THE DAILY EXAMINER.

JANUARY 28, 1895.

REDUCTION OF PASSENGER RATES.

As intimated by THE EXAMINER a few days ago, the good offices of Hon. Senator Ferguson have resulted in a reduction of the rate of passage on board the SS. Stanley to that which is charged by the Steam Navigation Company in summer time. This reduction, together with that of the freight rates announced on Friday last, will prove a great boon to Prince Edward Island. Those who travel and those who carry on business in the winter season will be able to do so upon less money than they could in the past. Our winter steamer will thus become a real and very great benefit to the people on both sides the Strait, and our trade and traffic will thus be promoted. By promptly exercising his influence as a member of the Cabinet to relieve this Province of the heavy burden placed upon its winter communications, Hon. Mr. Ferguson has shown his practical interest and ability in respect to the public welfare and added another to the many advantages that he has obtained for the Province. All the refunds from Ottawa as well as the addition in perpetuity of $20,000.00 a year to the Provincial subsidy—equal to a capital sum of $500,000.00—are due to Hon. Mr. Sullivan, Hon. Mr. Ferguson and their colleagues in the Sullivan-Administration. "The proof of the pudding is in the eating." Senator Ferguson has practically demonstrated his ability as a representative of the interests of this Province. True his merits have been, and are being, decried by those who are unable to cope with him, and who are jealous of his success. This is the tribute paid to him by inferior minds. He has had, and so long as he continues to serve the people he will have, to contend with defamation. But we have no doubt that his continued good offices, in the face of venomous and continuous opposition, will be rewarded by the people's approval and gratitude.

FERGUSON VS. THE PATRIOT.

NATURALLY, THE EXAMINER stands for the fullest freedom of the Press that is consistent with the civil rights of individuals. "This is true Liberty when free born men having to advise the public may speak free." THE EXAMINER shall never be found false to this motto. We hold that liberty—not-license—is, in this country—the right of every man and every newspaper; and that if the the Patriot has not overstepped the bounds of liberty it ought to be protected by the courts. On the other hand it is to be remembered that every British man is held to be innocent until he has been proved guilty and that any newspaper charging crime against any man is rightly and properly liable to punishment unless it is able to substantiate the charge.

The Patriot announces that it will publish a full report of the recent trial. It is to be hoped that readers of the Patriot will take the trouble to sift the evidence. Readers ought to remember that the action was taken by Senator Ferguson to obtain redress for a personal libel. If Senator Ferguson has been unsuccessful, owing to the failure of the jury to agree, he has at least the satisfaction of having the whole truth in respect to the matter set forth in open court. Whether Senator Ferguson will deem it worth his while, under all the circumstances, to take proceedings for a more satisfactory verdict, we know not. He has, at all events, challenged the libel and publicly vindicated his personal character.

—We agree with the Week that it is pleasing to see the better class of journals in the United States taking honorable ground in regard to the obligation of the nation to pay the amount of damages agreed on between the respective Governments concerned in the Behring Sea matter. The Outlook, after stating the case very fairly, and pointing out that the agreement to pay a lump sum of $425,000 in full settlement of all demands was proposed by their own Government, "after a thorough examination by both Governments," and that the award requires that the amount agreed on "shall be promptly paid, concludes as follows: "As has been well said, 'In the eye of public law this claim is just as valid now as any part of the national debt, and a repudiation of it would be as bad as repudiation of a portion of the debt held by foreigners.' In other words, if there is a difference of opinion on this question in Congress, it will be a difference of opinion on the question whether we shall pay our debts or not: we refuse to believe that Congress will hold two opinions on that question."

PERSONAL.

Mr. J. Lawlor Woods, of Montreal, assisted the choir of St. Dunstan's Cathedral at High Mass yesterday, rendering the "O Salutaris" and the "Benedictus" in an excellent manner.

Mr. James Paton, of the firm of James Paton & Co., left last evening on a business trip to the Old Country. This will be Mr. Paton's *twentieth consecutive* spring trip, and the seventy-fifth time he has crossed the Atlantic.

Miss Palmer and Miss Maggie Palmer were passengers in the mail express to Georgetown last evening en route to Boston.

Mr. F. H. Arnand left last evening en route to St. John's, Nfld., to establish a branch of the Merchants Bank of Halifax at that place.

A lady will sometimes spend hours selecting dress goods. She is not desirous of giving trouble at all. But there are conflicting claims. There are considerations of durability, of texture, of draping. Priestley's dress fabrics have reached a niche in the popular esteem when conflict ceases to vex. It is enough to get Priestley's black dress goods to feel confident that you have the best. They wear better than any other make.

