GRAIN

WINNIPEG, Nov. 24 (CP) - Prices moved narrowly as barley received the best support on the Winnipeg Grain Exchange. Barley came in for fair buying by exporters and some demand attributed to U.S. malting accounts. Two cargoes of barley were reported sold to Germany, with some reflection in the trade here. Oats were mostly domestic trade, while seaboard interest picked up. Hesitation on U.S. markets due to light rain in the drought area prompted the somewhat earlier tone here. Export loadings of Canadian wheat Friday included: Egypt 750,000 bushels; United Kingdom 620,000; Belgium 80,000; Peru 115,000; Brazil 280,000; Japan 285,000; Netherlands 680. Class two wheat northern prices were down 1 1/2 cents; class two durums were up one-eighth, I.W.A. prices all were up one-eighth. Closing prices: Oats: Dec. 83%, May 82%-A, Jly 79. Barley: Dec. 1.30% B, May 1.26% A, Jly 1.18% A. Rye: Dec. 1.78%, May 1.85%-A, Jly 1.62%. Flax: Dec. 3.42%, May 3.51%, Jly 3.51A.

ALUMINUM has been flying high in civil and military aircraft for a good many years. Recently Prof. Pierre Demers of the University of Montreal found a new use for this air-borne metal. He used aluminum to encase a camera which he sent aloft attached to a hydrogen-filled balloon in order to photograph cosmic rays, ten miles up in the cold and empty stratosphere. From the luxurious interiors of modern transports to the white-hot heart of a jet turbine engine, aluminum is lending its lightness and strength to Canada's aircraft industry.
