C.N.I.B. Auxiliary Plans Picnic For The Blind

Plans were finalized for the annual picnic for the blind of Prince Edward Island at a meeting held in the Charlottetown Hotel yesterday afternoon by the Charlottetown branch of the Women's Auxiliary of the Canadian National Institute for the Blind.

It was decided that blind persons from all over the Island would be invited at the discretion of Mr. Bower. Tentative date for the picnic is July 8. Mrs. W.J.P. MacMillan, Mrs. S.G. Peppin and Mrs. George Purvis will contact National Park officials concerning the picnic.

Mrs. Allan J. MacDonald, first vice-president will have charge of refreshments, Mrs. Harold Huggan, Mrs. Ivan Horton and Mrs. Harry Bonnell will purchase prizes for the sport events. The treasurer, Mrs. F.J. Steele will be in charge of purchasing ice cream and candy bars for the guests. An excellent cup of tea will be prepared by Mrs. William Teed, Mrs. John Garnham and Mrs. A.J. Coffin. Mrs. J.T. Rodd will attend to the supply of dishes. Members of the Lions Club will supervise the games and sports events.

The president thanked Miss Lorna Weeks and Mrs. Allan J. MacDonald for their help at the cake sale held by the Friendship Club of the C.N.I.B. Also the members who so willingly helped to wrap and deliver the Easter gifts to the blind. Transportation will be taken care of by Mr. Philip Bower, field secretary.

TELLS OF BEGINNING The guest speaker, Mr. Flynn, gave an interesting account of the beginning of the C.N.I.B. Col. E.A. Baker, an electric engineer in the First World War was totally blinded. Col. Veath, another blind chap and Mr. L.M. Wood considered what could be done for sightless persons. In 1918 they applied to the government for a charter, first to ameliorate conditions of the blind, secondly to prevent blindness.

Col. Baker is the first president of the World Council for the blind. By request they sent A.M. McGill, totally blind, to Egypt where there were 30,000 sightless persons. Now there is a marvellous Rural Life Sunday, May 25th: Brae, 9:30 a.m.; Bloomfield, 11:00 a.m.; West Devon, 2:30 p.m.; O'Leary, 7:30 p.m. Sunday School held at usual times Rev. J. Dr. Bassu of India is now in Canada and through research hopes to find the answer to keeping the cornea of the eye for transplanting from 20 to 30 days. The time is now 24 hours. There is no eye bank in the Maritimes.

Mrs. J.B. Murley thanked Mr. Flynn for his informative address and Mrs. W.J.P. MacMillan moved a vote of thanks, seconded by Mrs. J.T. Rodd.

On motion of Mrs. George Purvis the meeting adjourned.

AMONG THE FARMERS
Federation of Agriculture Newsletter

JUNE SET-ASIDE This is a reminder to the dairy lands and dairy farmers that the 358 June contribution of 1 cent per pound butterfat will soon be coming up again. All dairy plants have been provided with a pamphlet outlining the program and advising that the deduction will be made from June settlements unless the farmer otherwise advises. If the plants have not already sent out the pamphlet, they should certainly be in the hands of the farmers in the end of May settlement. Through their advertising and public relations program the dairymen of Canada have proven their ability to work in a national way and to set up a program which is recognized as an outstanding one by all acquainted with it. One cent per pound of butterfat is not a large amount per farmer but it produces in sum total across Canada a very useful amount of money.

N.S. FEEDER SALE The fifth annual feeder sale held at Bridgewater some ten days ago saw 342 head going under the hammer. These cattle brought an average price of 19 1/2 cents per pound or a total of over \$41,000. Prices ranged from 15 1/2 cents to a high of 24 cents. Related to market values for slaughter cattle this sale would appear to have produced very satisfactory returns. The Nova Scotia cattle people have developed a feature which provides a convenience to buyers and a profitable outlet to the producers. The question arises as to whether there is a place in this province for a similar effort. This is something the cattle people could very well be pondering.

CROPPING PROGRESS In spite of recently backward weather grass and cropping are still almost two weeks ahead of last year. Some of the earliest planting on record took place this year and some potatoes have been in the ground over a month and the occasional early turnip fields is now showing up in rows. Cattle have been going out to grass and that is already reflected in improved milk production.

EISENHOWER AGRICULTURE President Eisenhower in a recent report to Congress expressed the following thoughts in relation to Agriculture. "The scientific revolution in agriculture is irreversible and is continuing. It cannot be avoided and it need not be feared. In recognition of this basic fact, we must find ways of utilizing more completely the abundance that our farm people are now able to produce: we must find ways of expanding markets for this increased production, not only among our own citizens but among people all over the world who need the food and fiber we produce in such plenty. "At the same time we must help our farm people to cope with the sometimes harsh consequence of their own unparalleled ability

TO PRODUCE, WHILE PRESERVING AND
strengthening free enterprise and the family farm."

