

Islanders Continue To Win Prizes At Amherst Fair

AMHERST, N. S. (Special) — Norma Marie Pontiac took two first place ribbons and the reserve senior and reserve grand championship at the Maritime Winter Fair Friday for Colby C. Lewis and son of Freetown, P.E.I. in the Holstein breed. She topped a big class of aged cows in milk and then the ten-year-old cow came back to top the ROP production class. This class calls for cows that have three production records with at least twenty five percent over the ROP requirements. Norma was the grand champion at Charlottetown earlier this year. She put up a good battle for the championship honors Friday but Judge W. A. Baker of Exeter, N. S. selected the grand champion the top cow in the aged class in milk. She was Keneval Mary Lee shown by Courtney B. Lusby of Amherst. This younger cow, she is six years old, stood a bit better on her legs, the judge stated. She was also the grand champion Holstein cow at the show.

Colby C. Lewis and Son also had pretty good success in the regular classes. They had four first ribbons, several seconds, three thirds, four fourths and several other good placings. In the groups their winnings included a couple of thirds and a sixth.

P. E. I. Oysters On Luncheon Menu At Ottawa

OTTAWA (CP) — Ottawa's civic luncheon Nov. 16 for visiting Queen Mother Elizabeth will be "a gourmet's luncheon of products from each of the 10 provinces." Mayor Charlotte Whitton said Friday.

Coming Events

- Pantry Sale Simpsons—Sears today, November 6th, Kingston W. I.
- Rummage Sale, Saturday, November 6th, 2 p. m. Hearts Hall.
- Dance Bear River South school Monday night, Nov. 8.
- Dance, Vernon River Hall, November 9th.
- Hampton Hall, Hot Turkey Supper, November 11th.
- Your Saturday night Jamboree, Morell, Tuesday, November 9th.
- Reserve Nov. 24th and 25th for Notre Dame Bazaar.
- Hot roast beef dinner, St. Peter's Bay Hall, November 10th.
- Regular Saturday night Dance in St. Peter's Bay Hall, Saturday night, Don Messers Orchestra.
- Chicken Supper, St. Columbus Parish Hall, Wednesday, November 10th.
- Tryon United Chicken Supper and Bazaar, Wednesday, November 10th, Community Hall.
- Corran Ban Hot Chicken Supper and Dance, Thursday, November 11th.
- Southport Home and School Meeting, Tuesday, November 9th, 8 p. m.
- Robert Vickerson will be hauling cream to Wiltshire Factory on Thursdays only.
- Tea, Bazaar, Breadalbane United Church Schoolroom, November 10th, 3 p. m.
- Showing tonight at Mt. Stewart, "Golden Girl" a technicolor musical drama.
- Reserve November 27th for Pantry Sale at Holman's Hampshire W. M. S.
- Dance, West Royalty Hall, Wednesday, Rollie MacKenzie's Orchestra, Canteen Service, 9:30 to 12:30 Standard Time.
- Raynor's Chick Hatchery, Mt. Herbert now operating. White Leghorn and Leghorn x Barred Rock cross available in December.
- Make a date to attend the variety concert, including singing and dancing and old time musical entertainment in Vernon River hall, Tuesday, Nov. 9, 8:30.
- Regular Dance, Stanley Bridge Rink Hall every Tuesday night. Music, Rollie MacKenzie's Orchestra.
- Midnight Dance at the Rollaway, Wednesday, November 10th. Music by The Downtowns. Dancing 11:00 to 2:00.
- Handling complete line of Shur-Gain Feeds, also Custom Grinding and mixing daily. Shur-Gain Feed Service, St. Peters.
- Sandy's Marshfield still catering to weddings, banquets, and social gatherings at reasonable prices. Dial 7412.
- Hot Turkey Dinner, Argyle Shore Hall, Wednesday, November 10th, starting at 5 p. m. Argyle W. I.
- The Annual Meeting of the Crapaud Rink Co., will be held in Crapaud Hall November 11th, at 8 p. m.
- Dance to the music of Don Messer's Orchestra in Mt. Stewart Memorial Hall Armistice night, Nov. 11. Proceeds in aid of New Legion Home.
- Buying pigs Monday at Fredericton, Tuesday, Brookfield 9 a. m., Milton 10, York 1 p. m., Bedford 2, Tracadie 2:30, Mt. Stewart 3, Pisiquid 3:30, Fort Augustus 4, Waterville 4:30, Vernon River 5, Pownal 5:30, Wednesday, New Glasgow 9 a. m., Wheatley River 10, Holmes Corner 11, New Haven 1 p. m., Bonshaw 1:30, DeSable 2, KKelly's Cross 3, Emerald 4, Clifton 5, Kensington 5:30. Paying \$24.00 a pair for young pigs over 35 lbs. each. Will also buy smaller ones. Knud Jorgensen, Fredericton.

