of time can ever efface from our memories the services rendered by you to this Company, and hope you may long live to present it in a prominent position.

We trust that the march through life, which you are to make with so estimable a lieutenant may be happy and pleasant one, and that all foes being vanquished, when the final reveille sounds you may be found at your post, worthy of the reward of a faithful and obedient soldier.

On behalf of the Company: Geo M Moore, Lieut; Chas Leigh, Jr., Lieut; Sidney Grey, Sergt; Maj Jas M Cameron, Sergt; J M Davison, Ser; Arthur Gates, Sergt; Wm L Strickland, Corp; Otto N Baird, Corp; J H Morris, Cpl.

The following is Captain Weeks's REPLY:  
To Lieutenants M Moore and Chas Leigh, Jr., Sergeants J M Cameron, J M Davison and Arthur Gates; Corporals Wm L Strickland, Otto N Baird and J H Morris.

I can assure you that these kind wishes and this beautiful present are indeed a pleasant surprise, and coming at this time are doubly so, or rather besides myself will appreciate it as I enjoy them.

Your kind words to me as your captain are very dear, and will last longer in my memory than the recollection of your substantial and useful present.

The past six years of my connection with the Charlottetown Engineer Company, as its captain, as pleasant as to look back upon, and although I have had many difficulties to contend with in our efforts to keep up the standard of the Company, yet I always felt that the perfect esprit de corps which exists amongst us and the united efforts of officers, non-commissioned officers and men would leave no room for me to fear the result, which as you say, the reports of the various inspecting officers show.

It is not for me at this time to praise the Charlottetown Engineer Company or to extol its merits, but I do say that it is in no way inferior to any other corps in the Island, and I will say so with confidence, and will say so again and again.

I am more than pleased to know that my partner through life is recognized by you as only second in command.

You will please convey to the company the sincerest thanks of their Captain and new Lieutenant.

**Word of Advice.**  
Sir,—I am by the Patriot that Mr. Supervisor Moore has been to the convention recently held in the city, and gave it as his opinion that the red spruce was not good wood for the construction of bridges. He, however, seems to have forgotten to tell the convention that he had discovered that red (rotten) fir was excellent for that purpose, to wit, for cutting rails, stanchions, &c., particularly when coated with kerosene and mineral paint.

Bothwell Oct. 8th, 1892. Jos. McVANE.

**SKODA'S DISCOVERY, the Great German-American Remedy for Heart, Nerves, Liver, Kidneys, Blood.** Guarantee contract with every bottle. Pay only for the good you receive. At all Druggists, \$1.00 per bottle, or \$5.00 for a course of 5 bottles. If you want to know about SKODA'S REMEDIES, send postal for "Morning Light."

**Cheese Factory at Vernon River.**  
A largely attended meeting was held in the Vernon River Hall on the 21st inst. Edward Grant, Esq., was elected Chairman and the undersigned Secretary. The Chairman briefly stated that the object of the meeting was to discuss the advisability and practicability of establishing a Cheese Factory in this vicinity. After the discussion interested parties would be asked to subscribe to the undertaking.

Dr. Robertson was the first speaker. He took an interest in the dairy industry from its inception. He looked on this as a move in the right direction, and believed Vernon River and the surrounding country to be among the best dairying districts on the Island. He spoke of our changed circumstances, the exhaustion of our soil, the uncertainty of our markets, the ruinous policy of exporting our unmanufactured products, and to what it would eventually lead. The Doctor produced figures and facts in support of his assertions, and quoted from the trade returns of the Dominion, showing the rapid increase of exports of dairy products from Ontario and Quebec. He encouraged the farmers to imitate their example, and to make the necessary effort and success was certain.

John Hamilton, Esq., who is a practical and successful farmer, was the next speaker. He encouraged the movement, and said he believed this to be the only new departure open to the farmers of this Island. He spoke of the success attending the New Perth factory under Mr. Dillon's skilful management, the encouragement the Dairy Commissioner was likely to give, the need of co-operation and the necessity of changing our methods of agriculture. Mr. Hamilton read an interesting and instructive paper on the cultivation of fodder corn, the construction and filling of silos, a proper knowledge of which is so closely connected with successful dairying. He closed his instructive address by offering to furnish all necessary information as to cost of buildings, plant, etc.