THE POST AND FARMER In a recent editorial the "Financial Post" berates the farmer for giving in the Maritimes to the Royal Commission on Price Spreads of Food Products the impression that the consumer is wrong in spending so much of the food dollar on fancy packaging and processing. Says the Financial Post "this is no way to win friends and influence the consumer. If Canadian farmers want to serve the growing domestic market for food they will have to learn, as the businessman have had to learn, that the customer is always right." We might remark that most farmers recognize the fact that the housewife today wants (and for the most part can afford) semi-processed food that saves labour in the home. Naturally semi-processed food should and does sell for higher prices but the processing and packaging industries benefit from the higher prices not the farmers. If the Royal Commission got the impression in Maritimes that farmers really disapprove of processed and packaged foods then this impression should be corrected. What the farmer really disapproves of is the fact that many consumers believe that higher prices are going entirely into the farmer's pocket to make him wealthy at the expense of the consumer.

The housewife is entitled to processed and packaged food. The farmer is entitled to let the consumer know that on the average less than 50 cents of the food dollar goes to the farmer. The remainder goes to processing and distributing industries.

POTATO PROBLEMS Last year's bumper Island potato crop was possibly the largest on record, a fact which now appears to be reflected in a possibility that there may not be a market for the entire crop. This possibility has led to exploratory action on the part of potato people on some form of stabilization assistance for farmers. Back in 1949 when a similar situation developed the Price Support Board undertook to pay for potatoes in the farmer's cellar in the month of May and June. Potato inspectors made an estimate of the bin contents and of the percentage of No. 1 potatoes on these estimates the farmer received settlement. However, from an accounting standpoint the operation was not entirely satisfactory to the Price Support Board and there has always been a certain amount of reluctance on the part of Ottawa to repeat the performance. In an event potato growers with stock still on hand will be following with considerable interest the result of present efforts to gain some help from Ottawa.

PRICE SUPPORTS For the information of those who may not have seen the various announcements in the press we summarize what has been done to date in the setting of floor prices under the Stabilization Act. For hogs there is a floor price of \$25 per hundred, warm dressed Grade A at Toronto. There will be freight differentials for other parts of Canada. Previous floor was \$23. The floor price of butter has been set at 64 cents per pound basis delivered for the Maritimes at Halifax and St. John. The previous floor was 58 cents. For wool a deficiency payment

will be made to bring prices up to 60 cents per pound basis Toronto for good quality wool. Cheese will have a floor price of 34 cents per pound in Ontario, 33 1/2 cents in Quebec delivered to warehouse. This could mean a strengthening in Island cheese prices of roughly 2 cents per pound.

Under the 80 per cent mandatory floor good cattle have been set at \$17.50 per 100 Toronto. Lambs at \$19.55 at Toronto. On eggs the floor has been set on the basis of 44 cents a dozen for Grade A large eggs in new wooden cases delivered Montreal. For the Maritimes this means 42 cents a dozen which related back to the consumer should return 33 cents per dozen.

The floor on skim milk powder has been lowered from 17 cents a pound to 15 cents.

On asparagus an agreement has been made to pay 17 cents per pound delivered at processing plants. In British Columbia the tomato people will be assisted on the basis of purchase at \$5.70 per case of canned tomatoes.

Prepare New Haul Road For Bridge Fill

A new 'haul' road is being made to connect the Kinlock Rd. with the section of the Trans Canada Highway built last year for the purpose of hauling fill to the new Hillsboro bridge. The big diesel cats are bulldozing their way through virgin territory to provide for the road. The comparatively short haul will permit the big carryalls to save considerable time reaching the dumping site. The Kinlock Road over which the sandstone fill will move, starts at the shore on Bellevue Cove and runs up to the present paved highway. The fill will be taken from the farm of Roland MacDonald.

OPPOSES SUNDAY WORK

LONDON (Reuters)—The Archbishop of Canterbury has condemned the commercial exploitation of Sunday and unessential Sunday work for higher rates of pay. "It is disastrous for moral health when Sunday work becomes an accepted part of the industrial machine sought after and, indeed, demanded for its own sake because it carries a higher wage" the Anglican primate writes in his diocesan notes for June.

PRODUCTION DROPS

OTTAWA (CP) — Canadian industrial production dropped in March, the bureau of statistics reported Wednesday. Only two of five index components—non-durable goods and electricity and gas—showed increases. The index of industrial production is based on the period 1935-39 equalling 100. At the end of March, it stood at 275.9, down 1.3 per cent from the February figure of 279.4.
