SEEKS IMPROVED USSR RELATIONS

Pearson Leaves For The Soviet Union Today

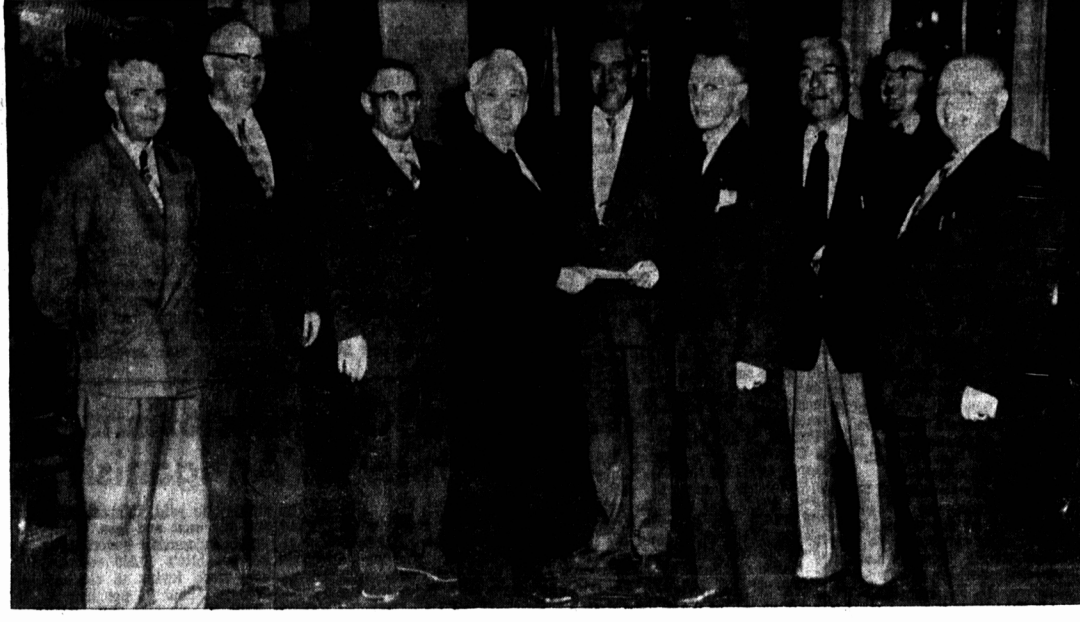

(By C. R. Blackburn, Canadian Press Staff Writer)
OTTAWA, (CP)—Improved trading relations and a better understanding between Russia and the Western world are objectives of External Affairs Minister Pearson who leaves today for the Soviet Union.
Mr. Pearson, "Mike" to his friends including many high in the Kremlin group, plans to spend a week in Russia as guest of the government.
He is accepting an invitation given him in San Francisco at the United Nations 10th anniversary conference last June. He leaves by air today and plans to arrive in Moscow next Wednesday evening.
He held a press conference Thursday he expects to talk specifically of chances of enlarging trade between Canada and Russia because he knows the Soviet officials want to discuss it.
He said he also hopes to talk about improved conditions for travel between the two countries and possibilities of helping Canadians and Russians to correspond more freely.
COURTESY VISIT
But the visit is largely a courtesy affair and he does not expect any concrete results in the way of agreements or commitments by either side.
"We will naturally talk about international problems," Mr. Pearson said, and that could include recognition of the Communist government of China. But he said it was a subject he would not bring up.
Other subjects would normally include the North Atlantic Treaty Organization and reunification of Germany.
But the minister said he was not going to Moscow with any specific problems or requests.
He hopes, Mr. Pearson said, that as a result of his visit he would have a better understanding of Russia's policies and objectives and that Russians would have a better understanding of the policies and objectives of the Western world.
Mr. Pearson, accompanied by his wife and a small staff and a group of correspondents, is scheduled to leave at 1 p. m. EST today on the RCAF official aircraft C-5.
COLUMBO PLAN MEETING
After the Russian visit he will go on to Singapore for a meeting of the Consultative Council of the Colombo plan.

