LOCAL AND OTHER ITEMS.

R. I. F.—Regular monthly meeting this Tuesday evening at 8 o'clock.

THE WORCESTERS.—By telegraph to Carvell Bros., we learn that the steamer Worcester left Halifax at 7 o'clock this morning. She is expected here this evening.

W. C. T. U.—It is pleasing to learn that the W. C. T. U. restaurant in the old Union Bank building, north side of Queen Square, is being well patronized. The meals offered are good and cheap.

THE MARKET.—Today's market was fairly well attended with business throughout the day. No change was to be noted in prices. A very fine line of suits were on sale, owned by Mr. Philip Curley, of Lot 45, the total weight of which was 240 lbs.

SOFT ACT.—A petition asking that the Soft Act be brought into force in Charlottetown is in circulation in this city. After the required number of names has been obtained, the petition will be deposited for ten days in the Registry Office for public examination and inspection free of charge.

A PROFITABLE HOPE.—A. Vidito & Son, Bridgetown, purchased an eighteen month old porker from E. B. Foster, of Hampton, N. S., Tuesday, which weighed 425 lbs. Mr. F. walked away with \$34, the amount netted for the hog, and expressed himself by saying that stock raising is a profitable business in Nova Scotia.—Halifax Herald.

AN ISLAND MISSING.—The three-masted schooner A. B. Weeks, of Portland, Me., has not been heard of since the great gale of the 23rd of August, and it is feared that she has gone down with all hands. The first mate of the Weeks was Martin Tobin, a native of Prince Edward Island. Tobin had been on the schooner about 12 years, and was esteemed by all who knew him.

THE SOCIETY RACES.—Advisers from Souris at two o'clock this afternoon were to the effect that they were about going on with the races, as the track was in fair condition and there was a good attendance of spectators. The special train from the city, to leave here at 8 o'clock this morning, was cancelled, to the great disappointment of a number of persons who were at the station all ready to take passage.

THE TROT.—The trotting stallion, Elgar, owned by Mr. Todd, of St. Stephen, tested at a special race at Park, Portland, Me., on Thursday, in 2:13, and two others in 2:14 and 2:15, beating the Maine state track record.

AT HIGHLY PARK, PORTLAND, ME., on Friday, one of the chief features of the day was the trial of the pony wonder Sea King to beat 2:24. The little fellow was full of trot, and stepped handily in 2:21.

ERWORTH LEAGUE.—At the annual meeting of the Erworth League, held last evening, the following officers were elected for the ensuing year:

President—H. R. Boswell. First Vice—A. C. Duchemin. Second Vice—Mrs. Henry Smith. Treasurer—L. E. Wheeler. Secretary—E. P. Beer.

HEADS OF COMMITTEES—G. H. Hazard, Miss M. White, Mrs. L. M. Poole, Miss M. Johnson, Miss Large.

WHO IS HE?—The Moncton Times says: A one-eyed tramp, claiming to be from P. E. Island, has been attempting to play a rather sharp game at some of the country houses where he has recently put up. The scamp in question was given a night's lodging at Mr. Bostford Trites' Berry's Mills, last week, and in the morning after Mr. Trites had left the house, the tramp alleged that he had been robbed, and by threats tried to scare Mrs. Trites into paying over the alleged missing amount. Fortunately Mr. Trites returned to the house and after being made aware of the little game the scamp was run, and is now in jail.

FROST AT THE FAIR.—Frost has seriously injured the work of the Department of Horticulture at the World's Fair. The acres of beautiful flowers and foliage that have delighted visitors are rapidly disappearing, and the fine beds planted by exhibitors are going to waste. The most serious injury is noticed on the wooded island, which looks almost dreary. The 35,000 rose bushes, covering an acre and a half, have gone to sleep, and the sixteen varieties of peonies that surrounded the rose garden are dead. The injury that is most regretted is in the caena beds east of horticultural building. They are the finest in the world, and extend from the bridge opposite festival hall almost to the woman's building.

LECTURES.—We had the pleasure of recently visiting the class rooms of Miss Isabel MacMillan, teacher of physical and mental culture, and were greatly surprised at the manifest progress that had been made by her pupils in the short time since the opening of her classes. Miss MacMillan's system of imparting knowledge in reading and elocution is based upon what is known as the Emerson system. By a special course of two years in the Emerson College of Oratory, Boston, supplemented by a two years' course of private instruction under the direction of one of Boston's most successful teachers of dramatic recitation, she acquired a thorough knowledge of her chosen profession. We congratulate her on the success which her venture has already met in this city, with bright prospects of more general patronage in the near future. Our young people would do well to embrace the opportunity now within their reach of acquiring knowledge in the art of public speaking, by attending classes where elocution and rhetoric are taught on the best and most approved principles. Miss MacMillan belongs to our island, and is the daughter of our highly respected citizen, the Honorable Angus MacMillan, Provincial Secretary and Commissioner of Public Lands of this Province.

The Result of the Cases.

There were only six of them, but they contained goods that were wanted very badly.

Four of them had the latest novelties in Autumn Straw and Felt Hats. Our first arrivals are so nearly sold out that there are particularly welcome. See our north window for further particulars.

The remaining two cases had Black Dress Silks, Dress Caps, Dress Goods, etc.