T. J. Dillon, Esq., manager of the New Perth Dairy Station, and one of the best cheese makers of Ontario, spoke next. He was willing to do all in his power to forward the movement. Dairying had proved a great success in Ontario. Cheese exports had steadily increased; so had the demand. He advised farmers to start on a proper basis. Mr. Dillon strongly advised the growing of fodder corn for winter feed. It would yield more and better cattle food at less cost and less exhaustion to the soil than any other crop that could be grown.

Each of the three gentlemen spoke of the good work Prof. Robertson is doing, of his ability and energy, and regarded him as the right man in the right place.

Hon. George Forbes also addressed the meeting. He was interested in the movement directly as well as indirectly, and looked on the enterprise with favor. He would give it his hearty support. He believed there would be no trouble in providing the necessary funds and that it would eventually prove of general advantage.

Pownall, Gallas Point, China Point, Cherry Valley, Mill View, Ugg, Orwell and Vernon River were all present. A number of gentlemen spoke and all favored the undertaking. A list was opened and over twelve hundred dollars was subscribed, with more to be heard from.

Wm. Jenkins, Esq., in moving a vote of thanks to the three gentlemen who were present by special request and gave such valuable information, spoke hopefully of the undertaking that had such a favorable beginning. The motion was seconded and supported by A. A. Moore and Owen Sullivan, Esqs., and unanimously carried.

DAVID P. IRVING, Sec'y.  
Vernon River Bridge, Sept. 1892.

**Cheese Factory Meeting.**  
Pursuant to public notice a meeting was held in the Murray Harbor South Hall, on Friday evening, October 7th, for the purpose of discussing the advisability of starting a cheese factory in the vicinity.

Charles Leachur, Esq., having been called to the chair, opened the meeting with a few explanatory remarks and then called on Mr. Dillon and Dr. Robertson (who had been invited to attend) to address the meeting.

Mr. Dillon, the energetic manager of the New Perth Cheese Factory, was the first speaker. His speech was eminently practical, fully explaining the steps necessary to be taken in organizing a joint stock company—showed up the advantages of the co-operation system, and giving some excellent advice as to the care and management of milk cows—showed samples of fodder corn grown on the Island and explained the kinds of feed best adapted to keep up the flow of milk, etc. He also gave an outline of the cheese factory business from its first start in Ontario, giving statistics to show the growth and possibilities of the business.

Dr. Robertson, who evidently takes great interest in this industry, spoke on the benefits to farmers and the profits that would result from the business. He also gave some practical advice regarding building and conducting a factory.

After an address from Hon. Senator Prowse and a few remarks from some of the leading farmers present, it was unanimously resolved to go on with a factory if the quantity of milk required could be obtained.

A committee was appointed to canvass the district, and the meeting adjourned to meet again in two weeks to hear the report of the canvassing committee.—Cos.

PREVENTION is better than cure; and if you want to prevent many of the ills of summer get in good condition by taking an occasional dose of Everybody's Pills.

Mrs. Capt. P. H. Lane.  
"They thought I must die."  
"THE STRONGEST STATEMENTS COULD NOT TELL HALF IT HAS DONE FOR ME."  
Hereditary Liver Trouble.

ENLARGEMENT OF THE LIVER,  
Diagnosed by the best Physicians, CURED.  
GENTS—My father died of Consumption of the Liver, many in my family have died with the same disease, and a large part of the time for the past two years I have been very sick, no appetite, bowels alternating between Constipation and Diarrhoea. Pains all over my body, and severe pains all through my Liver. So nervous I could not sleep.

BETTER nights, and in fact, was much exhausted and run down. My Physician said I had Enlargement of the Liver.

The day before I commenced the use of SKODA'S REMEDIES, I had two different Physicians call upon me. People thought I must die. I had doctored so much and taken so many different kinds of patent medicines, without any benefit, that when SKODA'S DISCOVERY was brought to me, I threw away doubt and commenced to take it. My appetite increased; from being weak and feeble I began to grow stronger; bowels assumed a natural condition; sweet and refreshing sleep came to me; I began to increase rapidly in flesh.

I have now taken less than a full course (six bottles) of SKODA'S DISCOVERY, with SKODA'S LITTLE TABLETS, and to-day I COLD do my own work. In fact, am well and happy. The strongest statement I could make would not tell half your wonderful Remedies have done for me.

Respectfully yours,  
ROCKLAND, ME. Mrs. P. H. Lane.
