Gov't Decides To
Prosecute Alleged
Fine-Paper Combine

OTTAWA, (CP)—The govern-
ment will prosecute fine paper
manufacturing and merchandising
companies on charge of operating
an illegal price-fixing combine in
the \$80,000,000 industry, Justice
Minister Garson told the Commons
Tuesday.
Combines Commissioner T. D.
MacDonald reported to the gov-
ernment Nov. 6 after four years
of investigation that seven fine
paper mills and 37 merchant com-
panies, virtually the entire Cana-
dian fine paper industry, were en-
gaged in an illegal combine.
Exactly which of the 44 com-
panies will be prosecuted has not
yet been determined, the minister
said. Question of whether to launch
prosecutions had been under study
for the last few months by Nor-
man L. Mathews of Toronto.
Mr. Garson said Mr. Mathews
had found that evidence supplied
by the combines commissioner jus-
tified prosecution of "some or all
of the manufacturers and some or
all of the merchants." Mr. Math-
ews had been instructed to pro-
ceed with the prosecutions.
Companies involved are those
which produce or sell paper used
in publishing books, magazines,
writing paper and envelopes, but
not newspaper.

Easter Meeting Of
Board Of Governors
Teachers' Federation

At their annual Easter meeting
on Monday in Prince of Wales Col-
lege, the Board of Governors of the
Teachers' Federation made further
arrangements for the setting up of
a Teachers' Aid. A special com-
mittee, headed by J. R. Murphy of
Summerside, will continue to work
in conjunction with the Federation
executive in finalizing the plans.
By means of this Aid, teachers'
subject problems will be solved and
in addition, professional helps will
be distributed from Federation of-
fice.
Mr. J. R. Murphy reported on be-
half of the Salary and Sick Leave
Committee. He commended the
Government for the salary in-
crease to teachers. It was hoped
that all teachers would get the
full \$150 increase. However, only
teachers whose district supplement
is voted high enough get full in-
crease benefits. Following Mr.
Murphy's report, the Board dis-
cussed tentative plans for future
procedure.
Miss Mabel Matheson and Mr.
Davis Lidstone, pension commis-
sioners, dealt with the matter of
pensions. They commended the
Government for the beneficial
change made in the act, but feel
that in order to make the scheme
more actually sound, the Govern-
ment should be paying into the
fund, as had been done earlier
when the plan was set up.
Reporting on the work of the
Advisory Council of Education for
the province, Councillor Daniel
Macdonald, representing the Fed-
eration, explained the changes in
the arrangements for grades XI
and XII for the coming year.
The Federation's national direc-
tor, Miss Mabel O'Brien, gave an
extensive report of the recent
meeting of the national directorate
in Ottawa. Miss O'Brien dealt with
such matters as: Aid to Greek
Children; Income Tax, Induction
Ceremony for Teachers, Superan-
nuation; Audio-Visual Education,
Protective Aspects of the C. T. F.,
International Relations; C.E.A.,
Kellogg Project, and Federal Aid.
Regarding the matter of Aid to
Greek Children, Miss O'Brien im-
ported the meeting that the teachers
of Canada, under the leadership
of the C.T.F., had donated
upwards of \$7000, with which
were bought 10,436 especially ord-
ered large workbooks, scribbles
and over 86,000 pencils.
The Canadian Department of
External Affairs and the Unitarian
Service Committee of Canada are
co-operating in the distribution.
The balance of \$5,000 has been
set over to the latter Service
for a further proper gift to these
distrainingly needy children. In
expanding services to the nation
the C.T.F. will at an early date set
up its own national headquarters,
recently purchased in a suitable
location in Ottawa. In this build-
ing will be the new Federation
Education Research Department.
Present at the provincial Board
meeting was Mr. J. G. Dennis, who
explained the possibilities of set-
ting up, as a further service to
teachers, of a provincial teachers'
credit union group.
In her report of the work done
by the Education Week Committee
for the province, Miss Madeilyn
Clark outlined the plans that had
been carried out. She expressed
sincere thanks and appreciation to
Mr. George Walters, who so kind-
ly made available the free use of
the Prince Edward Theatre for the
showing of the film, Mandy; to
Mr. E. D. Reid, who so generously
at his own expense had the invita-
tions printed and distributed; and
to the J. Arthur Rank Corporation
for their gracious donation of the
free film.
Concluding the meeting, Miss
Mabel Auld explained plans for
the pending East convention of
teachers.

