Economic Time Bomb Faces Six Nations In Europe

By GARVEN HUDGINS LONDON (AP)—Britain is determined to head off a threatened trade war in the European family of non-Communist nations. Government leaders are working against a Jan. 1 deadline, when France, West Germany, Italy, Belgium, Holland and Luxembourg launch their historic common market.

This is the economic time bomb that threatens a costly economic war among friends. The six nations will cut tariffs among themselves by 10 per cent, first step in dismantling all trade barriers.

Coal Stockpiles In N.B. Swell

MINTO, N.B. (CP)—Coal producers here say New Brunswick stockpiles total 100,000 tons, three times the unsold production of 1957.

New Brunswick coalfields have yielded 750,000 tons in 1958, a 15 per cent drop from last year's production and 25 per cent below the record production of 1,000,000 tons in 1953.

Completion of the Beechwood hydro-electric power project on the St. John River and ample supplies of water for other generators cut New Brunswick electric power commission purchases this year to 265,000 tons. Last year, the commission bought 332,000 tons.

Producers say that while NBEPIC buying is expected to be 20 per cent higher next year, general sales are the strength of the industry. New subsidy policies a needed to make coal competitive with oil in the Maritimes and with Canadian coal in central Canadian markets, one producer said.
