Westmorland (PC 1,302) — John Hampton (SC), xWilliam L. M. Cresshan (PC), J. Ed.

Four-Man Group Proposes Dartmouth Radio Station

OTTAWA (CP) — A four-man group has proposed to set up the first radio station in Dartmouth, N.S.

The group told the Board of Broadcast Governors that the city of 50,000 needs a station of its own because it has "an identity of its own" and no longer is just a suburb of Halifax, site of three existing radio stations.

President of the proposed Dartmouth operation would be John F. Crutchbank, partner with his father in the Sackville Downs racetrack and a director of Sambre Fisheries, Sea Traders Limited and Atlantic Traverses Limited.

Other principals in the application are C. A. (Arnie) Patterson, public relations manager of Dominion Steel and Coal Corporation in Montreal; Donald R. Blais of Dartmouth, formerly with the CBC and CJCH-TV Halifax; and Vincent J. Currie, a technician formerly with

radio station CJCH Halifax. WANT 5,900 WATTS.

In their brief to the BCG, the four men proposed a station operating at 790 on the dial with a radiation power of 5,900 watts.

A directional pattern would guard against interference with radio station CKMR Newcastle, N.B., on the same frequency.

The brief said the new station would give Dartmouth a "voice," with community coverage and service beyond the

scope or intent of the Halifax stations.

It also would be an advertising vehicle for Dartmouth merchants. The brief said many of them feel that Halifax radio advertising rates are "too high for them" and, since their business comes mainly from Dartmouth residents, they are not interested in "buying" the whole Halifax-Dartmouth market.
