**Rum Subsidies.**

The English officials in the far east have some queer methods of dealing with the natives of various provinces who have come under the sway of their government.

For the submission of some of the tribes composite subsidies are paid each year by the British agents. A good specimen of these is the subsidy paid to the Bhutias of Assam.

The chiefs assembled under the wide-spreading shade trees in front of the agent's bungalow, and the subsidy, consisting of 5,000 rupees in silver, 10 pieces of broadcloth and 48 bottles of rum, were spread out on the ground.

A formal ceremony, lasting only a few minutes, precedes the actual delivery of the subsidy

**Mark Twain In Battle.**

It is related that Mark Twain served two weeks as a soldier in the civil war. He was attached to Jeff Thompson's command in the Confederate army in Missouri. His own account of his military experiences, told in one of his private letters, is as follows: "We never won any victories to speak of. We never could get the enemy to stay still when we wanted to fight, and when the enemy felt like fighting we were generally on the move."

**Refused Prime Ministers.**

The wife of the late Earl of Bradford had a sister, of whom it was said she was the only woman who refused offers of marriage from two prime ministers. She was a Miss Forester, and in her youth refused Lord Palmerston. She married the Earl of Chesterfield, and as his widow refused Lord Beaconsfield.

Barber shops in Sweden have bowls in which one can wash his face without using the hands. On touching a button the water spurts up like a small fountain, and the man who has been shaved holds his face in it till the soap is all washed away.

**HUMAN SACRIFICES**

**On the Altar of Diabetes, Saved by Dodd's Kidney Pills, Only.**

Hardly a family in the country is free from Diabetes. Great thirst, failing sight, numbness in the thighs, bleeding gums, swollen ankles, emaciation, nervousness, pale or turbid urine, loss of sexual power, decaying teeth, pains in the loins or small of the back, are all positive signs that Diabetes is in the system.

Do you know how it ends? IN DEATH. A premature, horrible, agonized, pitiful death. The victim has no peace, no ease in life. His days are filled with tortures. His nights are waking dreams of agony. He longs to die, yet fears the terrors of his end. He dies, a bloated, fetid, repulsive mass of corruption. That is the only end of unchecked Diabetes. Dodd's Kidney Pills will cure it. They drive it out of the system thoroughly, create new, clean blood, rebuild the diseased kidneys, and restore robust health

**Electric Propulsion of Ships.**

Up to the present electricity has scarcely been thought suitable as the principal motive or propelling power for the larger type of vessels. This is undoubtedly owing to the fact that for a given horsepower a triple or quadruple expansion steam engine would take up less space and probably weigh less than an electrical installation of equal power. Storage batteries are out of the question for such uses, although persons not well up in electrical subjects frequently wonder why our ocean greyhounds are not propelled by some such method. It may interest some of our readers to know that a vessel requiring an average of 10,000 horsepower to propel it across the Atlantic, and displacing 5,000 tons, would be obliged to carry, were storage batteries alone made use of, 324,480,000 pounds of such batteries, or, in other words, the motive power alone would weigh 162,240 tons, or 30 times as much as the ship.—Electricity.

**His Story Too Local.**

A teetotal lecturer at West Bromwich, in order to illustrate the horrors of drinking, told his audience a story of a wooden legged toper who was so drunk one night that he took off his wooden leg to wind the clock. The story was told in all simplicity by the lecturer as he had heard it in his childhood. Strange to say, it applied exactly to the husband of a lady who happened to be one of the audience. After the lecture the lady waited on the lecturer behind the hall. "Wretch!" she said. "How dare you hold my husband to public ridicule?" "But, my dear madam!"— "Now don't deny it, for I heard you." Scratch, scratch, scratch! That lecturer is now undergoing repairs. He will be more careful of his choice of illustrations next time
