

# we get letters

Dear Sir or Whatever You are,

This letter may not be the most well written one for a university student but, I hope it'll be worth the effort and space I'm using in this paper. At least I fell quite assured that it won't be any worse than some things I've seen in the paper lately!

If I recall corectly, in one of the first issues of the Cadre you stated that this university isn't "apathetic", it's

"pathetic". I hope you're including the newspaper. My opinion of the Cadre lately is that it's downright disgusting.

If we want to look at pictures of nude girls and read dirty language, all we have to do is go to a neighborhood store and buy a magazine. Small things excite small minds. I often hear young teenagers swear, smoke, drink, ect. for kicks and to "act grown up". But I think that university student should be past that stage. We're supposedly here for an education. Lately I'm wondering what we're supposed to be educated in.

As for that girl on the front page of the last Cadre, if that represents university life, I for one have yet to see one girl dressed, or should I say undressed, like that around here, and I hope that I don't!

Did you ever think a person gets sick and tired of hearing what a lot of people (perhaps not you) call filth. In your last issue you said that some of those words are quite common in books. Does that make it right to use them?

There seems to be a lot of people searching for self-fulfillment around campus. Sure there's lots of beer parties, dances, and "other amusements" but I wonder if you're finding the answer? It seems that these days everything goes. Don't kid yourself.

I know that after writing this letter I'll be considered one of the biggest squares on campus by all you hip character well, I'll tell you, I'd rather be a square than a triangle which is a square with something missing. Perhaps if we stop and find that something missing, then the world would be a better place to live.

He's fairly well known and talked about person who goes by the name Jesus Christ. He's "with it" man, after all he loved us so much that he died for us, didn't he? You say such words as love and peace, I ask you, do you realll mean it?

really

Yours truthfully  
Debbie Peters

Dear Sir,

page....2

No longer could I wait to write this letter. My deep admiration for the hardworking, dedicated and sportsmanlike asses, which this university feel necessitated to employ as coaches of our athletic teams is boundless. Therefore, I feel that it would be a slight on my part, as an active participant in the intercollegiate sports program, if their fine efforts went unrecognized.

These people have brought great prestige to our noble institution— by their fine displays of temperment, and by their high standards in coaching techniques, which in some cases are reflected by the team's pugilistic prowess.

It is with immeasurable pride that I watch our coaches defend his or her teams, when an official exhibits a bias for the opposing team. He or she uses the greatest restraint by keeping his or her defense down to verbal abuses. Seeing this sportsmanlike attitude in the coach greatly enhances team

spirit and is certainly reflected in the exuberance and joy exhibited by team members after a well-earned victory. This "fair-play" attitude adopted by our coaches has brought me to the realization that, at this university, "It's not how you play the game, but if you win or lose".

I remain sir,

One who is more interested in how the game is played, not whether on wins or loses.

We, Garth Petersen and Mike Duffy, have just returned from the A.A.U.B. (Atlantic Ass. of University Broadcasters) Conference, which was held at Dalhousie University in Halifax.

To our surprise Radio U.P.E.I. is not what we might say the "worst" Radio station in this organization, which includes just about all the universities in the Maritimes but we think that out of ten, we would be rated as 7 or 8 which leaves us a lot of room for expansion.

We now find ourselves with the "bug" which is that everlasting power, that makes us want to be no. 1.

As has been seen over the last few years, Radio U.P.E.I. has the equipment to be one of the best Radio stations in the Maritimes, but it has always been the lack of enthusiasm either on behalf of the management or the staff, which has caused a set back in our reaching ahead.

We feel that now that our transmitting equipment is functioning properly and now that we have this "bug" to strive forth, that Radio U.P.E.I.

will start its long journey to the No. 1 spot, but that is only possible if we can get more participation from the rest of the student body, thus giving us the choice to eliminate those who will interfere with the better running of the station as has been happening in the past. In the past this has not been possible, because of the lack of participation, and because of some sort of partial miss-management. For those who have been with the Radio station in the past, we do not want to sound as if you have been wrong and now we are coming along as the saviors, but rather we have learned from your mistakes, and by means of our personal incentive we feel that we are ready to try and take this giant step ahead to make Radio U.P.E.I. a worthwhile enterprise, and investment on your part. This is what most of you seem to forget, that is, you are all part owners of the station, and thus without you the station will stay where it is now that is for a place for a D.J. to go and play records

that he wants to listen to, while he should be on the air, for you and your pleasure.

So please bear this in mind when we at Radio U.P.E.I. come to you and ask you for your support and help, remember every small step by you could be a giant step for Radio U.P.E.I.

Thanks

Garth Petersen
