R. between here and St. John, died very suddenly at an hospital in St. John on Sunday. Mr. Hardy had been in ill health for some time, and had been in the hospital only a few days before his death. The deceased was a native of Charlottetown, P. E. I. Mr. Hardy was highly esteemed by the travelling public. GLASS BROKEN—One of the large plate glass panes in the window of J. B. Macdonald's new store on Queen Street was recently broken by a stone thrown by a small boy. On Thursday evening Mr. R. E. Norton cut the glass around the break, so as to prevent the crack in the glass extending to the top of the pane, the operation being very neatly performed. Yesterday, however, a drunken man passing along the street reeled against the glass, cracking the pane from bottom to top. A new pane has been ordered by telegraph. PULLED HIS WHISKERS—A despatch from Bridgewater, N. S., to the Halifax Herald, says: "Captain Lordley, of Chester, was yesterday running out some lines to which Mrs. Hutt, his next door neighbor, had been attached. While Lordley was thus engaged Mrs. Hutt grabbed him by the whiskers and nose, her husband urging her on. Captain Lordley, in self defence and to scare her away, took out a pistol and smashed it at the same time stepping back. He stepped into a hole. In recovering his foothold he accidentally discharged the pistol, the ball striking Mrs. Hutt. Mr. Lordley at once procured a doctor and nurse and did everything possible for the wounded woman, who is doing as well as can be expected." THE OLIVETTE—The steamer Olivette arrived from Boston on Thursday afternoon at 3 o'clock, bringing the following passengers: Miss Annie McMillan, Mrs. Annie Johnson, Mrs. M. N. Lawson, Mrs. P. Wener, Miss M. Farn, Mrs. P. McDonald, Miss P. Swallow, Mrs. Mary Dalton, Miss Eva Cooper, Miss Hattie Hooper, Mrs. A. D. Bridge, Mrs. McIsaac, A. McDonald, Thos. Carey, Chas. Smith. She sailed on return yesterday with the following: Alex. Coakly, Malcolm Martin, Angus A. McLeod, Thos. O'Connell, Christy Martin, A. Macmillan, Mrs. Ed. Stavert, M. J. Woodbridge, Susan E. Stone, Alice Mitchell, John Wilson, Mrs. E. E. Stone, Mrs. Sampson, Sophia Sampson, Mrs. Perry, Mr. Matheson, Mrs. Wood. A HOT AIR BICYCLE—A new bicycle that does not require the use of pedals to propel it has been tested. The motive power is supplied by two hot-air engines, carried on the rear of the frame, one on each wheel. They are 2 1/2 inches with a stroke of six inches. In front of the operator, or rider, is a nickel plated tank, which carries coal oil. The oil is conveyed through the frame to the cylinders of the engine, where it is mixed with air. The principle on which the engine works is the production of cold by the quick evaporation of fluid. For this purpose a small primary battery is carried in the tool bag, and an electric spark from the battery evaporates the oil at the right time. For example, the first, or backward, movement of the plunger pumps the engine full of air, and at the same time admits the desired charge of coal oil. The same movement propels an electric spark, and the spark evaporates the oil and cools the engine. The forward movement of the plunger compresses the compound of oil and air into one end of the cylinder, and just as the plunger is starting back another electric spark explodes the vapor, thus producing power.

THE QUEEN'S BIRTHDAY.

YESTERDAY Her Gracious Majesty Queen Victoria attained the seventy-sixth anniversary of her birth. On the 24th of May next she will have reigned fifty-eight years. The anniversary of Her Majesty's Birthday was generally observed. Nearly all the stores and public offices were closed, and from public buildings and business establishments hunting flags floated to the breeze. Throughout the forenoon rain fell freely, interfering with the business of the livery stables and spoiling many a carefully planned excursion. About one o'clock in the afternoon, however, the weather began to clear and for the remainder of the day it was fine and cool. At twelve o'clock the usual royal salute was fired on Fort Edward by a detachment from No. 1 Company, Garrison Artillery, under command of Captain H. M. Davison. Cricket. If enthusiasm be one of the requisites for the advancement of cricket, the Cabots have a goodly supply of it. Even Jupiter Pluvius and his raindrops, huddled and all as they were yesterday, seem unable to dampen the ardor of the bold navigator's men. Though arrangements had been made for an all day's sport at the wickets, the boys had to be content with only half the time for which they bargained. This, however, they spent to good advantage, and all appeared to thoroughly enjoy themselves. Though yet too early in the season to expect anything like perfect form for the cricketer, the quality of the article was somewhat above the average usually seen in the initiatory stages. It was quite evident that all the boys had had some previous practice. However, with a little more practice some of them may be relied upon to introduce the ball to newer portions of Victoria Park's real estate. Refreshments were served on the grounds. The sides were captained by H. Carvell and J. McQuillan. We append the score which was as follows. McQUILLAN'S SIDE. 1st innings. J. McQuillan, c Leigh & D Nicholson... 0 W. Murray, not out... 23 W. The match between the Abegweits Junior and the Stars was scheduled for 10 o'clock in the forenoon, but was postponed until the afternoon. The teams lined out shortly after two o'clock, and the Abegweits kicked off. The Stars surprised all by their good play in the first half, but no points were scored. In the second half it looked as if the Stars would make a few points at any moment, but by good back play the Abegweits got the rubber out of danger and soon had operations in the Stars' territory, and later succeeded in scoring two touchdowns, one of which the Stars took exception to. As is usually the case in matches the losers do not take their defeat gracefully, and say they were treated unfairly in the matter of umpires and referee, and a return match may be the outcome. Mr. L. McMillan was referee. There was a game wait before the game of the afternoon began. The Prince of Wales and Abegweits lined out about 4.15. There was a series of rushes, kicks and passes after the kick-off, but no points had been scored at the end of half-time. The half ended with the ball in a scrimmage near centre field. After discussing lemons the boys lined out for the second half. The Abegweits worked the ball into the College territory and things began to look blue for the Collegians. The latter worked well, though, and one of the College men by a good run around the end soon had the ball far out of danger. No points were scored in this half either and the game ended in a draw. The Princes seemed to be a little the stronger in the scrimmages but the Abegweits more than made up in shrewd tackling and kicking. Addison Miller refereed the game. A game of base-ball took place during the afternoon, which attracted considerable attention and provoked not a little amusement. The excursion from Pictou did not materialize. The weather was unfavorable.

