Springfield Notes.

Seldom has this quiet and prosperous settlement undergone such a scathing infliction of the destructive element—fire, as was experienced within the month just ended. This mighty agent, under control an invaluable aid, uncontrolled proves to be the opposite. The recent fire in this vicinity can, with all justice, ranks in the latter case.

The exceptionally dry weather from the latter part of June to nearly the same time in July, had furnished suitable material for the fire, in order to do its work of devastation. Though slight at first, the fire, fanned by the hot winds, soon assumed gigantic proportions, until the greater part of the large area of woods between Springfield and Montague became a mass of flames. The two prevailing points of wind being northwest and southwest it became serious for Springfield when the wind blew from the former quarter, and serious for Montague when it blew from the latter.

We have witnessed the fire in its furious onset as it neared the boundary between the woods and cultivated land. Here, the flames sheathed in dense clouds of smoke and burning cinders, as though not satisfied with its past career, stooped to demolish, as a last act of vengeance, the line of fortification erected by the farmer as a means to protect his crop. Here, too, numbers of farmers might be seen, amid the smoky fray, tearing away fences, determined that the bold intruder be checked if possible. By this means quantities of fencing were saved; but where the fences could not easily be removed, or if the fire had come so near as to prevent approach, destruction was inevitable.

Several farmers here have suffered considerable loss either in fencing or valuable wood, etc., while fields have been laid low and exposed to the encroachments of animals allowed to wander free. We are pleased, however, to see that most of the fences burnt have, where necessarily required, been replaced.

Taking into consideration the losses mentioned above, together with the extra labor caused, it is evident that the loss incurred was considerable. It is therefore to be hoped that the remembrance of the injuries sustained by this fire will have the effect of making persons in the habit of setting out fires, more cautious in the future.

They should give the matter due consideration before lighting the match, and thus perhaps save both their neighbors and themselves a great deal of trouble.

Crops in general here appear to be a little on the light side, especially hay and oats. Still there are some very fine pieces of hay in this vicinity.

The wheat is considerably thinned out by the worm. I do not know but the potato crop will capture first place notwithstanding the incessant ravages of the bug. By the way, somebody recommended the use of lime as sure death to the bug, but I have been credibly informed that he endures it bravely, and as soon as possible marches off "white-washed" to the next stalk.

Springfield now furnishes a quantity of milk to the New Perth factory. Mr. Jas. A. Campbell has been chosen to collect the milk and makes daily trips to the factory. This new industry, we think, will prove highly renumerative to farmers.

We have now in our midst quite a number of visitors from the neighboring republic, who are paying short visits to their native land, in order to be again refreshed by its balmy breezes and to see the many relatives and friends from whom they have been separated. We wish them a happy time, and may they pay us many visits in the years to come.

The Sabbath School here, under the efficient superintendance of Mr. D. Fraser, is doing good work. There is a large attendance of scholars and a good staff of teachers. It is gratifying to see the people upholding such an institution as this. In it they have a powerful means of inculcating into the minds of the young, lessons of golden truth, which, in after years, will come to their aid, when tossed by cares and temptations on the rough sea of life.

Thanking you Mr. Editor for space allotted in your valuable paper,

OBSERVER.

A Horrible Sight.

A MATADOR IMPALED ON THE HORNS OF A BULL.

A sickening accident occurred at San Luis Potosy, Mex., on the night of the 27th July at a bull fight, witnessed in the new ring near the limits of the city. There were fully 5,000 people present, among them a number of American ladies and gentleman tourists. The matador, Albert Limeratura, was in the act of giving the third bull a fatal thrust with his sword, when he slipped and fell. The frenzied bull had him on his horns in a moment, and was going him ferociously, when three of the banderillas rushed to the rescue. Suddenly he charged upon one of them, overtook him and caught him upon the sharp point of his horns, which penetrated entirely through the man's body. The crowd was wild with excitement, the Mexicans cheering the bull for his grand fighting qualities. The dead body of the banderilla remained on the bull's horns until the animal was killed. Limeratura, the matador, died while being removed from the ring. The performance was then stopped by the police authorities.