Report Ottawa Is Opposed To Higher Tax Rentals

By HAROLD MORRISON
Canadian Press Staff Writer
OTTAWA (CP)—The federal government next week will reject provincial demands for higher payments as the price for renewal of current tax rental pacts and instead will offer its alternative tax-sharing formula.
The alternative, now cleared by the cabinet, is to have the provinces return to the direct tax field under a system of agreements designed to maintain a uniform rates, balance provincial revenues and prevent taxpayers' tolls from rising.
The alternative formula was approved by the cabinet in a day-and-a-half of sessions, the last before the curtain is raised Monday on the big federal-provincial tax conference. The sessions ended at noon Thursday.

Regional Employment Committee Meetings

The employment situation in Prince Edward Island is very good, managers of the Charlottetown and Summerside offices of the Unemployment Insurance Commission told the Atlantic Regional Employment committee yesterday.
The committee, under the chairmanship of Magistrate W. F. Lane of Moncton, opened its two-day quarterly meeting here yesterday.
John B. Murley, manager of the Charlottetown office, said that the construction industry was quite lively and pointed to the Dominion Government building, the Irving Oil and Imperial Oil projects and the Central Farmers Co-operative as evidences of this activity. In addition he said that there was much private building and the future also held assurance of a naval barracks being built at the waterfront.
He was particularly enthusiastic about Souris which he predicted would be one of the largest fishing centres on the Atlantic coast within a few years. He told the committee that this town had progressed from a small fishing centre of five or six years ago to the home of a large dragger fleet today. A second factory is now being constructed there which will give employment to another 100 people.
Turning to farming he said the picture was not so bright. The prices were low and as a result the farmers would not have the buying power that they had a year ago. The winter which was always a period of low employment was hard to predict but he felt that with the co-operation of a great deal could be done to improve the situation.
AT SUMMERSIDE
Earl G. Cannon, manager of the Summerside office, said that sea-

PRESENTATION TO RETIRING C. N. R. SUPT.

Mr. C. T. Montgomery, recently retired Superintendent of the Island Division, C.N.R. was presented with an address and a suitable gift by a representative staff group at the Charlottetown Hotel yesterday afternoon. The presentation was made by T. M. Brehaut, Chief Clerk. Pictured left to right — B. R. Rogers, Walter MacNeill, A. E. Lockhart, H. B. Douglas, Norman Nicholson, C. T. Montgomery, E. C. Matthews, T. M. Brehaut, Barter's Film Lab.

Coming Events

You are assured of prompt and courteous trucking service and the highest returns for your hogs. By listing them with Mr. Perley Drake or by phoning collect Vernon River 15-13 not later than Monday evening.

Supreme Court of Canada Has Heavy Docket

OTTAWA, (CP)—The Supreme Court of Canada will begin its autumn term Tuesday with a heavy list of 50-odd cases awaiting review by the nine judges on the bench.
A number of judgments on cases heard last spring are scheduled to be passed at the opening, but they are not expected to include decisions on the Montreal retail stores by-law case and the damage suit by a minister of the Jehovah's Witnesses against three Quebec provincial police officers.
One of the first motions to be heard by the full court will be that of convicted murderer Wilbert Coffin whose application for leave to appeal his conviction was denied recently by Mr. Justice Douglas Abbott.

Efforts Continue To Settle General Motors Strike

TORONTO (CP)—The question of seniority at the large General Motors Corporation of Canada plant in Oshawa was believed Thursday to be the last major obstacle in the way of resumption of negotiations to end the strike of 17,000 workers at the five GM plants.
Negotiators, who have been struggling with local plant problems for the last nine days, Thursday resolved disputes at the Toronto GM plant, leaving three more plants to settle before the main settlement talks are expected to resume.
A team from the GM London plant met also, but no results were announced. Both sides from the Windsor plant were reported considering their positions, and a meeting between them was expected.
The local talks are being held to try to clear away problems applying only to a particular plant before the main over-all talks begin. Local talks reached agreement in the St. Catharines plant Saturday.
The Oshawa plant is considered the major centre of dispute. In spite of the fact that most problems except seniority have now been settled, spokesmen said this matter may take several days to resolve. The Oshawa contract has been signed.

