Poetry.

The Betrothed.

By Alice Carey.

I have acted as they bid me,
He said that he was bless'd,
And the sweet seal of betrothal
On my forehead has been pressed;
But my heart gave back no echo
To the rapture of his bliss,
And the hand he clasped so fondly
Was less tremulous than his.

They praise his lordly beauty,
And I know that he is fair—
Oh! I always loved the colour
Of his sunny eyes and hair;
And though my bosom may have held
A heavier heart than now,
I have told him that I love him,
And I cannot break the vow.

He called me the fair lady
Of a castle o'er the seas,
And I thought about a cottage
Nestled down among the trees;
And when my cheek beneath his lip
Blushed not nor turned aside,
I thought how once a lighter kiss
Had left it crimson-dyed.

What care I for the breathing
Of wind harps among the vines?
I better love the swinging
Of the sleepy mountain pines,
And to track the timid rabbit
In the snow-shower as I list,
Than to ride his coal-black hunter
With the hawk upon my wrist.

Fain would I leave the grandeur
Of the oaken shadowed lawns,
And the dimly stretching forest,
Where the red roe leads her fawns,
To gather the blue thistle
And the fennel's yellow bloom,
Where frowning turrets cumber not
The path with gorgeous gloom.

Let them wreathe the bridal roses
With my tresses as they may—
There are phantoms in my bosom
That I cannot keep away;
To my heart as to a banquet,
They are crowding pale and dread,
But I told him that I loved him,
And it cannot be unsaid.

Varieties.

The Tsetse or Zimb.—The following singular facts are derived from a very interesting letter written by the Rev. David Livingston, an English missionary in South Africa, and son-in-law of the distinguished missionary Robert Moffat, to his brother in Massachusetts, which letter was recently read before the American Geographical and Statistical Society.—"The tsetse is the name given to an insect found in the interior of Africa. In size it is between the common house-fly and the honey-bee, and is of a drab colour, having some yellow bars across the hinder part of the body. They seem to be confined to certain districts, generally along the banks of rivers, where reedy swamps intermingled with trees prevail. They are very numerous, and from their devastations among domestic cattle, have been termed the scourge of Africa. It is supposed that the "zimb," mentioned by Bruce, is the same as the Tsetse. The most curious fact about this insect is, that while its sting is harmless to man and wild animals, it is certain destruction to horses, cattle, sheep, dogs, or any other domesticated brute, except goats and young calves. Several instances are known where all the cattle, horses, and dogs of a traveller have been swept off by it. A horse was taken among them by a doubter; about fifty settled on him, and immediately he began to lose flesh; in eleven days he was dead; when an ox is bitten, at once the countenance stares, the eyes run, he loses strength, swells under the jaw, staggers, grows blind, and becomes emaciated, which continues, sometimes, for months, when death ensues. Upon removing the skin, a great many air bubbles are found on the surface of the body, under the cellular membrane. The fat is of an oily, glary consistence, and of a greenish yellow colour. The heart is soft and pale, lungs and liver diseased, and the gall bladder unusually distended with bile. The muscles are flabby. the blood contains very little colouring matter, and not a pailful is found in the body. There is no such thing as becoming accustomed to them and the natives, in localities where they abound, are unable to raise a single domestic animal. In these same districts, elephants, buffaloes, zebras, gnus, &c., live unaffected by the Tsetse. A dog fed on the meat of game, lives; one reared on milk falls a victim to them. It is said that game meat is possessed of a peculiar acid found but sparingly in tame animals, perhaps this may be the antiseptic. But then why do calves who subsist on milk, escape? Sometimes an entire herd of cattle is cut off excepting the calves, and these follow likewise, if kept in the region for a year or two."

Strawberries grafted on Roses.—A short time ago there were exhibited in Paris, in a florist's shop on the Boulevard des Italiens, several rosetrees, upon which were grafted a few strawberry plants. This curiosity attracted much attention from the passers-by. The process by which it was effected was as follows:—In autumn a few dogroses of good sorts, on their own roots, are selected and planted in pots; at the same time a wellrooted strawberry is placed with each rose, planted just beneath the stem of the rose. In spring, when the runners push out, two or three of them are tied up to the stem of the rose. It is well known, that the runners of the strawberries soon make their own roots, and in due time these roots are cut away, making the cuts as for a scion, and then they are grafted on the rose stem, "without cutting or rearing the runners from the parent plant in the ground." They should be preserved very carefully, to lead the sap up to the scions, and, treated in this way, the strawberries will vegetate upon the rosetree for some time.