U.S. Reveals Details Of Plan To Push Atoms-For-Peace Program

(By William Harcourt, Canadian Press Staff Writer)
UNITED NATIONS, N. Y., (CP)—The United States Friday presented to the United Nations a detailed plan to put into operation President Eisenhower's atoms-for-peace proposal.

At the same time, Britain and Canada announced their whole-hearted endorsement of the U. S. proposals. U. S. delegate Henry Cabot Lodge told the assembly's political committee the plan proposes:

1. Sharing atomic materials and information through bilateral agreements;
2. A 1955 conference of atomic scientists;
3. Formation of an international atomic energy agency linked with the U. N.

Britain's Sir Pierson Dixon and Paul Martin of Canada joined Lodge in expressing the hope that Russia will co-operate.

Lodge said the U. S. now was "prepared to start discussions with other countries for the conclusion of bilateral agreements" to supply them with atomic information, technical aid and fissionable materials for building \$500,000 atomic research stations.

He said the U. S.—with other unspecified countries—will sponsor a resolution to put the UN into "international co-operation in developing the use of the atom for peace" as quickly as possible. At a meeting late Friday seven UN members controlling atomic piles or uranium were reported to have reached agreement on such a resolution and it probably will be circulated during the weekend. The countries are Canada, Britain, the U. S., Australia, Belgium, France and Portugal.

DOOR WIDE OPEN

Dixon said the U. S. plan "is intended to establish a small area of collaboration in the hope and expectation that collaboration will grow."

"Clearly this objective will not be fully achieved with participation of the U. S. S. R. Her Majesty's government sincerely hope that the Soviet government will decide to join in this endeavor."

Martin said that statements by Lodge and Dixon could have left "no doubt that the door is still wide open for the Soviet Union to participate in the agency."

Eisenhower first advanced the plan in a speech before the General Assembly last December. Subsequent bilateral negotiations with Russia to enlist her support were fruitless.

Meanwhile, the U. S. negotiated with Canada, Britain, France, South Africa, Australia, Belgium and Portugal and arrived at the decision to set up the scheme with or without Soviet participation.

Eisenhower originally envisaged the international agency as an international pool of atomic materials but, Lodge said, the consulting countries had decided it might be better to "set up a clearing house for requests made to the agency by the various beneficiaries."

Architect's Sketch Of New Guardian Building

Shown above is the architect's sketch of the new Guardian Building, the site of which is now being cleared on Prince Street. Work on the foundation will be started as soon as possible and the building should be ready for occupancy by midsummer of 1955.

The building will have a total floor area of approximately 17,900 square feet and will consist of two storeys built in such a manner that a third storey may be added at a later date. The actual building will have approximately 100 feet frontage and will extend 84 feet in depth. The total frontage of the lot is 120 feet.

The modern design of the building will greatly facilitate newspaper operations and will provide ample space for all departments. Editorial offices will occupy 1,850 square feet, advertising department 1,100 square feet, business office 1,500 square feet, composing room 3,000 square feet, pressroom 3,000 square feet. The balance of the space will include a public area, private offices, rest rooms, etc.

The Guardian will continue to be published from the present plant until the new building is ready for occupancy.

Queen Mother Meets Press At White House Dinner

By LLOYD McDONALD
WASHINGTON Press Staff Writer

WASHINGTON (CP) — Queen Mother Elizabeth met the press Friday—and had an outstanding invitation for Princess Margaret to visit the United States.

"Won't you please use your influence—and I know you have occasionally used your influence—and have Princess Margaret visit us," Elizabeth said to Miss Carpenter, president of the Women's National Press Club in a welcoming address.