How discouraging to find that the cloth you have chosen for a suit of clothes does not turn out as you expected. Such is never the case with the "Tyke" Serges, but you must be sure to get it with the registered trade mark "Tyke" stamped on the back of every 2½ yards.

The Cabinet-making business in France does not go well. Two gentlemen, who quarreled about portfolios, are reported to have settled their difficulties by drawing lots, but still the Ministry hangs fire. Why not settle the whole business by the same happy expedient? Tossing up or counting out seems the only method left for France to get a cabinet at all. Chance could hardly do worse than political intrigue has done hitherto.

GENERAL TELEGRPAIC NEWS

MONTREAL, Jan. 25.—President Dion owns a flower mill at St. Paul de Chester, and while the proprietor's five year old daughter was playing in the mill, her clothing was caught in the machinery and a leg and arm torn from the poor child's body.

PARIS, Jan. 25.—M. Ribot held consultations with MM. Poincaire, Letson, Barthen and others, and will probably be successful in forming a cabinet. Opposition newspapers denounce his prospective Ribot ministry. La France publishes an article on the subject under the caption "France sold to England," and La Patrie heads its article, "The English in power."

CITY OF MEXICO, Jan. 25.—A telegram was received at the United States' legation from Secretary Gresham, expressing President Cleveland's hope that Mexico and Guatemala would agree upon some favorable means of settling the boundary dispute among themselves, or failing, would agree upon a reference of the controversy to friendly arbitration. The message was transmitted to President Diaz.

SHANGHAI, Jan. 25.—Gen. Nodsu reports that on the 17th a Chinese force 8,000 strong, under Gen. Chang, attacked Hai Cheng. A battle ensued with the Japanese right wing, consisting of 6,000 men under Gen. Yi, and the Chinese were defeated, leaving on the field 21 dead and 100 wounded. They are now camping at Chang Hatai, having retreated north of Wutachang with a view of obtaining reinforcements from the general commanding at Shan Hai Kwan.

LONDON, Jan. 25.—A despatch from the Central News from Tokio says that under date of Haiping, Jan. 24th, (afternoon), General Fogi reports as follows: "The Chinese, 10,000 strong, from Tai Hai Gen, advanced to our outermost lines of defence. Artillery only was employed on both sides. The enemy was soon routed, demoralized by our shapnel and returned in two bodies, one to the northward and the other taking a northwesterly direction."

BOSTON, January 25.—Arthur M. Forrester, a well-known writer and poet, is dead. He was for some time assistant editor of the Irish World, and was the organizer and leader of a number of Fenian raids in Ireland and the north of England. He also served as a sergeant in the Franco-Prussian war. His name was frequently mentioned in the Phœnix Park trials in connection with those of Joe Brady and Fagan.

Warning to Women.

Ladies who appreciate the high quality of Priestley's dress goods should make it a point to see that Priestley's name is stamped on every five yards. Instances are not unknown where Priestley's trade mark "The Varnished Board" has been used the second time with inferior goods wrapped upon it.

KING'S COUNTY EXHIBITION ASSOCIATION.

A special meeting of the shareholders of the above association was held at Georgetown on the 22nd inst., at which the following were present, viz.: Hon. D. Gordon, President; James Clow, Esq., Vice-President; Malcolm McDonald, Esq., Treasurer; Archibald J. McDonald, M. L. A.; D. A. McKinnon, M. L. A.; John Lavers, Georgetown; Dr. Robertson, Jas. M. Aitken, Montague Bridge; Wm. A. Poole, Leslie Poole, James E. Poole, John A. Annear and Geo. B. Aitken, M. L. A., Lower Montague; James E. McDonald, M. L. A., and Hugh McCormack Cardigan Bridge; George Gordon, O. S. Gordon, D. McQuarrie, Wm. McLean and James McNeill, New Perth; John G. Graham, Murray Harbor, Capt. H. McPhee, Nathaniel McPhee, H. J. McPhee, Burnt Point; Nathaniel McLaren, Brudenell; Joseph Macdonald, Panmure Island and the Secretary.

The President of the King's County Exhibition Association called the meeting to order and explained that it had been considered advisable by the managing committee of the association to hold a special meeting of the shareholders, to consult with them as to the desirability of continuing to hold exhibitions in Kings's County; and to consider what terms the Government should include. He then asked the Secretary to give a report of the financial state of the Association. The Secretary submitted a carefully prepared statement showing the amount contributed by shareholders, the earnings of the Association, and its expenditures, the entries for the exhibitions of 1890, 1891, 1892, 1893 and 1894, both of live stock, agricultural productions and manufacturing industries. This statement shows that in 1890 the total number of entries was 685 and in 1894 the aggregate was 1308, an increase of nearly 100 per cent. The earnings of the Association for 1894 were as follows:

Profit, Races in July, 1894	$139.87
" Caledonian Gathering	113.55
" King's Co. Exhibition and Races	31.39
	$284.81
Less expenditure on Capital account of Profit and Loss	50.61
	$234.20

Geo. B. Aitken, Esq., M.L.A., spoke of the interest taken in the King's County Exhibition by the people generally, and quoted from a letter written by Hon. Fred. Peters, Leader of the Government, respecting the matter, asking for an expression of opinion as to the desirability of continuing the Government support hitherto given to them.

