FILM 'Universities'

# O R I E N T A T I O N

"Education is a contributive social process, the essence of which is an expanding awareness of man's social and natural environment through dialogue and cooperative intellectual effort. The principal goal of education is to serve society by developing the full potential of all citizens as free, creative, thinking and acting human beings and therefore to serve society by helping to achieve equality of the essential conditions of human living. The student must discover, examine and assimilate the knowledge of his environment and must develop the ability to cope with and transform it."

Declaration of the Canadian Student; CUS Congress 1967

"A university anywhere can aim no higher than to be as British as possible for the sake of the undergraduates, as German as possible for the sake of the public at large – and as confused as possible for the preservation of the whole uneasy balance."

Clark Kerr, Former Pres.,  
University of California.
