**"BURNING STICKS"**

It was on the island of Cuba, in the autumn of 1492, that the use of tobacco was learned by Europeans. Columbus makes the first mention of the weed in his diary under date of Oct. 15. When he and his men landed on Cuban shores, the kindly natives, who mistook them for messengers from heaven, brought them numerous offerings. Among these, as stated by the admiral in his diary, were some "dry leaves, which must be something much prized by them (the natives), for they had already brought me some in San Salvador as a present." Little heed was paid to these leaves in the beginning by the Spaniards. They were in search of gold and saw no possibility of converting miserable weeds into that precious commodity. In the course of time they began to notice that as the natives went to and from their villages and the shore smoke escaped from their mouths, "in a truly diabolical manner." Soon they discovered that these unladen children of the wilds carried in their hands a "burning stick," which every now and then they would put into their mouths and blow out a cloud of smoke. This had a most heathenish look, as it is recorded, to the Spaniards, and they inquired, as well as they could by signs, into the custom. They learned that the burning sticks were composed of the dried leaves so treasured by the natives, and that the custom of smoking the fragrant weed was supposed to lessen fatigue on long journeys. They tried it for themselves and found this actually to be the case. On many a troublesome jaunt thereafter they were refreshed as the pleasant perfume curled upward from their own "burning sticks."—Detroit Journal.

If you cannot get beef, mutton will answer.

You may choose between milk, water, coffee or tea. But there is no second choice for Scott's Emulsion.

It is Scott's Emulsion or nothing.

When you need the best cod-liver oil, the best hypophosphites, and the best glycerine, all combined in the best possible manner, you have only one choice.

It brings prompt results in all cases of wasting, or loss in weight.

All druggists; 50c. and \$1.00. SCOTT & BOWNE, Chemists, Toronto.

**SPECULATING ON SHIPS**

When a ship is overdue, an opportunity is sometimes afforded for a gamble at Lloyds. It can be readily understood that underwriters who are interested in the "overdues" are only too willing to get rid of the risk by paying a premium on the insured rate to those who are willing, on their terms to relieve them of their responsibilities. The premium varies with the chances of the vessel turning up; the smaller the chances the higher the premium and vice versa.

The rates paying on "overdues" serve as accurate barometers of the probabilities or otherwise of the ship ever being heard of again. These underwriters who speculate on "overdues" are generally known by the significant name of "doctors." The insurance on an "overdue" may pass through many channels before the ship is, on the one hand, "posted" at Lloyds as "missing," or, on the other hand, she arrives in safety.

A ship is never "posted" until the committee is thoroughly satisfied that her case is hopeless, and until the owner is of the same opinion. Before "posting" a notice is put up for a week inviting any information concerning the vessel. If this elicits no news, the committee at its next meeting votes the ship as "missing," and a notice is posted accordingly. The loss is then settled and paid for. It may be incidentally remarked that "posting" at Lloyds constitutes a legal death certificate for any one on board the missing ships.—Good Words.

**Smallest and Oddest Republics.**

Gouss is the smallest republic as to area, but Tavolara is the smallest republic as to population. Gouss is only one mile in area. It is located on the flat top of a mountain in the Pyrenees, between France and Spain, and is recognized by both of those countries. It is governed by a president and a council of 12. It was established in 1648 and has 130 inhabitants. The president is tax collector, assessor and judge. Gouss has no church, clergyman or cemetery. The people worship in a church outside of their own territory, and the dead bodies are slid down to a cemetery in the valley below. In that valley all the baptisms and marriages are performed. Tavolara is 12 miles northeast of Sardinia. It is an island five miles long by a half mile wide. Its total population consists of 55 men, women and children. The women go to the polls with the men and elect every year a president and council of six, all serving without pay. The inhabitants support themselves by fishing and raising fruit and vegetables. The republic has no army and no navy.—Cincinnati Enquirer.

**MARKET QUOTATIONS ON SCALPS**

The market price of "scalps," as agreed upon between the early French colonists of Louisiana and the Indians, with whom they bargained to fight out their battles with hostile Indians for them, varied with circumstances. At the time the French were at war with the Alibamons a "scalp" of one of the last named, when brought to them, was paid for at the rate of a gun, five pounds of musket balls and as much powder. "On the 14th of March" (1704), writes De La Harpe, "a party of 20 Chicachos (Chickasaws) brought in four Alibamon scalps. They were given for each scalp a gun, five pounds of balls and as much of powder, according to the contract made with them."—New Orleans Picayune.

**Sawed With Cables.** In the French quarries of St. Triphon stone is sawed with steel wire cables moistened with wet sand and passing in an endless rope over a series of pulleys. The wire, which runs from 1,000 to 1,200 feet per minute, is charged as it enters the cut with a jet of water and siliceous sand, which forms the cutting material. A running cable of 500 feet can make a cut 100 feet long.

**Errand Running.** A boy of 15 thinks he is too old to run errands, but after he is 25 and married he begins again.—Atchison (Kan.) Globe.

**DYING BY INCHES!**

But Dodd's Kidney Pills will Yet Renew Life.

Thousands of persons die in the prime of life because doctors think Bright's Disease and Diabetes incurable. But Dodd's Kidney Pills cure them both. They have cured thousands of cases.

These diseases and other Kidney complaints are as common as ordinary colds. But people don't realize that they are afflicted till the disease has eaten deep into the system. Even then, Dodd's Kidney Pills will positively cure.

Thousands of people are dying on their feet, but do not realize it. They notice one or more of these symptoms: shortness of breath, loss of memory, failing sight, ravenous appetite, pale or reddish urine, with brick-colored deposit, scalding when urinating, constipation, nervousness, pains in the loins. Their only hope is Dodd's Kidney Pills. They won't fail. They never do.