The Queen Mother laughed gaily, especially during the reference to influence. Royal tour officials had no comment on the invitation. The princess, however, is planning a winter cruise to the British West Indies, only a short air jump from the U. S.

Miss Carpenter pointed out that the U. S. had already been host to the Queen, then Princess Elizabeth, and the Duke of Edinburgh, as well as having welcomed the Queen Mother and the late King George VI in 1939. But the Queen Mother's vivacious younger daughter had yet to visit these shores.

PRESS RECEPTION

The occasion for the invitation was the Queen Mother's reception for some 750 newspapermen and women, held in the ornate presidential room of the Hotel Statler on the first full day of her visit to Washington. In a brief speech, she paid tribute to the North American press, saying "certainly no country has developed the technical machinery of the press—including communications, radio, television and the news—of greater perfection than have you."

The Queen Mother then spent more than an hour shaking hands and chatting with the guests before "Thankspurple."

"Hugh Spinney Show and Dance, Crapaud Hall, November 17th. Sponsored by North Tryon Women's Institute. Admission 50c and 40c.

"Cleaning and Buying Timothy and Clover Seed at Charlottetown, Summerside. Contact us for prices. P. L. Morris, Kinkora, Summerside and Charlottetown.

"Come to the old time fiddling, step dancing and singing contest in Kinkora Hall, Monday, November 8th. Send entries at once to Mr. Sebinus Johnston, Kinkora, or Phone 9001. Good cash prizes.

"W. M. S. Stanley Bridge United Church will hold thankoffering service Sunday, Nov. 7, at 7:30 p. m. Miss Elma Inman will be guest speaker and Mr. Eric MacGregor, soloist.

"Special meeting of egg and poultry producers, sponsored by egg grading station operators, will be held in Bloomfield Station Hall Tuesday, Nov. 8 at 8 p. m. Films, demonstrations, special speakers will be in attendance.

"Special meeting of egg and poultry producers, sponsored by egg grading station operators, will be held at the Armouries Montague Monday, Nov. 8 at 8 p. m. Films, demonstrations, special speakers will be in attendance.

Queen Mother Meets Press At White House Dinner

The reception was the only scheduled play with most papers carrying front-page stories and big picture spreads. The women writers of the capital pulled out all the stops for the royal visitor.

TOURS BUILDINGS

Friday morning she toured the Smithsonian Institution and the National Gallery of Art, then returned to the White House for luncheon. She will remain there as guest of the president and Mrs. Eisenhower until today, when she moves to the British embassy.

The Queen Mother's arrival in the capital vied for attention in Washington newspapers with post-election play, with most papers carrying front-page stories and big picture spreads. The women writers of the capital pulled out all the stops for the royal visitor.

AT GOLDEN DINNER

Thousands of words in the Washington women's pages Friday were given over to description of the East room of the White House as it was set up for Thursday night's state dinner. The room was hung with ceiling-high draperies and banked with golden chrysanthemums. Adding to the decor was a gold-trimmed piano.

The gold motif extended to the tables, where the 64 guests sat down to gold services—right down to the salt cellars.

The Queen Mother's gown of white tulle with full lace crinoline skirt got the full descriptive treatment, too, and one woman columnist rounded out the color coverage by describing the Queen's eyes as "hazkarpurple."

All around, the Queen Mother appeared to have started out her Washington visit the way she swept New York—by captivating just about everybody.

CIVIL DEFENCE ORGANIZATION TO ASSIST

London To Battle Smog
By FERN RICH
LONDON (Reuters) — London's civil defence organization, formed to protect the metropolis in time of war, joins the battle against a peacetime killer—smog today.

For the first time, civil defence workers will help scientists gather smog samples from the most densely populated in the crowded city and warn citizens when the need arises.

First, the men must attend courses at a research station to learn how to use instruments for measuring atmospheric pollution. The first batch of 100 workers will start their studies at the Greenwich research station Friday and other groups will follow.

When the civil defence volunteer army is fully trained, it will be sent into action by the air ministry's meteorological office. Workers will go to the roofs of the House of Commons, St. Paul's cathedral, Westminster Abbey and other specially assigned points for smog-

"Heat" For U. K. Gov't Workers

LONDON (Reuters) — Sir Winston Churchill's government is turning on the heat for its thousands of government employees in Whitehall offices.