Have you seen our "drive" in Women's Woolen Yests?

Look for an interesting announcement tomorrow about Kid Glove, etc.

SPECIAL DESPATCHES TO THE EXAMINER INTERNATIONAL YACHT RACE

The "Vigilant" Again Ahead.

New York, Oct. 10.

The second race for the America Cup yesterday was easily won by the Vigilant. At the start the American was about five seconds ahead and a little to the windward, despite the seemingly great advantage of the Valkyrie enjoyed by having the weather-gauge of her antagonist. The British enter walked right through the American boat's lee and gained more than three lengths in the first ten minutes. By noon the wind had freshened considerably and the American boat accordingly began to hold her own. At 12:45 the Vigilant began to rapidly close the gap, and by one o'clock she not only passed the Valkyrie, but was leading by three-quarters of a mile. In the heat to windward from the start to the first mark, the Vigilant beat the Valkyrie 4 minutes 45 seconds. On this leg the wind was blowing at a rate of 12 miles an hour. The run to the second mark was without incident, except that the breeze continued to freshen and the Vigilant gradually increased her lead. There can be no doubt now in the minds of experts as to which is the better boat of the two. The British boat was beaten yesterday with every point in her own favor. In no condition of wind or sea can the Valkyrie be reckoned of the same class as the Vigilant. The Vigilant wins on the corrected time of 10 minutes 35 seconds. The Valkyrie was over two miles astern when the Vigilant finished.

The next race will be on Wednesday, and will be a heat to windward, 15 miles and return.

THE MEASUREMENTS OF THE TWO BOATS.

Following are the measurements of the two boats:

Table with columns: Measurements, Feet, Feet. Rows include: Low-water line, Boom end, Fore-deck of mast to jib stay, Fore-deck of mast to jib stay sail stay, Fore-deck of mast to fore-most point of measurement, Spinnaker boom, Deck to underside topmast, Deck to hounds, Length of topmast, Length of gaff, Rigging length by New York Yacht Club rule.

According to these figures the Vigilant must allow the Valkyrie 1 minute and 48 seconds. The allowance is based on the rule that any excess of load water line length over 85 feet shall be counted to double in calculating time allowance. Vigilant is 1.15 over 85 feet. Valkyrie is only .50 over the specified length.

Table with columns: Length on water line, Length from end of main boom to tip of bowsprit, End of club-topmast pole to water, Beam over all, Draught, Displacement, Sail spread.

Table with columns: Length on water line, Beam over all, Draught, Sail spread, Displacement, Sail spread. Rows include: VIGILANT, VALKYRIE.

Sir John Abbott's Critical Condition.

MONTREAL, Oct. 10. Ex-Premier Sir John Abbott has been very low for some time past. Today Dr. Roddick Brown and Girwood performed a surgical operation upon him, which proved successful in relieving him greatly. At midnight his son, John Abbott, reported that he is sleeping quietly.

"THERE'S MUSIC IN THE AIR."

Our musical entertainment on Saturday evening was well attended, and if pleasant remarks and the pleased expression visible on all countenances mean anything, we should say that all present enjoyed themselves. We have, in our store, music for the ear, handsome objects to please the eye, and plenty of food for the mind. You get the sights and music free, and your choice of the Mixed Food at very low prices. The music begins at dark this evening, and will be kept up until 9:30 p. m. We don't object to a crowd, but invite one and all to call this evening at 187 QUEEN SQUARE.

MOORE & McLEOD, Successors to Perkins & Sterns.

Charlottetown, September 23, 1893.—th sat

TO-DAY a Canal Convention assembles in the city of New York. The gathering has been called at the instance of the Chamber of Commerce, Board of Trade and Transportation, and the Mercantile and Produce Exchanges, and every commercial body in good standing has been invited to send five delegates. Its object is to emphasize the importance of the Erie Canal as a commercial highway.

Yes, we are sending delegates all over P. E. Island, clothed in the Star Tailor's Best, heralding (by the good satisfaction we are giving), that the Star Tailor stands alone as to perfect workmanship. Any person with one eye can detect at a glance the style, which you seldom see, something which you cannot define—that is art in the highest sense. You see, you get the privilege of wearing a rare work of art, at the same time securing it at a cost below the usual rates. Yes, our SUITINGS are good and cheap; and as for our OVERCOATINGS, they are plums; but wait till you see our PANTINGS, they are regular coconuts. Everyone says our FURNISHINGS are first-class, and considering the quality of goods, are first-class. Don't wait too long to have your order sent in. Fall is here and winter will soon be here. BE READY!

JOHN T. MCKENZIE.

Flour, Flour, Woolen Mills.

WHOLESALE AND RETAIL. We intend making FLOUR one of our leading lines, and with that end in view we will keep in stock a full supply of the different grades, which will sell FOR CASH as low, if not lower, than any other firm in the city.

THE MATCHLESS Brand, of which we have just received a Carload, has greatly improved the past two months, and is now much better than ever before. This is owing to the fact that the proprietors have re-fitted their Mill with the latest improved and best machinery at a cost of over \$20,000, and are using only the best No. 1 Wheat.

We have also just received a quantity of a lower grade of Flour which we are selling very cheap.

Every Barrel warranted to be as we say it is. Call and see our grades and give us a trial.
