

"Make Hens Lay."

Such is the caption of an advertisement that appears not only in the local, but many leading agricultural papers, and which suggests the propriety of a few thoughts upon the subject. It may be laid down as a rule that most farmers indulge in raising poultry not for the pleasure it gives, but for the profit that is realized from the same which must come from young chicks or eggs, and since the chicks must come from the eggs, the real profit may be traced to egg production, so the advice given in these words is of vital consequence to the ambitious farmer. "The advertisement referred to recommends Sheridan's Condition Powder to make hens lay and so do we," says Mr. Hunter, poultry editor of the N. E. Farmer. "A hen to lay profitably must be in perfect health, must be in condition, and here is based the true theory of the value of Sheridan's Condition Powder—it promotes the general good health of the fowls, gently quickening digestion, and stimulating all the various organs of the body as well as the ovaries, to perform their functions. At this season of the year the use of Sheridan's Condition Powder is very valuable for moulting hens and young pullets. By its use now they will get to laying earlier when the price for eggs is very high. Any person buying and using Sheridan's Condition Powder now, will get their hens in good laying condition before cold weather, and stand a good chance to win one of the large gold premiums to be offered later by I. S. Johnson & Co., 22 Custom House Street, Boston, Mass. (the only makers of Sheridan's Condition Powder), who will send for 50 cents, two packages of Powder: for \$1.00, four; for \$1.25, a large 2-1/4 lb. can, postpaid; six cans for \$3, express prepaid. Six cans will pay a good dividend. I. S. Johnson & Co. will also send to any one asking for it, a copy of the best poultry magazine published, free; The paper one year and a large can of Powder, for \$1.00. oct 30 19 61 wky 11
