Abolition Of Tuition Fees Criticized By B. C. Man

SHERBROOKE, Que. (CP)—Abolition of tuition fees will transform Canadian universities into institutions of mass education where "mediocre professors" teach large classes of "second-rate students," the co-chairman of British Columbia Hydro and Power Authority said here.

"The possibility looms that sufficient pressures will be exerted upon the federal and provincial governments to persuade them to abolish tuition fees at universities," said Dr. Gordon Shrum of Vancouver.

"If this happens the standards for admission will have to be increased considerably," he told the conference of the Association of Canadian Schools of Business.

"Otherwise some of our best students will be crowded out and we shall transform our universities into institutions for mass education where mediocre professors will convey their mediocrity to large classes of second-rate students."

Dr. Shrum, head of the department of physics at University of B.C. from 1937 to 1960 and now chancellor of the new Simon Fraser University in Burnaby B.C., said every student qualified for a university education must have an opportunity to get it "but we must not make any mistake about the qualification."

"If we are to avoid disastrous effects upon the universities, mere attendance for 12 years at primary and secondary schools must not constitute an acceptable qualification."

SERVE THE GIFTED

Dr. Shrum said that traditionally, universities have served the gifted students—those with superior ability and with the desire to learn.

"If we are going to transform them into institutions for mass education then we should provide some new type of institution for the intellectually elite—the scholars upon whom we must depend for leadership in the worlds of science and letter."

He said that some adopt the "dangerous fallacious attitude" that there is nothing wrong with education which money cannot solve.

However, Dr. Shrum questioned whether it was possible to justify a high priority of expenditure for buildings and facilities for the accommodation of university students "who are neither mentally equipped or properly motivated to undertake academic work at the university level."

He also questioned the merit in spending money organizing smaller classes in secondary schools so students who haven't the ability to handle the academic program can receive more individual coaching and thus attain a bare passing mark on university entrance examinations.

WANTS RESEARCH

"Instead of merely spending more money on education, we should be financing research on: The reasons for school dropouts, causes of failures in the freshman and sophomore years at the universities, admission and examination proceduses, modernization of curricula and many other aspects of four expensive education system—including programmed gearning ann teaching machines."

He said the present university population explosion is aggravated by the practice of many employers of using the universities as "screenng agenies for applicants for employment."

Dr. Shrum said the job may not require university training but it is useful for the employer to know that the applicant has demonstrated the ability and the perseverance to complete a university program.

He said the professions also contribute to this over-population by demanding an arts degree for admission to many of the professional courses.

Liberal MP Launches Drive For Another Political Force

TORONTO (CP)—Steve Otto Liberal member of Parliament for York East has started a campaign to build a third political force among Canadians of other than French or Anglo-Saxon extraction.

In a letter to 50,000 Trontarea residents, he asked support for a new organization—the Citizens' Civic Action Association.

Mr. Otto called on the Canadian 'third group'—estimated to number about 4,000,000 or a third of the population—to organize in a unified camp to exert influence on federal and provincial politics.

He said a struggle for power is going on in Canada between the French and English languages.

GIVEN FIRST CHOICE

"It has now been decided that French-Canadians able to speak English will get more money in government jobs" and be given first choice for these jobs. The same applies to English - Canadians who speak French.

"But no one has given one thought to those of us who are neither English nor French, and who have had to learn to speak English to make a living."

The president of the new association is Dr. Joseph Boyko of Toronto, a Ukrainian-Canadian. "Among other prominent members is Conservative Senator Paul Yuzyk of Manitoba, of Ukrainian descent.

This is Red Cross Water Safety Week in Canada. A life jacket can't help save your life unless you're wearing it.

RIPLEY'S BELIEVE IT OR NOT

No Information Joe Bonanno Was In Canada

OTTAWA (CP) — The immigration department has "no knowledge" that Mafia leader Joseph Bonanno visited Canada frequently in the last 18 months while eluding police, the Commons was told.

Bonanno recently surrendered to police in New York and there were press reports that he had spent much of the last 18 months hiding out in Montreal.

Erik Nielsen (PC — Yukon) submitted a written question about Bonanno, saying he is generally regarded as "number four in the international Mafia."

Bonanno, alias Joe Bonanas, entered Canada in May, 1964, through a small town on the New York-Quebec border and told immigration authorities he wanted to settle down in Montreal as a businessman.

He was charged with falsely stating he had no criminal record and was deported to Chicago the following July. He disappeared in the fall of 1964 after being ostensibly kidnapped on his way to a grand jury hearing on crime rackets.

Vague references to Bonanno's deportation case kept cropping up at the 1964-65 Dorion inquiry into the Lucien Rivard affair.

John C. Munro, parliamentary secretary to Immigration Minister Marchand, gave the information in the reply.

MARRIED 68 YEARS

COLEMAN, Alta. (CP)—Mr. and Mrs. Joseph Lardinois celebrated their 68th wedding anniversary at Crowsnest Pass municipal hospital. They were married in their native town of Wanfercee, Belgium, when Mr. Lardinois was 24 and his wife Augustine 21. They have 12 great-great-grandchildren.