A treasury circular announced Friday that the maximum heat permitted in government offices will be raised for the winter to 65 degrees from 60.

An accompanying warning that temperatures of more than 65 degrees will not be tolerated.

Scientists Speculate Warmer Weather May Be Melting Arctic Ice Shelf

OTTAWA (CP)—Warmer weather in Canada's Arctic may be causing the disintegration of a 500-square-mile shelf of ice off Ellesmere island, some 2,500 miles north of Ottawa.

Geoffrey Hattersley-Smith, a defence research scientist, said Friday this possibility is being investigated following a study of the shelf this summer by a Canada-United States expedition.

"There is some evidence that warmer weather is causing the shelf to break up but we are not certain at this time," he told a press conference.

Mr. Hattersley-Smith, Robert L. Christie of the geological survey of Canada and two American scientists studied the ice shelf during a four-month exploration to Ellesmere island. He said the studies may determine the origin of the shelf which is 400 miles in length and 10 miles in width and the reason why it is breaking up.

The ice shelf is located off the northern coast of Ellesmere island and is 160 feet thick in some places. The shelf floats at high tide but does not drift away from the island into the Arctic ocean because it is held in place by variations in the coast line and a number of small islands it covers.

Mr. Hattersley-Smith said during the last 40 or 50 years large pieces of ice have broken away from the shelf and drifted into the Arctic ocean. One ice island was used until recently by the United States for weather observations.

The scientists took cores of ice from the shelf and shipped them to a U. S. Army cold weather laboratory at Chicago for study.

Mr. Hattersley-Smith said preliminary investigations showed several thousands years old. He did not think its age could be measured in tens of thousands of years.

Canadians Smoke More Cigars, Cigarettes

OTTAWA, (CP) — Canadians puffed on more cigarettes and cigars during the first nine months of this year than in the similar 1953 period.

The bureau of statistics reported Friday that 16,319,835,000 cigarettes were placed on sale this year compared with 15,573,898,000 last year. The cigar total rose to 178,356,000 from 164,153,000.

Less cut, plug and raw leaf tobacco but more snuff was placed on sale. Totals, with 1953 figures in brackets: Cut tobacco, 18,336,000 pounds (20,383,000); plug tobacco, 1,103,000 pounds (1,311,000); raw leaf tobacco, 839,000 pounds (881,000); snuff 628,000 pounds (620,000).

Britain Shedding Liberty Controls

LONDON (Reuters)—Britain is gradually shedding controls of civil liberty that were imposed as emergency measures in the Second World War, a government document showed Friday.

The document disclosed that by Dec. 10 a total of 28 restrictive regulations will have been scrapped in the last 12 months.

They relate to matters ranging from authority for aliens to act as ships to the right of entry and search of premises to obtain evidence of offences, and the government's power to give directions to local authorities.

Canada's Wheat Crop Reported Cut To Lowest Level In Eleven Years

OTTAWA (CP) — Losses from bad weather and other harvesting hazards has cut Canada's wheat crop to 298,913,000 bushels, the lowest since 1943, the bureau of statistics estimated Friday.

The wheat crop estimate, cut for the third time this season, is the lowest since Canada produced 294,000,000 bushels in 1943. It compares with the 40-year low of 180,000,000 bushels in 1937 and the all-time high of 688,000,000 in 1952.

The average crop in the last 10 years has been 456,000,000 bushels.

Airliner Lands Safely With Faulty Nose Wheel

WASHINGTON (AP) — After circling nervously for two hours and 11 minutes, an American Airlines plane with a crippled nose wheel landed safely at National Airport Friday.

The airline said none of the 13 passengers or three crew members was injured, and damage to the big twin-engine Convair plane was "very slight."

"Thousands of onlookers—waiting passengers and airport employees—watched as pilot W. C. Wilkerson touched the runway at about 100 miles per hour with his two main wheels, which were working properly.

The plane raced down the runway and slowly settled on its damaged nose wheel, which folded under the burden. The aluminum nose bumped into the concrete and the plane halted almost immediately, its tail sticking awkwardly high in the air.