Eisenhower Continues To Recover Without Setback

By MARVIN L. ARROWSMITH
DENVER (AP)—President Eisenhower's recovery progressed to an extent Thursday where doctors decide to let him put his initials to a couple of government documents later this week, possibly today. It will be the first business transaction by the chief executive since he was stricken with a heart attack Saturday.
At the same time, it was announced that Abner Adams, Eisenhower's top aide, will fly here from Washington today to take over direction of operations at the Denver White House.
James C. Hagerty, White House press secretary, said in reply to question that the two developments mean it is likely—barring complications in Eisenhower's condition—that any need for possible delegation of presidential powers to other federal officials has about disappeared from the picture.
Reports from Fitzsimons Army Hospital said Eisenhower slept well Wednesday night and continues to "progress satisfactorily without complications."
The initial lists of foreign service officer assignments, Hagerty said they would not become effective until Nov. 1 unless initiated this week.
SOONER THAN EXPECTED
Minor as the step is on the hazardous recovery road, it came considerably sooner than had been expected. Dr. Paul Dudley White of Boston, who examined Eisenhower Sunday and Monday, said

Victoria Cross Winner Dies

NASSAU, Bahamas (Reuters)—Group Captain Lionel Wilton Brabazon Rees, 71, who won the Victoria Cross as a pilot in the First World War and "came back" to serve with the Royal Air Force in the Second World War, died here Wednesday.
He won the VC in 1916 when he tackled a group of 10 German bombers single-handed, shooting down two and scattering the rest. After the war, he was aide de camp to the late King George V.
Following his retirement in 1931, he fitted out an eight-ton ketch, the May, and made a gruelling 70-day voyage to the Bahamas, and made his home here.
In 1939 he rejoined the RAF, became a wing commander and, after serving in Africa, was promoted group captain.

Ferry Strike Deadline Set

SAINT JOHN, N. B. (CP)—The latest deadline for a strike against the Canadian Pacific Railway ferry Princess Helene is midnight Friday.
Notification to this effect was given Thursday by the Seafarers' International Union, which has twice postponed strike action to bolster demands for wage increases.

Japs Hope Worst Part Of Storm Will Miss Them

TOKYO (Reuters)—Japan eased up on preparations for a national storm disaster Thursday night, despite a warning by U. S. Air Force weather forecasters that typhoon Louise will smash Japan proper early today.
People sat back and breathed more easily when Japanese weather officials forecast that Louise, one of the fiercest tropical storms ever to hit the Pacific, had changed course and its main force would probably blast harmlessly past the main Japanese islands.
But later, U. S. air force weathermen issued a contradictory bulletin. This said the storm was ominously continuing a straight course north towards Kyushu, southernmost of Japan's three principal islands, and was expected to tear into the island early today. It has already wrecked the U. S. base on Iwo Jima and menaced another on Okinawa.
"Louise's powerful advance winds had already caused one death and injured 24 persons in Kyushu and outlying islands. They also wrought widespread damage to houses, bridges and communications.
The air force bulletin said the typhoon had maximum winds ranging up to 125 miles an hour.

Call Hurricane Damage A Major Disaster

LONDON (Reuters)—The British colonial office Thursday night assessed hurricane damage in the British West Indies as a "major disaster" and announced immediate grants of £50,000 each to the stricken colonies of Grenada and Barbados.
An official statement added that the government is also taking steps to help provide food, materials for new housing, and other relief for the many homeless islanders.
Norman Manley, chief minister of Jamaica who is in London to confer with the British government, described hurricane Janet as "one of the worst we have had in the Caribbean area this century."

Denies Peron Flying To Spain

BUENOS AIRES, (Reuters)—Foreign Minister Mario Amadeo denied Thursday that former President Peron left Argentina during the night by air for Spain.
He said Peron still is aboard a Paraguayan gunboat off Buenos Aires and that negotiations are proceeding for his exile abroad.

