goes on twice as fast, dries in 30 minutes!

that's the beauty of A-100 Latex House Paint

A-100 goes on so smoothly, so swiftly, you'll call it automatic. Yet the wonder of Latex gives you lasting protection—puts money in your pocket by postponing repainting for years. And never mind the weather man—A-100 is so dry, in 30 minutes, weather won't harm it. Defies fogs and dust, too—no time for them to settle!

But more, much more! A-100 has absolutely amazing resistance to blistering because its special texture lets the woodwork "breathe".

Easy clean-up too—just wash your brushes as you do your hands in soap and water.

The pioneering research facilities of four famous companies have produced this final word in paint for outdoors!

Whenever the outside surface, the first time you use A-100, be sure to get all the benefits. You will, if you follow your dealer's instructions.