Silent Love.—"An illiterate female," said Dr. Chalmers, "in humble life, applied for admission to the sacrament, but, at the customary examination, could not frame one articulate reply to a single question that was put to her. It was in vain to ask her of the offices or meditaion of Christ, or of the purpose of his death. Not one word could be drawn out of her; and yet, there was a certain air of intelligent seriousness, and the manifestations of right and appropriate feeling; a heart and a tenderness indicated, not by one syllable of utterance, but by the natural signs of emotion, which fitly responded to the topics of the clergyman, whether she was spoken to of the sin that condemned her, or of the Saviour who atoned for her. Still, as she could make no distinct reply to any of his questions, he refused to enroll her as a communicant, when she, on retiring, exclaimed, in the fulness of her heart, 'I cannot speak for him, but I could die for him!' The minister, overpowered, handed to her a sacramental token, and with good reason, although not a reason fell in utterance from her."

Is Your House a Home.—How important that you make your house a *home*. A house is a mere skeleton of bricks, laths, plaster, and wood. A *home* is the residence not merely of the body, but of the heart; a place for the affections to unfold and develope themselves; for little children to love, and learn, and play in; for young people to grow in earthly and heavenly wisdom; for husband and wife to labour smilingly together to make a life a blessing, and secure a better home beyond the grave. A house where the wife is a slattern and a sloven, and a busy-body in other people's matters, cannot be a home. A house where there is no happy fireside—no book—above all, no religion, no Bible—how can that be a home? A house where the husband is a drunkard cannot be a home; nor can there be a home, where there is no *love* to God and love to man.

New Goods.

THE Subscriber begs to announce to the public, that he has just landed a general and extensive assortment of GOODS, suitable for the wants of the Country, and that he is prepared to offer them at the lowest possible rates, with a view to reimburse cost of importation.

A few Barrels fresh CANADA FLOUR.

NOTICE.

THE Undersigned Trustees of the ESTATES of CHARLES WORRELL, Esquire, under Deeds from that gentleman dated the Seventeenth June, A. D., One thousand Eight hundred and Fifty, hereby renew the Notice given by them on the 18th August last, that they have not given, or assented to any Conveyance of the said Estates. Observing also that Notices have been issued, signed "B. W. A. SLEIGH," wherein the writer asserts, that he is in possession of the said Estates; they feel called upon to contradict such assertion, and to state, that no change in the possession of the said Estates has taken place since the date of the above Deeds to themselves, from Mr. Worrell. and moreover, that they have by letter, recently received, been requested by Mr. Worrell's Solicitors in London to continue in possession and management of the said Estates, and not to execute any conveyance thereof until all Creditors thereof, and Debts due therefrom, have been fully discharged and satisfied. Such is not as yet the case.

The Tenants are therefore, hereby, further cautioned, not to be misled by any representations whatsoever, into paying Rent to any other than the Undersigned Trustees, nor to allow themselves to be induced to attorn or render themselves liable in respect of Rent for Land in their possession, to any person not having a Deed of Conveyance from the Undersigned.

Persons having negotiated for Leases, Deeds, &c., are requested to apply at once to Theophilus Desbrisay, Esq., in Charlottetown, that the same may be settled and adjusted. This is requisite, as it is probable that the Trustees may shortly make sale of a portion of the said Estates, in order finally to clear off the liabilities.

JAMES PEAKE,
CHARLES HENSLEY,
JOHN MYRIE HOLL,
THEOPH. DESBRISAY.

Charlottetown, Sept. 1, 1852.

TO LET.

HALF that HOUSE corner of *Great George* and *King Streets* lately repaired and divided, the other end now occupied by W. C. Hobs.

August 14.

A FREEHOLD FARM of 60 acres, situated on the Argyle Shore, Lot 30, about sixteen miles from Charlottetown. There are about 35 acres cleared and under cultivation, the remainder covered with good wood. There is a good Dwelling Dwelling House 24 x 24, and a Barn and Stable on it. Large quantities of Sea Weed come on Shore on the front of the Land, and it is convenient for fishing.