Cardinal Meets Ghost Writer

VANCOUVER (CP)—James Cardinal McGuigan of Toronto Thursday met his uncle's former ghost writer here for the first time.
Cardinal McGuigan, here for the third annual Catholic social life conference, chatted for 45 minutes with John A. Foley, 100, now Vancouver's senior citizen.
Mr. Foley wrote the first public speech ever made by Rev. Peter McGuigan, the cardinal's uncle. Father McGuigan, then a young lay teacher, gave the speech at a Waterford, P.E.I., literary society meeting sometime during the late 1870s.
Cardinal McGuigan's home town of Hunter River, P.E.I., is only 80 miles from Mr. Foley's birthplace of Waterford.
TORONTO (CP)—John Runions, 24, said he will devote the rest of his life to crime. He made the remark in court after he was sentenced to three months in reformatory for assault with intent to cause bodily harm. His sentence was promptly increased to six months.

Declares West Partly To Blame For Egyptian Deal

CAIRO (AP)—Premier Gamal Abdel Nasser said Thursday night the failure of the Western powers to maintain the balance of power in the Middle East was at least partly responsible for Egypt's decision to buy arms from Communist Czechoslovakia.
The Egyptian chief said he is ready to meet U. S. State Secretary Dulles at any time to discuss easing tensions in the Middle East. But he defended the trade of Egyptian cotton and rice for Red guns as neutral and reflective of our international political policy.
Nasser made his remarks in a recorded interview with Frank Kearns, a Columbia Broadcasting System correspondent. He especially criticized France for selling Israel tanks and jet planes while denying Egypt such equipment.
"I told those nations that the deal will upset the balance of power in the Middle East, Nasser accused Britain, France and the United States of failing to honor their pledge to maintain this bal-

Hurricane Janet Slashes At East Coast Of Mexico

By LAURANCE F. STUNTZ
MEICO CITY (AP)—Hurricane Janet, the season's most vicious tropical storm which has taken a toll of 350 to 400 lives, skirted a barricade of Veracruz Thursday and aimed her 120-mile-an-hour winds at the fishing village of Nautla, 75 miles to the north.
Reports from Nautla ceased abruptly at 1 p. m. when the weather station was closed because of rising water and a sustained 60-mile wind.
The year's 10th hurricane seemed destined to blow inland and die in the high mountains around Nautla. That village of 1,500 is the only populated place in Janet's present path.
While the storm seemed unlikely to cause any further great loss of life, its rains remain a serious threat to Tampico, already deeply flooded by two previous hurricanes this month. The waterlogged oil port of 110,000, 160 miles north of Nautla, has reported an outbreak of typhoid.
VERACRUZ DELUGED
Veracruz escaped the main force of the blow but it was deluged with 16 inches of rain in the 12 hours following the first approach of Janet's winds. An estimated 6,000 of the city's 120,000 population were driven from their homes. In some sections the water was three feet deep as high tides and surf added to the heavy rainfall.
In a little more than a week, the hurricane has swept across the West Indies and pounded Mexico's Yucatan peninsula before roaring toward southeast Mexico.
The death toll in the Caribbean area was estimated at 200. Reports from the Yucatan peninsula indicated the loss of life there would be about 200. Three towns were levelled.
The acting governor of British Honduras, Thomas Vickers, returned from an air survey and estimated 90 per cent of the houses were levelled in the northern port of Corozal, 2,000 population.

Local Man Heads Maritime Credit Bureaus

Mr. J. Arthur Vatcher of Charlottetown was elected President of the Maritime Unit of the Associated Credit Bureaus of Canada yesterday afternoon at the closing meeting of a two-day convention held at the Charlottetown Hotel.
The election followed the termination of a business session and a luncheon meeting of managers and their wives. Other officers elected were Vice-President W. J. Dalziel, Moncton, Secretary-Treasurer Paul Holland, Halifax, Mr. Steve French of St. John's, Nfld. was elected Maritime Director. Associated Credit Bureaus of Canada.
The next annual meeting will be held in St. John's, Nfld.
