EASTERN NOTES.
The scarcity of snow has retarded somewhat the usual farm work at this season. There is an abundance of pitches and slurs on the different roads leading to the village, and an ordinary wayfarer, especially if he had imbibed a "drop of the erator," which can be obtained in a Scott Act town like that of Souris, we feel sure that he would, on his return trip, imagine himself in the "trough of the sea."
The swine industry has received a new impetus since Mr. McDonald, the "veteran" chief of Heronville, has placed at the disposal of farmers in his vicinity and elsewhere an opportunity to obtain the best stock in the Province. Appearances would seem to indicate that the pig butcher is the coming man, however this may be. It is to be hoped that some public-spirited farmers east will do likewise with regard to sheep and poultry.
Mr. Neil McPhee, of Boston, is visiting his parents at Big Pond. Mr. McPhee is collector for an extensive firm of coal-dealers in that city.
At the weekly meeting of the Souris Live Stock Debating Society on the 12th inst. dairying vs sheep, swine and poultry, was discussed. Mr. J. A. McDonald, who was present by request, addressed the society at length on the management and care of farm animals, giving details with regard to feeding, etc. The address was very interesting and practical, and was fully appreciated as evinced by the vote of thanks tendered him at the close.
A Basket Social was held at St. Margaret's on the evening of the 12th inst., which was very successful. Upwards of \$40 were netted.
The North Side Farmers' Club have not yet opened the winter campaign, owing to the want of a hall. This institution has done much during the last three seasons to disseminate improved methods in agricultural culture, and those relating to dairying have been discussed by the members of this tribunal, for
"Turn them to any cause of policy,
The Gordian knot of it they would untie
Familiar as their garter."
Some wise men from the east, or byers, rather, were roughly handled at a tavern in the village recently—not so bad but that they may "fight another day." In view of this and other facts, we trust the Scott Act proscriber will direct the most serious and earnest attention in that direction.
There is much sickness prevalent throughout the country. Our most popular and successful physician, Dr. McLean, is taxed to the utmost attending to his numerous patients.
The numerous debating societies east are developing a lot of talent, and it seems a pity that so much eloquence is being "wasted on the desert air." If by some magic it could be turned into a little money, or even snow, what a treat it would be to the farmers round about.