NAME RADIUM DONOR

VANCOUVER (CP) — The name of a donor who gave $50,000 to help start the British Columbia Cancer Institute 28 years ago was announced recently. She was the late Mrs. May Fisher, daughter of the founder of a department store, whose money was used to buy radium and equipment for treating cancer.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X R
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

OUR BOARDING HOUSE MAJOR HOOPLE

CONTRACT BRIDGE

By B. JAY BECKER

TEST YOUR PLAY

1. You are declarer with the West hand at Three Notrump. North leads the jack of clubs, Wouth following suit. How would you play the hand?

	♠ Q 8 5 3 ♥ A K 4 ♦ A K 9 ♣ A K Q	
♠ A 6 2 ♥ 9 5 3 ♦ 8 4 2 ♣ 7 6 4 3	N W E S	

2. You are declarer with the West hand at Four Hearts. North leads the queen of spades. How would you play the hand?

	♠ 7 6 2 ♥ A K J 9 4 ♦ A 10 2 ♣ J 9	
♠ A 8 5 ♥ Q 10 5 ♦ 9 8 3 ♣ A K 4 2	N W E S	

1. Win the club with the queen and cash the ace. If both opponents follow suit, cash the king, hoping for a 3-3 break which would give you a ninth trick.

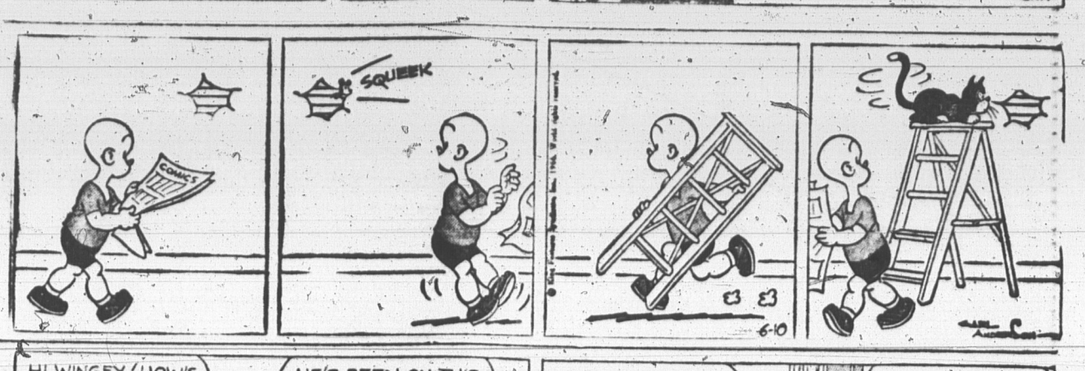
If the clubs turn out to be divided 4-2 (or 5-1), play a low spade, also, playing low from dummy. Win the heart or diamond return and play a low spade to the ace. Assuming that nothing of interest has occurred, lead a low spade towards the Q-8.

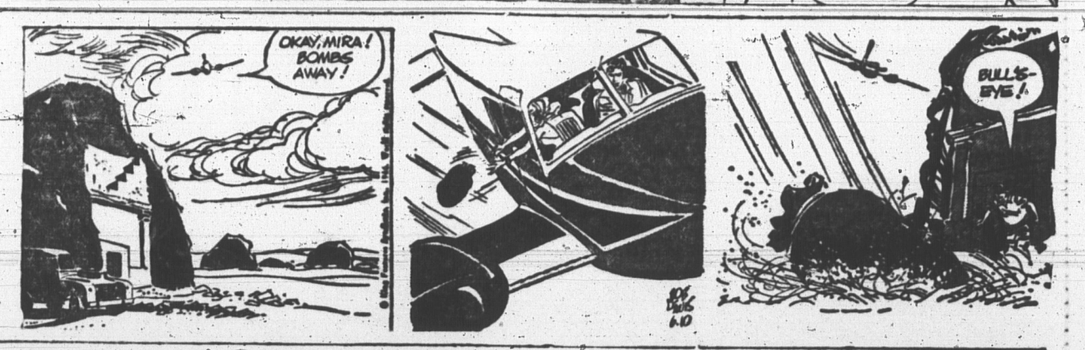
The effect of this method of play is that you make the contract if 1. the clubs are divided 3-3; 2. either opponent has the singleton king of spades; 3. either opponent has the doubleton king of spades; 4. the spades are divided 3-3; 5. South has any number of spades which include the king.

Note that the low spade play the first time the suit is led caters to the case where North is dealt the K-x of spades, which you would not know if you started the suit by playing the ace and another spade. This possibility adds subsgantially to your chances of making the contract.

2. The best method of play is to win the spade and lead a low club from dummy. If South has the queen, he will presumably play it, and this will give you three high tricks instead of the two you started with. The defense will then probably cash two spades and shift to a diamond.

Take the ace, cash the A-K of hearts and jack of clubs, enter dummy with a trump, and discard two diamonds on the A-K of clubs. This method of play succeeds if the trumps are divided 3-2.

If, when the low club is played from dummy at trick two, South also plays low, you have to assume that he does not have the queen. In that case, play the nine. If South has the ten, the nine will force the queen, and again you make three club tricks.




The contract is not certain by any line of play, but the method suggested offers the best chance of acquiring a tenth trick.
