

Western Summit Meet Proposed This Month

By HERB ALTSCHULL
BONN, Germany (AP)—President Eisenhower is reported to have proposed a Western summit conference in Europe sometime around the end of this month.

Authoritative informants said Eisenhower told the government leaders of Britain, France, and West Germany that he is ready to meet with them to work out plans for a forthcoming top-level conference with Soviet Premier Khrushchev.

The word from Eisenhower was said to be contained in letters to Prime Minister Macmillan, President de Gaulle and Chancellor Adenauer. The West German government and the U.S. Embassy here confirmed that Adenauer had received a letter from Eisenhower Saturday but declined to disclose its contents.

It was learned, however, that the president agreed with Adenauer's proposal that the Western government chiefs confer among themselves before moving into an East-West meeting with Khrushchev.

MEET DEC. 7

The informants said that if all

goes well an East-West summit meeting can be scheduled for Dec. 7.

This would be a week before the start of the annual Paris meeting of the North Atlantic Treaty Organization's foreign ministers, who presumably would be able to discuss the results of the summit talks.

It was not known whether Eisenhower specifically proposed the Western conference be held in Paris but officials here tended to believe that was the likely site. Geneva was considered a possible alternative.

Adenauer indicated that he would press to make the question of disarmament the chief topic in East-West talks. He told German journalists Saturday that was the No. 1 problem facing the world and that summit talks would prove how serious Russia was in quest of ensuring world peace.

The West Germans would prefer to keep the Berlin question off the agenda of East-West summit talks and refer it to a further meeting of foreign ministers.