SKODA'S DISCOVERY, the Great German-American Remedy for Heart, Nerves, Liver, Kidneys, Blood. Guarantee contract with every bottle. Pay only for the good you receive. At all Druggists, $1.00 per bottle, six bottles $5.50. If you want to know about SKODA'S REMEDIES, send postal for "Morning Light."

Do you know why Royal Belfast Ginger Ale is the best? Because the Wilmot Spa Mineral Waters are its base, and lime juice and pure extracts are used. All Grocers and Wine Merchants. ....

Now is the time to get butter crocks, cream crocks, preserve crocks, milk basins, bean pots. Cheaper than ever.—W. P. Colwill.

New Perth Notes.

The long-continued drouth has at length disappeared. Our parched and withered fields will soon again be clothed with that deep green verdure for which our Island landscape is everywhere remarkable, while some of our farmers are already giving fodder-corn to their milking herds with excellent results. Not only do the cattle relish this succulent food, but their flow of milk is thereby largely increased. In fact, without the cheese factory, and with the Colorado beetle, and almost prohibition duties on our exports and imports, the condition of our farmers would be anything but satisfactory.

Professor D. J. McLeod, our popular Superintendent of Education, examined our school on the 2nd inst. He thinks the teacher, who maintains a school in first-class standing without the aid of a second teacher, to be deserving of the highest praise. It is just twenty years since Mr. McLeod himself had charge of the New Perth School, and many of his former friends were more than delighted to see him looking so well and occupying the highest position in the gift of our Local Government.

The spiritual wants of our people have been well attended to during the past week. Brother Weaver, of the Disciple, and Spencer, of the Presbyterian Churches at Montague, preached with great acceptance in our large and comfortable schoolroom.

What might have been a very painful accident well nigh occurred at the residence of W. C. West Friday evening. While his wife and himself were absent from the house a short time he was informed by a passing neighbor that his house was on fire. Mr. West immediately rushed to the room of his little three year old baby and was horrified to find it filled with the densest smoke, while little baby was vainly rapping at the door. He considers that in ten or fifteen minutes the house would have been in a blaze and his child among the ruins. This shows the great necessity of keeping matches out of the reach of young children.

It is expected that before long the foundation of our new hall will be substantially laid, after which the erection of the frame will only be a question of time.

Two more of our most intelligent and respected young men, Messrs. James P. McLaren and William Kaneen, have left for the domain of Uncle Sam. May prosperity by theirs.

Circumstances Alter Cases.

In the month of March, 1815, the Paris Moniteur announced the unexpected return of the Emperor Napoleon from Elba. The first announcement of the Moniteur was far from polite, but as the little Corsican approached Paris a gradual change took place in its tone:—

"The cannibal has left his den."

"The Corsican wolf has landed in the Bay of San Juan."

"The tiger has arrived at Gay."

"The wretch spent the night at Grenoble."

"The tyrant has arrived at Lyons."

"The usurper has been seen within 50 miles of Paris."

"Bonaparte is advancing with great rapidity, but he will not put his foot inside the walls of Paris."

"To-morrow Napoleon will be at our gates."

"The Emperor has arrived at Fontain gates."

"His Imperial Majesty, Napoleon, entered Paris yesterday surrounded by his loyal subjects."

SKODA'S OINTMENT, the Great German Skin Cure, and finest Cosmetic made. Removes Blackheads, Pimples, etc., as if by magic. 3 oz. tubes in elegant cartons 50 cts.

It is creditable to the citizens of Truro that they are the first to do honor to Joseph Howe by erecting a memorial in honor of his public services.

