BUCKEYE MOWER AND REAPER. THE SUBSCRIBER has just imported into this Island, and is now receiving quite a large number of these celebrated machines.

MANNY & BUCKEYE COMBINED MOWING AND REAPING MACHINES AND HORSE RAKES.

THE SUBSCRIBER has just imported into this Island, and is now receiving quite a large number of these celebrated machines, embracing the MANNY COMBINED REAPER and MOWER, the combined MOWER and REAPER HAND RAKE MACHINE, and the BUCKEYE SELF-RAKING MACHINE, for Reaping and Mowing.

THE MANNY MACHINE has this season, some important improvements, such as an extra Wooden Wheel and Axle for reaping, together with an extra Bevel Gear with a Flange so as to prevent the cogs from breaking.

THE BUCKEYE MACHINE having been manufactured for the subscriber under special contract, by ADRIANCE, PLATT & Co., of Poughkeepsie, in the State of New York, who are the original manufacturers of the BUCKEYE MACHINE in the States, manufacturing from six to eight thousand machines each year.

THE SELF-RAKING MACHINE is the best and latest improvement on the BUCKEYE MACHINE, and is not manufactured by any other establishment making the Buckeye. The SELF-RAKING MACHINE has proved a complete success the past year, and completely distancing all other Machines as Self-Rakers, made in the United States by others.

Last year I brought four of the Buckeye Machines, manufactured by A. Richards & Co., of Worcester, but I was not satisfied with them as they were not a perfect Machine, nor such as they ought to be, in my opinion, and I therefore could not feel that it would be right for me to say to the farmers that the machine was all right as a Reaper, when I did not believe it; but as a Mower I was willing, and did say to all, that they were good Mowers.

When I returned home from the Island last fall, and knowing that Adriance, Platt & Co. were ahead of all the manufacturers of what they termed the BUCKEYE MACHINE, I went to their establishment, one hundred and fifty miles distant, hoping to find there a combined Machine that would satisfy my mind; and I did find the desired Machine, it having a separate cutting bar, guards, and knives all fitted and attached to the Platform, and fitted and ready to hitch on to the Machine as a Reaper, which made a perfect Machine, and fully satisfied my mind.

When I examined their SELF-RAKING MACHINE, and was better pleased with that than the Hand Raker, as it is a splendid machine, doing all, and even more, than could be expected of a machine. The consequence was I purchased my Machines of Adriance, Platt & Co., and in the course of the winter, A. Richards & Co. went to Adriance, Platt & Co., and purchased a Platform from them, with their improvement of a separate bar and knives for reaping attachment, and attached them to their Machines—sent to this Island this spring. I did not purchase any No. 1 Buckeye this year, as I found they had come out of use, altogether, or nearly so. They made the No. 1 in the first place, but found them too heavy and too clumsy. The No. 2 proved more acceptable to the farmers for Mowing and Reaping.

My own individual opinion now is, and so is that of most of the farmers who have used the MANNY MACHINE, that the MANNY MACHINE, with its present improvements, is the BEST MACHINE for all Farmers of limited means, as it does its work well, and all that the farmers require it to do, and has no complication, and the mechanics of the Island know how to repair it. But those Farmers who have more means, and wish to have a nicer looking machine, and can afford to pay a higher price for it, I would say purchase the SELF-RAKING BUCKEYE MACHINE, as then they will get all that any Farmer can wish in a Machine. But come and see and examine for yourselves, and decide what Machine you like best.

These Machines will be on exhibition and Sale, at the Warehouse attached to the Store of Henry Hassard opposite the Post Office, on Queen Square, where I shall be very happy to exhibit and sell the above Machines at the usual accommodating terms, from one to three years, as the Farmers may wish; and those Farmers who wish to pay the money down, I shall be more particularly pleased to see and sell to, and of course at low prices. But all who wish Machines will be very welcome. Hoping that no farmer will purchase a Mower, until he has seen mine, and examined them, as I believe I have a splendid lot of Machines, and can satisfy almost any one. I have appointed agents in the following places:—