Archibald J. Macdonald, Esq., M. L. A. showed the necessity of continuing the county exhibitions. He pointed out that the King's County Exhibition Association, having provided suitable grounds at Georgetown and erected substantial sheds for the protection of live stock, besides having convenient access to the Drill Shed as an exhibition building, were in a better position to successfully carry on the exhibition than any other place in the county. If the grant were divided and given to each end of the county, it would prove disastrous to the county shows and lead to their being discontinued.

Dr. Robertson considered the King's County Exhibition had been an advantage to the people of the county, especially in the matter of improved live stock. Now that so much interest was taken in dairying, it was necessary to have improved breeds of cattle and it would be detrimental to that industry to discontinue county exhibitions, where the farmers were encouraged to exhibit their best stock.

John Lavers, Esq., spoke strongly on the advantage of the exhibition to an agricultural country, as it stimulated competition in raising the best kind of crops.

Hon. James Clow referred to the suitability of the grounds of the Association, pointing out that they were in a central part of the County, and the most suitable for having a good exhibition. He was sure the financial report was gratifying to the shareholders present, showing that the business had been carefully managed. If the Government grant was divided or lessened, it would be of little benefit, as the prizes would not be worth competing for. In Charlottetown the great expenses that had to be incurred by exhibitors of live stock did away with the advantages of larger premiums. The consequence was that few people from this County took their live stock to the Provincial Exhibition. He had gone there with some of his stock; but although he obtained a number of good prizes, the expenses took them all and more. In King's County for the past five years, although the prizes were not large, yet the expenses of the exhibitor were so small that there was considerable encouragement to make an exhibit. The dairying interest in this County has attracted wide attention, and it is most necessary to stimulate and encourage the breeding of improved dairy cattle. He hoped the Local Government would increase the annual grant for county exhibitions.

On motion of Dr. Robertson, seconded by Archibald J. Macdonald, it was resolved that in the opinion of this meeting, it is advisable to continue holding county exhibitions.

On motion of Dr. Robertson, seconded by John A. Annear, Esq., it was resolved that this Association request the Local Government to continue the grant to aid King's County Exhibition, and to increase the same, if possible, to $1,500.

On motion of Dr. Robertson, seconded by Malcolm McDonald, Esq., it was resolved that a committee be appointed to memorialize the Government in connection with this matter.

Committee appointed: Malcolm McDonald, John A. Annear, Archibald J. McDonald, O. S. Gordon and James M. Aitken.

On motion of Malcolm McDonald, Esq. seconded by Archibald J. Macdonald, M. L. A., a dividend of 7 per cent. was ordered to be paid to shareholders (who have paid all calls demanded) on the amount paid in by them.

A refund of 20 per cent. of the amount advanced was given to shareholders who have paid in over 60 per cent. in cash.

Shareholders can obtain their dividends by applying to Malcolm McDonald, Esq., Georgetown.

CANADIAN IRON INDUSTRY.

In the course of a recent address, Mr. Geo. E. Drummond, of the Canadian Iron Furnace Company, pointed out that the Canadian iron industry, in sympathy with all other industries, had suffered from the acute depression which had been worldwide for some time past. The Government, however, had restored confidence by a timely resolve to encourage the industry, but the condition of affairs in the United States had had such a bad effect on the Canadian market that the effect of this encouragement was, for the time being, lost. The overstocks of the United States' iron furnaces and bankrupt stocks held by United States banks were dumped into this country and sacrificed for what they would bring, to the great injury of the Canadian manufacturer. Yet in the face of this formidable competition the Londonderry Company, whose principal market for pig iron is in Ontario, has done comparatively well. The New Glasgow Coal, Iron and Railway Company have kept their furnaces in full blast from the beginning of the year while the Picton Charcoal Iron Company show a fair output. In the province of Quebec the operations of the Canada Iron Furnace Company at their Radnor forges surpassed all previous efforts. After running continuously for two years, the works were shut down in August last for relining of the furnaces, but for the previous nine months they produced 1,178 660-2240 net tons of high class chrcoal iron and 15,866 1033-2240 net tons of ore, an average of 640 men and 300 horses being employed throughout the year in the field and at the works. The high quality of the company's product commanded a steady market and enabled it to withstand the keenest competition.