Rubber Companies Also

The Government is scheduled to
launch prosecutions at Toronto to-
day against 19 rubber companies
for allegedly running a combine.
It also has under consideration a
report alleging existence of a com-
bine in the coarse paper industry.
The combines commissioner con-
tended in his report that the fine
paper companies, spread from
Halifax to Vancouver, used "loyal-
ty" discounts and other means
to restrict competition and com-
bine in one or more groups to
maintain prices at fixed levels
"deleterious to the public interest."

He suggested that tariffs on im-
ported fine paper products be cut
as one way to inject new competi-
tion into the industry, which al-
legedly had operated a combine
for the last 17 years.

Companies Alleged Involved

Companies alleged to have been
involved in the combine include:
Mills:
Canada Paper Co., Montreal;
The E. B. Eddy Co., Hull, Que.;
Howard Smith Paper Mills Ltd.,
Montreal; Rolland Paper Co. Ltd.,
Montreal.
Merchants:
Barber-Ellis of Montreal, Ltd.;
Barber-Ellis Maritime Ltd., Hal-
ifax; W. V. Dawson Ltd., Montreal;
Federal Paper Co. Ltd., Montreal;
T. Havill Paper Co., Montreal;
Kruger Paper Co. Ltd., Montreal;

McParlane Son and Hodgson Ltd.,
Montreal; La Compagnie J. B. Rol-
land et Fils, Montreal;

John, N. B.; L.-P. Turgeon et Fils,

Declares Canada's
Current Expansion
On Sound Basis

NEW YORK, (CP)—The Cana-
dian trade minister, C. D. How-
told a Town Hall audience Tuesday
that Canada's current expansion is
founded on a solid basis.
"I often see references to what
is called the 'Canadian boom' but
said in an address prepared for
the big New York forum of busi-
ness and industrial executives. "If
this phrase implies that Canada is
expanding and prosperous, the
description is accurate enough.
"Sometimes, however, the word
'boom' suggests a temporary and
artificial prosperity, accompanied
by inflation and excessive specu-
lation, and ending inevitably in a
'bust.' In that sense there is no
Canadian boom and anyone who
goes to Canada looking for one will
be disappointed."

ister, who has been a citizen of

Husband Given
Death Sentence
For Wife Murder

BALTIMORE, (AP)—George
Edward Grammer, who killed his
wife so he could marry a new
love, Tuesday was sentenced to be
hanged.

The judge said he might have
gone unpunished had it not been
for some excellent police work.
Grammer had tried to make it look
like his wife died in an automobile
wreck.

Judge Herman M. Moser im-
posed the death penalty. He said
he could find no excuse for such
"a cunning scheme . . . a dastardly
plan . . . an atrocious, despicable
killing."

The case will go to the state
Court of Appeals at Annapolis.
Death sentences also go to the
governor, Theodore Roosevelt Mc-
Keidlin has reduced all death sen-
tences to come before him since he
became governor early in 1951.

Judge Moser convicted Gram-
mer of first-degree murder last
October. Sentencing was delayed
until Friday by Grammer's plea
for a new trial, which he lost.

After hearing the evidence as
both judge and jury, at Gram-
mer's request, the judge said he
was convinced the accused had
killed his wife deliberately so he
would be free to marry Miss
Mathilda Mizbrocky, 28-year-old
United Nations stenographer from
Hamilton, Ont.

They had met in a New York
bowling alley last spring. Mrs.
Grammer, 33-year-old former nurse
was in Baltimore caring for her
dying father. Grammer, 36, who
also grew up here, visited his wife
and three daughters some week-
ends.

Both countries emphasized three
main points in his talk on Cana-
da's economic future:
"That our development is well
founded, that our resources are
great and growing, and that we
look hopefully to co-operation with
other countries to solve the prob-
lems that we can see ahead."

He also expressed puzzlement
over the "apparent unwillingness"
of the United States government
to extend "the small degree of co-
operation required" to enable Cana-
da to proceed with the St. Law-
rence seaway project.

Lowest spot in the United States,
Death Valley in California, is 280
feet below sea level.
