MINCE PIES IN MURDER PLOT

BELFAST, (AP) —Police exposed Wednesday a plot to murder Sir Richard Pim, police chief of Northern Ireland, with a batch of poisoned mince pies.

Police analysts reported that the pies, gaily wrapped in Christmas paper and tied with a red ribbon, were heavily spiked with cyanide.

Police said they came through the mail but did not disclose when or where they were posted.

Pim, 54, is the leading figure in Northern Ireland's running battle with the outlawed Irish Republican Army, which seeks to unite the six counties of Northern Ireland with the southern Irish Republic.

Montreal Stocks

MONTREAL (CP) — The abbreviated pre - Christmas session on the Montreal and Canadian stock exchanges closed on a mixed tone in the industrial list while mines were actively traded and edged to the plus side. There was comparatively little activity in western oils.

Miscellaneous industrials and utilities traded in a narrow range with little variations either way, but base metals were slightly firmer and the pulp and paper group slid off fractions.

Ford and Asbestos moved up a point each, while Power Corporation, Bathurst A and several others moved up fractionally as much as three quarters of a point.

The mining group traded more than 100,000 shares, Bouzan leading with a gain of 7 cents. Merrill Island reached a new high of $3.10 and closed at that figure. Goldfields was down 65 cents in light trading.

Toronto: Industrials mixed; mines higher.

New York: Stocks higher; quiet pre-holiday trading.

Montreal: Industrials narrowly mixed; mines strong.

N. Y. Stocks

NEW YORK (AP) — The stock market was dull and quiet Friday on the eve of a three-day recess for Christmas.

The market started higher and held a good position until late in the day when accumulated profit-taking depressed prices well below their best.

Lower were the aircrafts and railroads, the latter group falling victim to selling shortly before the final bell. Others were steady to higher.

The Associated Press average of 60 stocks was up 10 cents at $179.70.

General Motors was at the head of the most active list up ⅜ at 47½ on 31,600 shares.

Canadian issues were quietly mixed. Dome Mines gained ⅛ and Distillers Seagram gained ¼ while Canadian Pacific eased ⅛. McIntyre and Hiram Walker were unchanged.

Toronto Stocks

TORONTO (CP) — Mines won favor Friday as the Toronto stock market wound up for the Christmas break. Fractional advances in higher-priced issues moved western oils a little higher.

Gaspe Copper jumped $4 to $5 in the mines section. Chibougamau arrea issues were in renewed demand after a slow-up Thursday but Campbell Chibougamau eased ⅛. New Royran, Merrill Island and New Alger advanced pennies. Temagami climbed 26 cents to a high of $2.75.

Uraniums were mixed. Consolidated Denison chalked up a 50-cent gain. Hollinger continued strong in golds, firming a fraction. Bralorne was off 25 cents.

Calgary and Edmonton, Canadian Collieries and Home Oil A and B advanced up to half a point among western oils. Losses ranged to about 20 cents.

World Shipping Reaches Record Despite U.S. Drop

LONDON (Reuters)—The world's merchant shipping tonnage this year passed 100,000,000 for the first time, despite a 991,000-ton drop in the United States.

Lloyd's Register of Shipping today reported the world total as of July at 100,569,000, a rise of 3,147,000 in a year.

The U.S., by including a reserve fleet of 14,000,000 tons, has the greatest tonnage of any country—26,423,000.

A spectacular increase in Liberian tonnage and substantial rises reported from Norway, Germany and Britain more than offset the big drop in the United States and smaller falls in Canada, Panama and Argentina.

Second to the United States in total merchant shipping tonnage is Britain with 19,357,000 tons, a rise of 342,000 tons since 1954. Norway took third place with 7,279,000 tons, an increase of 444,000 tons.

Liberia, whose entire merchant fleet is post-war, vaulted to fourth place with a tonnage of 3,997,000. This includes an increase of 1,616,000 tons in one year.

Panama which dropped 166,000 to 3,923,000 was fifth. Canadian tonnage was down 89,000 to 1,521,000 and Argentina dropped 14,000 to 1,043,000.

Other countries in order of tonnage, with increases bracketed:

France 3,922,00 (82,000); Italy 3,811,000 (112,000); Japan 3,735,000 (157,000); The Netherlands 3,696,- (16,000); West Germany 2,653,000 (426,000); Russia 2,506,000 (135,000).

Lloyds said the world tanker fleet has grown by 1,831,000 tons in the last year, and now is 26,455,000, compared with 11,366,000 in 1939.

Britain maintained her lead in tanker tonnage with 5,261,000, including an increase of 306,000 this year. The United States, despite a drop since 1954 of 374,000, retained second place with 4,321,000.

Base Metals Boom In N. B., Many New Plants

FREDERICTON (CP) — Base metals, little more than a name in New Brunswick before early 1953, placed the province more firmly on Canada's mining map during 1955.

The provincial government estimates the three-year-old industry spent $10,00,000 in exploration and construction work this year.

A government review quoted Mr. J. Boylen, head of Brunswick Mining and Smelting Corporation and other companies, as saying the Bathurst district is assured of a $125,000,000 milling plant, including a lead smelter, within a few years. Boylen interests sparked the mining development after discoveries of lead, zinc, copper and silver deposits near Bathurst late in 1952.

J.C. Udd, president of strategic metals, also has predicted the province will have an integrated metallurgical and chemical industry.

He reported discovery of 200,000,000 tons of managanese in six ore deposits between Woodstock and the Maine border—enough to supply United States requirements for 25 years. Mr. Udd announced plans to build a productionn plant at Woodstock employinng about 500 men if 100,000 kilowatts of power became available within five years.

Other developments this year included initial shipments of concentrates from the Keymet base metal operation of Anacon lead mines north of Bathurst and from the Burnt Hill wolframite tungsten mine in York county.

SINK LEAD SHAFT

A subsidiary of American Metals Corporation has sunk a 450-foot shaft in a lead-zinc-copper-silver area at Little River, 32 miles from Newcastle, and is preparing to build a mill.

Brunswick Mining annd Smelting has erected a $350,000 pilot mill to test ore from its Brunswick and Anacon properties, where the government review said $8,000,000 tons of lead, zinc, copper and silver ore have been proven. The newest shaft in that area will go down 2,000 feet. Pending erection of a 4,000-ton concentrator, concentrates from the pilot mill will be stockpiled or shipped outside the province for refining.

The Brunswick corporation has spent $8,500,000 on its operations and employs 117 with a monthly payroll of about $36,000.

Completion of a shaft at New Larder U, another Anacon lead mines property, is expected within a few months. The progress at this site calls for expenditure of $2,250,000 and construction of a large mill.

Exploration and development work by other companies also continues in northern, western and central New Brunswick.