Also, the STOCK, &c.

Consisting of 3 Horses, 5 Milch Cows, 22 Sheep, 3 Heifers, and 3 Calves.

A Cart, Plough, Harrows, Fanner, Wheelbarrow, &c.

A Jaunting Sleigh and Harness, a Wood Sleigh, and several other articles.

Apply at Haszard's *Gazette* Office, or to the Proprietor on the Premises.

HUGH STEWART.

August 24, 1852.

FOR SALE.

A Part of that beautifully situated Lot, corner of Great George and King Streets, now occupied by W. C. HOBS, and adjoining Mr. Charles Palmer's new building. For further particulars apply to W. C. HOBS on the premises, where the plan may be seen.

Valuable Pasture Lot for Sale.

TO be Sold by private Contract, that beautifully situated plot of ground, the property of John Nicholl, being pasture Lot No. 530 in the Royalty of Charlottetown, comprising 20 acres of excellent LAND with the Buildings thereon. This Property is well enclosed, and for the most part with a dyke fence; and the greater part of it is cleared and under cultivation.

The property can be viewed at any time on application to John Nicholl on the premises.

An unquestionable Title will be made to the purchaser, and possession can be had at once. For terms and further particulars, apply to John Longworth, Esq., Barrister at Law.

Charlottetown, Aug. 24th 1852.

For Sale.

A FREEHOLD of 100 ACRES of LAND, situate on the Princetown Road, about 26 miles from Charlottetown, and 2½ from Barrett's Cross; 20 acres are cleared and in good cultivation, the remainder is covered with good hard and soft Wood. The Farm formerly belonged to Mr. James Caseley, deceased. If the above Property is not sold by the 11th October next, it will then be offered at Auction, at the Court House in Charlottetown, at the hour of 11 o'clock, forenoon.

For further particulars apply to

THOMAS CASELEY.

Charlottetown, Sept. 7, 1852.

Farm on the Rustico Road.

FOR SALE or to let the Leasehold Interest of 999 years in a Farm of 225 acres of Land, 150 acres of which are cleared and in good cultivation. There are two Dwelling Houses on it, and other Buildings; there are several springs of Water running through it—it is Nine miles from Charlottetown, and has plenty of Fire Wood and Longers. For particulars apply to L. W. Gall, Esq., in town or to the Subscriber on the Premises.

Half the Purchase Money can remain on security, on the Property.

WILLIAM WESTCOTT.

May 15, 1852.

TO LET on Lease, with liberty to purchase, if so required, part of the Lands belonging to the Subscriber, known as the "Esker" Estate, situate at the Eastern extremity of Charlottetown, comprising Eleven Town Lots and portions of Two Common Lots. This Property has been laid off into Building Lots, and will be let by private contract agreeably to a plan to be seen at the Office of John Longworth, Esq.

W. S. LONGWORTH.

Charlottetown, January 6, 1852.

PATENT ARTIFICIAL SLATE,
And Unchangeable Metallic Paints:
PROOF AGAINST FIRE & WATR!E

Manufactured by the Patentee, in Colchester, Nova Scotia.

THE ARTIFICIAL SLATE is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most indestructible; the Chemical affinity of which conl verts the surface of materials covered, into a *Coating of Actua-Slate—Proof* against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as they are useful, by rendering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the *Slate*. As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either *Free Stone* or *Granite*. The oil must be evaporated by the action of the weather before it is *Fire* proof, which will take from nine to twelve months.

The METALLIC PAINTS, *Purple* and *Red*, are offered as *Weather and Water Proof solely*. Their base being Iron, secures them from Galvanic action so fatal to lead and other Paints on *Iron* work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Salt Water and Sulphureted hydrogen so prevalent in Sea Ports and Tidal Harbours. They surpass all Paints yet discovered in *Cheapness and Durability*, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as *Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railing*. The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigment, this mineral must rank with the most *indestructible and unchangeable* bases. For covering Metallic Ware, its composition shows that it is eminently fitted.

(Signed) AUGT. A. HAYS, *State Assayer*."