A big cheer broke the hush which had settled over the field. Passengers slid down an emergency canvas chute to the ground.

The plane, with 40-passenger capacity, was on a flight from New York to Fort Worth, Texas. It took off from Washington at 9:09 a. m. EST.

Flashing lights in the cockpit immediately told Wilkerson the nose wheel was out of order. It was left dangling at an angle back of its normal position, instead of pulling up into its housing under the nose.

Wilkerson circled above broken clouds at about 5,000 feet, to burn up 495 gallons of gas, lightening his load and lessening the danger of fire.

State trooper Richard Wentworth identified the boy as Gaetan Couillard, 2½, of St. Leonard's, N.B. Wentworth said the boy's father, Albert, 34, was in serious condition at an Edmundston, N.B., hospital. Albert's brother, Irene, 46, was reported in good condition.

The heavy bulldozer fell off the trailer as it rounded a curve on a bridge. The pickup was headed in the opposite direction. Wentworth said he hadn't determined what caused the accident.

ANDOVER, N. B. (CP)—Frederick Hanson, 54, was convicted of manslaughter in the Victoria circuit court Friday night. He had been charged with murdering his 73-year-old brother, Walter, and the jury found him guilty on the lesser count.

Walter Hanson died of a bullet wound at his Andover home July 8. His wife, 52, was beaten unconscious. Frederick had been working for her husband and living at the same house.

Boy Killed When Bulldozer Rolls Off Big Trailer

VAN BUREN, Me. (AP)— A bulldozer, rolling off a flat-bed trailer, crushed a passing pickup truck here Friday. A small boy riding in the pickup was killed and his father and uncle injured.

State trooper Richard Wentworth identified the boy as Gaetan Couillard, 2½, of St. Leonard's, N.B. Wentworth said the boy's father, Albert, 34, was in serious condition at an Edmundston, N.B., hospital. Albert's brother, Irene, 46, was reported in good condition.

The heavy bulldozer fell off the trailer as it rounded a curve on a bridge. The pickup was headed in the opposite direction. Wentworth said he hadn't determined what caused the accident.

N. B. Man Convicted of Manslaughter

ANDOVER, N. B. (CP)—Frederick Hanson, 54, was convicted of manslaughter in the Victoria circuit court Friday night. He had been charged with murdering his 73-year-old brother, Walter, and the jury found him guilty on the lesser count.

Walter Hanson died of a bullet wound at his Andover home July 8. His wife, 52, was beaten unconscious. Frederick had been working for her husband and living at the same house.

Regional forecasts: Prince Edward Island, lower half of eastern N. B. counties: Cloudy with a few red showers; Little change in temperature; High winds. Low-high at Charlottetown 40 and 45, Fredericton, Saint John and Moncton 38 and 43.

Outlook for Sunday: Showers. Northern half of eastern N. B. counties, upper St. John river valley, Bay of Chaleur: Variable cloudiness with little change in temperature; light winds. Low-high at Chatham, Edmundston and Campbellton 32 and 40.

Outlook for Sunday: Showers. High tide today at Charlottetown at 5:42 a. m. and 6:44 p. m. Summerside tide eighteen minutes later than Charlottetown. Sun rises today at 6:58 a. m. and sets at 4:55 p. m.

"OLD FRIENDS" MEET

NEW YORK (AP)—Gen. Douglas MacArthur and Japanese Prime Minister Shigeru Yoshida—"two old friends"—got together Friday in the general's Waldorf-Astoria hotel suite for a private chat. Photographers were admitted briefly to the suite, decorated with oriental paintings and art objects.

Wilkerson circled above broken clouds at about 5,000 feet, to burn up 495 gallons of gas, lightening his load and lessening the danger of fire.

The heavy bulldozer fell off the trailer as it rounded a curve on a bridge. The pickup was headed in the opposite direction. Wentworth said he hadn't determined what caused the accident.

ANDOVER, N. B. (CP)—Frederick Hanson, 54, was convicted of manslaughter in the Victoria circuit court Friday night. He had been charged with murdering his 73-year-old brother, Walter, and the jury found him guilty on the lesser count.

Walter Hanson died of a bullet wound at his Andover home July 8. His wife, 52, was beaten unconscious. Frederick had been working for her husband and living at the same house.