LATEST SUMMERSIDE NEWS.

A HOLIDAY SO-CALLED.—Yesterday, the 24th of May, was the Queen's seventy-sixth birthday. It dawned cold and rainy, and continued disagreeable until noon, when old Sol dashed through the heavy clouds in all his glory, as if repentant for his absence in the morning. In Summerside flags floated from many buildings and the steamer Northumberland. Public offices and banks were closed. But nothing else pointed to the joyous 24th. All the stores and places of business were open, and the young men and women who could appreciate a holiday were kept in their accustomed positions. We cannot see why Summerside should not enjoy the privileges of public-appointed holidays. Thanksgiving Day is kept in the same manner as the 24th, why, we do not profess to know. It would have been a good idea to have given our young men the 24th and had them pull down the dirty old black charred pieces of buildings, relics of the two last fires, which have adorned the business portion of Water Street for several months. They are the best fire loles the city has ever had. Insurance men and citizens let us kick until they are pulled down. REITAL.—Miss Sara Lord Bailey drew a fair audience on Thursday evening in Market hall. All who heard her were well repaid. Miss Bailey possesses a fine voice of which she has perfect control. Her selections were all of a pleasing character. She certainly deserved a much larger audience. High Sheriff Grayney occupied the chair in his usual easy manner. PASSENGERS.—Twenty-eight passengers crossed in the Northumberland on the 24th, sixteen returning. PARSONS.—H. W. B. Stavert and his mother, Mrs. R. Mc G. Stavert, left the special Thursday evening for Charlotte town, where they will take the Olivette for Boston. Mrs. Stavert intends spending a short time with her daughter, Mrs. (Rev.) Allen Hudson, of Weymouth, Mass. We wish them a bon voyage. Miss Jenneta McPhail, formerly school teacher of this town for fifteen years, was a passenger by the Northumberland last evening. She has been teaching in Charlotte, Md., where she has been very successful and won many friends. We welcome our friend back to our shores. Miss May Dawson, Mrs. F. W. Moore and Mrs. G. H. Hazard arrived by the steamer last evening, on their return to Charlottetown. Mr. R. W. Sharp is having his store on Water Street raised and a cellar dug under it. Mr. F. W. Cannon, the three-mile champion bicyclist of P. E. Island, has received a dandy new 18-pound Bramford. Frank intends holding his well-earned position. In Summerside yesterday we noticed Mr. Milton Welsh and his son Shelton, A. W. Reddin, N. B. Rattenbury and Albert Duchinen and son all of Charlottetown. Mrs. G. H. Bell, Stanley Bridge is spending the holidays with her father Mr. Geo. Bishop. Miss Cassie McCullough, who has been spending the winter with her brother Mr. Joseph McCullough, left for her home in St. John yesterday morning. Mr. Albert Carvell crosses over yesterday on his return to Montreal. We are delighted to see our old friend the worthy reporter of the Guardian Mr. W. A. F. Scott in town. He is taking a well earned rest from his income taxes and worries of a reporter's life. He is looking well and we hope soon to have him with us as of yore. The Rev. W. W. Weddall crossed over yesterday to Sackville, N. B., to attend the closing exercises at Mount Allison. Tomorrow morning he will preach the Theological and union sermon at the University. Mr. Weddall has been with us not yet a year, but he has made innumerable friends by his kind and honorable conduct and unassuming manner. We voice the sentiments of the people of Summerside when we say we hope to have him with us as long as the laws and rules of the Conference will permit. Hon. W. G. Strong occupies the Methodist pulpit to-morrow morning and evening. Mr. Harold Morris is also attending the closing exercises at Sackville. Tomorrow spend the coming winter there. If so we wish him success. NARROW ESCAPE.—Yesterday afternoon Mr. Levi Silliphant received a very severe kick in the stomach from an ox he was driving to Summerside. The sensations following were of anything but a pleasing character. He is all right again. SNIP NEWS.—Shipped per Northumberland, Cameron, master, for Point du Clene, on 23rd: 150 bags potatoes, \$96; 1 hot game \$10; 56 cases eggs, \$18; 5 horses, \$420; 1 case lobsters, \$5; 73 lbs oysters, \$219; 2 bris pork, \$15; 66 bush potatoes, \$14; total, \$948. At Fort Augustus, on the 16th inst. John Kelly, aged 91 years. Deceased came to this Island from County Derry, Ireland, sixty-five years ago. He has long been a well known and highly respected inhabitant of Fort Augustus, and his sorrowing family have the sympathy of a large circle of friends and neighbors, who mourn the loss of one whose many good qualities endeared him to all. At Lower H. Mass., on the 2nd inst. May John Music, son of the late James Music, of this city, aged 34 years.