Directions.—Artificial Slate. Mix the powder with pure Boiled Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paint, and apply with a common Brush, being careful to keep the mixture well stirred while putting it on. One pound will cover ten square feet with two Coats.

If Shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

Fredericton, N. B., Nov. 13, 1850.

Mr. J. W. Irish.

Dear Sir,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the Bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,
STEWART & NEILL.

St. John, N. B., July 20, 1850.

John Ross, Esq., *Patentee of the Purple Metallic Iron Paint.*

Sir,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of Paint and Oil, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c.
ROBERT G. MORAN.

Ross' Metallic Paints.—We have already called public attention to the high estimation in which the Metallic Paints, manufactured by John Ross, Esq., Truro, are held by those who have had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by parties who have similarly applied them, we can safely endorse the opinions therein contained.—*Halifax Sun.*

The METALLIC PAINTS are mixed and put on like an ordinary paint.

JOHN ROSS, Patentee.

JUST RECEIVED, 12 NEW PATTERNS, and now for Sale at GEO. T. HASZARD'S Bookstore.

THE ROAD TO HEALTH!
HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7 Presco Street, Liverpool, dated 6th June, 1851.

To Professor Holloway;

Sir,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver, and bad digestion. On the last occasion, however, the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills, and she informs me that after the first, and each succeeding dose, she had great relief. She continued to take them, and although she used only three Boxes, she is now in the enjoyment of perfect health. I could have sent you many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS.

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER, IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the of the 1st March, 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, has been suffering from a violent rheumatic fever for upwards of two months, which had entirely deprived her of the use of her limbs; during this period, she was under the care of the most eminent medical men in Hobart Town, and by them her case was considered hopeless. A friend prevailed upon her to try Holloway's celebrated Pills, which she consented to do, and in an incredibly short space of time they effecteda perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement.—August 2, 1851.

To Professor Holloway.

Sir,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath, that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am desirous that others should be made acquainted with their virtues. I am now rendered, by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

(Signed) HENRY COE,
North Street, Lynn, Norfolk.

AN EXTRAORDINARY CURE OF THE GRAVEL, AND A MOST DANGEROUS LIVER COMPLAINT.

Copy of a Letter addressed to J. K. Heydon, Esq., Sidney, New South Wales, dated February 25, 1851.

Sir,—A Mr. Thomas Clark, a settler at Lake George, was for a considerable time seriously afflicted with a complaint of the Liver, together with the Gravel. His medical attendants, after trying all their skill, candidly told him that his case was hopeless, and any further efforts useless. In this situation, and when expecting every day would terminate his existence, a friend recommended him to try Holloway's Pills, and as a forlorn hope he did so, the first dose gave him considerable relief, he therefore persevered in taking them according to the directions, and is now restored to perfect health. He will feel great pleasure in confirming this statement, or even make an affidavit to the same effect, should it be required.

(Signed) Wm. JONES, Proprietor of Goulburn Herald, New South Wales

WONDERFUL EFFICACY OF HOLLOWAY'S PILLS IN CASES OF DROPSY.

Persons suffering from Dropsy, either about the turn of life, or at other times, should immediately have recourse to these Pills, as hundreds of persons are annually cured, by their use, of this direful complaint in its different stages, when all other means had failed.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Dropsy	Liver complaints	Secondary Symptoms
Asthma	Dysentery	Lumbago	Tic Douloureux
Bilious Complaints	Erysipelas	Piles	Tumors
Blotches on the skin	Female irregularities	Rheumatism	Ulcers
Bowel complaints	Fevers of all kinds	Retention of urine	Venereal Affections.
Colics	Fits	Scrofula or King's Evil	Worms of all kinds
Constipation of the Bowels	Gout	Sore Throats	Weakness, from whatever cause &c. &c.
Consumption	Head-ache	Stone and Gravel	
Debility	Indigestion		
	Inflammation		
	Jaundice		

Sold at the Establishment of Professor Holloway, 244, Strand, (near Temple Bar) London, and by GEO. T. HASZARD, Agent for P. E. Island, in Boxes and Pots, at 2s, 5s, 8s, and 20s. each. There is a very considerable saving in taking the larger sizes.

N. B. Directions for the guidance of Patents, are affixed to each Box or Pot.
