

What is Scott's Emulsion?

It is the best cod-liver oil, partly digested, and combined with the hypophosphites and glycerine. What will it do? It will make the poor blood of the anemic rich and red.

It will give nervous energy to the overworked brain and nerves. It will add flesh to the thin form of a child, wasted from fat-starvation.

It is everywhere acknowledged as The Standard of the World.

Equal to the Strain.

One of the most imposing objects on earth is the bass drummer in a brass band. Arrayed in full panoply, and hammering with might and main on both sides of the huge structure sticking out in front of him, he is an awe-inspiring and fear-compelling spectacle.

It is related of a bass drummer in the Blimtown brass band that when the band was playing and marching one day at the front of a political procession a dog, belonging probably to some man of the opposite party, rushed out barking furiously, and singling out the man with the big drum as being the heavy villain, so to speak, made a dash for him.

The drummer, without removing his eyes from the faroff depths of space into which he was gazing straight ahead, missed just one beat. With his heavy drumstick he hit the dog a blow that knocked it entirely out of the action, and went ahead drumming as before.

"Yes, sir," said the Blimtown historians, in speaking of the incident afterward, "he knocked that dog down and came in on time on the next beat! There ain't another man alive that could have done it!"—Detroit Free Press.

A Wind Railroad.

St. Petersburg, Fla., has a railroad operated entirely by the winds. The road is of standard gauge and runs from Tampa bay up a steep grade to the shed of an old fisherman, who is the owner, director and operator of the system. One flat car represents the rolling stock, and it is propelled by a great sail made fast to the car near one end, allowing ample room for the assorted loads of fishing materials, oils and provisions which are brought up to the fisherman's shed from time to time from the bay when the wind is inshore and of sufficient strength to move the car. It is then unloaded and returns to the bay again by gravity.

THE LADIES DELIGHT TO SPEAK OF DIAMOND DYES AND EXTOL THEIR WONDEROUS RENEWING POWERS.

Amongst the many useful and meritorious articles manufactured for home use and home money-saving, Diamond Dyes are certainly first in the estimation of all women.

The beautiful and charming colors produced by Diamond Dyes satisfy the most critical of women. Let the season be spring, summer, autumn or winter, the woman of taste can select suitable and fashionable colors when she decides to renew her old and faded dress, skirt, blouse, jacket, shawl, hose or ribbons, or her boys' or husband's faded and dingy looking suits.

The Diamond Dyes work wonderful and truly delightful transformations in every line of old material, from the silk dress to rage for the making of home-made carpets

and rugs. The colors are always bright, full and never-fading.

Chemical science has proved that a dye which produces a brilliant and lasting color on animal fibres or all-wool goods cannot give as good results on vegetable fibres or cotton goods.

To insure perfect success in home dyeing the manufacturers of Diamond Dyes prepare two special dyes, one for coloring silk and all wool goods, and one for coloring cotton and mixed goods. No other make of dyes can boast of the same scientific achievements; no other make of dyes can so well protect the interests of home dyers.

Successful home dyeing therefore depends on the use of Diamond Dyes at all times. Never allow your dealer to sell you untried and imitation dyes. Insist upon being supplied with Diamond Dyes.

Old Houses Made New

A house is as good as it looks—to the buyer. Need of paint or poor painting will cheapen any house. Keep your buildings properly painted and you'll keep them new. Paint an old building properly and you'll make it years newer both in your eyes and those of a prospective buyer. Painting properly includes much. First of all—proper paint.

THE SHERWIN-WILLIAMS PAINTS

are composed of the materials that best withstand the action of all weathers—that best preserve the surface they cover. Ready to use, but not patent paints. Ground and mixed by special machinery with a nicety not possible by any other means. If you're going to paint or hire a painter, write for *Paint Points* and it will be mailed to you free.

To The Front Again

After one year's vacation from the meat and grocery business, I have opened up again in my old stand on the corner of Hillborough & Richmond Sts., where I will keep a full supply of all kinds of meats, fresh and salt. I now take this opportunity of thanking my numerous customers for their very liberal patronage during my thirteen years in the meat business. I invite all my customers back again, and will guarantee them every satisfaction, and any who have not had the good luck of dealing with us in the past, and saving money, would do well to do so now. Having secured the services of Mr. Howard Worth, who has spent eight years in the meat business, part of that time as a meat cutter in the city of Boston and is capable of cutting meat to suit all customers. We are better prepared than ever to give the public satisfaction.

Our motto is "small profits and quick returns" Come along every lady and see for yourself. Special reduction made on S. Sunday.

Remember the place, corner of Hillborough and Richmond Streets.