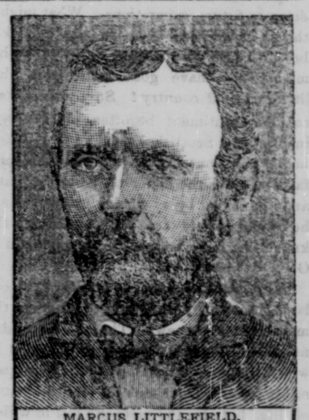
No smoker who has ever used the Myrtle Navy tobacco for, say a month, ever relinquishes it for any other brand. Its flavor is rich and full, and it never burns the tongue or parches the palate. It is, in fact, the ne plus ultra of smoking tobacco. ....

A citizen of Southport, Conn., was arrested lately at Fairfield for "vain sport and recreation by then and there riding about said town upon a certain vehicle, known as a bicycle, to the great disturbance of the good people of the State."

MAKES FLESH AND BLOOD.—When the system is all run down and there seems to be no hope of obtaining nourishment for the body by the ordinary process of food supply and digestion, when the body is sinking fast, then is the time to use Miller's Emulsion of pure Norwegian Cod Liver Oil. It always works wonders, because it is a flesh and blood maker and contains all the constituents for nourishment found in wheat, in fact, Miller's Emulsion is a perfect "staff of life," and has saved and cured thousands. In big bottles 50c. and $1 at Charlottetown drug stores. ....

TYPEWRITING FREE.—All students entering the Charlottetown Business and Writing Academy, during the month of August, for a full course, will be taught typewriting FREE. Send for application forms. L. B. Miller, Principal.—tf.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 1yr



MARCUS LITTLEFIELD.
Rheumatism of the Joints
AND
INHERITED HUMOR of the BLOOD
Banished by Skoda's,
AFTER PHYSICIANS HAD PRONOUNCED THEM INCURABLE!

MARCUS LITTLEFIELD LIVES AT WEST WINTERPORT, ME. A FARMER BY OCCUPATION, HE ENJOYS THE RESPECT OF ALL WHO KNOW HIM. IN CONVERSATION WITH A REPRESENTATIVE OF THE SKODA DISCOVERY CO., NOT LONG SINCE HE RELATED THE FOLLOWING STORY:

"Ever since I was **born**, I have been troubled at times, more or less, with a **HUMOR** on my hands, face and neck. For fifteen years it has been on the **increase**. I have been gradually failing in health, and for three years past it has **itched and burned** so badly, that all the way I could get any rest at night, was to **bathe in strong carbolic acid**, and this only relieved me for a few hours. In addition to this, eight months ago, **Rheumatism in my neck and shoulders set in, drawing my shoulders so out of place**, that for three weeks I did not have my clothes off. Physicians said I could never get well. I was unable to do any work, and was a great sufferer. I doctored with several Physicians, including Specialists in Boston, and **took nearly all the advertised sarsaparillas and blood purifiers**, but received **no benefit** whatever. I had given up all hopes, and my friends thought I could live but a few months. I began the use of SKODA'S DISCOVERY and TABLETS, according to directions, and also used SKODA'S OINTMENT externally. After using them but **one week**, there was a visible change in appearance. My skin that was literally **covered** with **pimples** and **blotches** began to clear up. My **appetite became good**, less pain in my shoulders, and **I gained rapidly**. I have now used less than two courses of these REMEDIES, and my **Rheumatism has entirely disappeared**. SHOULDERS THAT WERE DRAWN OUT OF PLACE AND WHICH THE DOCTORS SAID COULD NEVER BE GOT BACK AGAIN ARE AS GOOD AS NEW AND IN PERFECT POSITION. My skin is **free from blotches** and **pimples**. I have **gained twenty pounds in flesh**, can go into the woods at sunrise, and chop cord wood until dark, and not get tired, a thing I could never do before in all my life, and **am able to work all the time**. My friends are **astonished** at the results, and not more so than myself. They consider it **almost miraculous.**"
