

FINANCIAL AID COLUMN

Hi, my name is Nancy Comeau. I am a junior at U.P.E.I. and I am working as Student Financial Aid Assistant in Student Services. I'd like to welcome the freshmen to our campus along with those who might be attending from out of province. To those who are returning, I'm sure you'd agree that it's good to see alot of familiar faces and meet with friends you haven't seen for four months.

My job is to help graduate and undergraduate students obtain scholarships and bursaries so they can continue their education.

There is money available, and I strongly encourage students to take advantage of it. Please come in early because there are approaching deadlines on certain awards.

My hours are:

Monday 9:00 a.m. - 12:30 p.m.
and 1:00 p.m. - 2:30 p.m.
Wednesday

If you need financial aid and are unable to come in during these hours, call and we can arrange an appointment to suit your schedule.

Remember to check the Financial Aid Bulletin Board outside of Student Services for scholarships and bursaries available.

Listed are a few awards of interest.

P.E.I. Council of Women's Bursary

The P.E.I. Council of Women is offering a bursary at U.P.E.I. This award will be made annually on the recommendation of the Scholarship Committee in consultation with the Dean of Women to a mature female, full-time student in any year.

An accounting system has not yet been devised that will accumulate and classify cost and revenue information in all the different ways that will be useful to the decision maker. Different costs are needed for different purposes because a wide variety of relationships exist between costs incurred and results obtained in terms of revenues. The results obtained in terms of revenues are most frequently expressed in terms of products or services. It is the breakdown of costs as generated from the sales of different products or services, not aggregate totals, which serves as a basis for decisions. Information about net revenues, not aggregate totals, which serves as a basis for decisions. Information about net revenues, not aggregate totals, which serves as a basis for decisions. Information about net revenues, not aggregate totals, which serves as a basis for decisions.
