(For Haszard's Gazette.)

Address from the Committee of Lot 49, Singing School,

To Mr. John Ross, Teacher of Vocal Music, &c. &c.

Sir,—The praise worthy manner in which you have conducted yourself and us, while engaged as teacher and we as pupils, calls for some expression of feeling and gratitude, at the expiration of our term.

Permit us Dear Sir, to tender you our sincere thanks for your correct conduct while instructing us in the Rudiments of Vocal Music, you have watched over us with all that quickness of penetration which you are so capable of exercising.

We should feel indignant at those who would endeavour to imprint upon the public mind any feeling contrary to the tenor of this Address, being fully convinced that if the class has not arrived at that state of proficiency which some might have anticipated, the censure or blame must (in accordance with strict propriety) rest with us, fully believing that your qualifications as a Teacher can be by few equalled, by none surpassed, in this our lovely Isle.

And now our much esteemed friend and tutor, we would take our leave of you with feelings of a mingled character, of regret that you are about to bid us farewell for a season, we hope not for ever, and also of pleasure, when we reflect upon the hours passed in endeavouring to acquire a knowledge of that heart-cheering and spirit stirring science, Vocal Music.

We would now conclude by sincerely wishing you all the success possible in your present calling, and not only the reaping of the reward, upon yourself and Mrs. Ross, but also praying that beyond the bounds of time we may unite to strike the harps ever tuned and sing the songs of the redeemed around the Throne on high.

I remain, yours &c.,
JOHN ROBERTSON, Chairman.

Class Room, Oct. 24th 1853.

Reply.

To the Chairman and Committee of Lot 49 Singing School.

Gentlemen,

I thank you sincerely for the very kind but too flattering Address you have been pleased to present to me.

Assured as I am that this testimonial is the sincere expression of your sentiments, I receive it with gratitude and shall preserve it as a valuable document.

During my connexion with you as teacher, I have always felt it a pleasure to perform to the best of my ability the duties devolving upon me, and to which you are disposed to accord something more than simple justice, while your attention to the lessons and the rapidity with which you progressed, arise evidently from your aptitude in learning, more than my ability in teaching.

I feel my incompetency in making a suitable reply, but will merely add that I shall always be happy to hear of your welfare. I also thank you for your kind remembrance of Mrs. Ross.

Believe me,
Gentlemen, ever yours,
JOHN ROSS.

Tailoring Establishment.

JAMES M'LEOD, Tailor and Habit Maker, respectfully intimates to the Gentlemen of Charlottetown, and his numerous friends in town and country, that he still carries on the above business in all its branches, at the corner of Queen and Kent Streets, nearly opposite the residence of Dr. Poyer, where all orders in his line will be thankfully received, and attended to with punctuality.

Having had considerable experience in his business, he takes this opportunity of challenging competition, and feels confident of giving satisfaction to all who may favor him with their patronage.

N. B. Two Journeymen and an Apprentice Boy wanted immediately.

November 3, 1853.

I do certify that James McLeod has for many years been employed by me, and he has obtained his knowledge of the cutting and making up of garments; I can, and do, therefore, recommend him to the public as the very best cutter and workman in his branch.

SIR,—As the Agent of various *Fire Insurance Companies*, I am desirous of recommending your notice as *PATENT ARTIFICIAL SLATE*. This composition has been upwards of, three years extensively used in New Brunswick, Newfoundland and Prince Edward Island, and in Nova Scotia, principally for covering shingled roofs, as you will perceive by the accompanying circulars of certificates. It has been proved to be a most durable and successfully its fire proof qualities under most extraordinary circumstances; so much so, that I am of opinion that Fire Insurance Companies should encourage its general application to all kinds of wood building as even the color would be no objection to its being used, such as the back walls of dwellings in the city, out houses, ware-houses, &c., as well as the roofs, by lowering the premium of insurance on such buildings as are covered.

Astonishing efficacy of the Oxygenated Bitters,

IN A CASE OF LONG AND SEVERE STANDING.

From Fitzhenry Homer, Esq., of Boston, Mass.
Boston, September 28, 1848.

Dear Sir—It is now eighteen years since I was first troubled with the water-brash and discomfort of the stomach. I have taken advice of the best Physicians in this city and New York; in London, Paris, Germany and Italy, followed their prescriptions, and visited the several sulphur and other springs in this country, the watering places of Germany, and elsewhere in Europe, and had found no relief. Since taking the Bitters I have never had a return of the Water-brash, which daily troubled me of late years to a very great degree. My appetite has returned; the extreme distress and faintness following in the bowels, general debility, and sleepless nights under which I suffered, have entirely left me. Having found so great relief from this most discouraging disorder. I have recommended a trial of your medicine to many of my friends, who are now using it to great advantage. And I cannot refrain from writing to you in the language of gratitude, for the great benefit I have received upon the community; and trust that what little is in my scope to offer in extending the circulation of your "Oxygenated Bitters," will be done with grateful pleasure at all times.

BELLS! BELLS! BELLS!

THE Subscribers manufacture and keep constantly on hand, all sizes of Church, Factory, Steamboat, Farm, Locomotive, School House and Plantation Bells, with the *best* description of Hangings.

These Bells are made from the *best* stock, and the small sizes undergo the same process in manufacture as Church Bells. An experience of thirty years, with a great many recent improvements, and an entirely new method of casting, enables us to obtain the most melodious tone, combining also, in a extraordinary relation.

Nearly 9,000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have fifteen Gold and Silver medals at our office, which were awarded for the "best Bells for commonness and purity of tone."
