

## SPANIARDS WILL FIGHT HARD

### Before They Will Give up Manila.

THE INSURGENTS SAID TO BE LESS HOSTILE.

Garrison of the City Will Fight to the Death.

[SPECIAL TO THE EXAMINER.]

MADRID, July 21.—Premier Sagasta, and General Correa, Ministers of war, declared that the latest news from the Philippines is of the most favorable character.

General Correa's advices indicate that the insurgents are now displaying only a lukewarm hostility towards the Spanish troops.

The despatch from Gen. Augusta, alleges also that the garrison is ready to fight to the death, and that General Moneta and several officers who had escaped from Matabelo have arrived there.

Captain General Augusta concludes as follows:

Modestly and without exaggeration, which is contrary to my character, I have described with loyal candor the situation to which I am consecrating all my efforts for my country and my King.

**No cocaine in Dr. A. W. Chase's Cstarrh Cure**

Prof. Hays, Ont. School of Chemistry and Pharmacy says:—"I have made an examination of Dr. Chase's Catarrh Cure for Cocaine and all its compounds, from samples purchased in the open market and find none present." We offer a reward of \$1,000, to be devoted to any charitable institution if any druggist or doctor can find the least trace of that deadly drug Cocaine contained in Dr. Chase's Catarrh Cure. Dr. Chase's Catarrh Cure, recommended by all dealers at 25 cents box, blower included free.

## SUCCESSOR TO GENERAL GASCOIGNE

### Is Colonel Hutton of the 60th Rifles.

THE QUARTER MASTER GENERAL IS SUCCEEDED

By Major Foster of the Royal Engineers.

[SPECIAL TO THE EXAMINER.]

OTTAWA, July 21.—Official advices have been received that Colonel Hutton of the 60th Rifles has been appointed successor to General Gascoigne and that Major Foster of the Royal Engineers is to be the successor to Colonel Lake, the Quarter master General.

QUEEN REGENT WANTS PEACE.

[SPECIAL TO THE EXAMINER.]

LONDON, July 21.—The Madrid correspondent of the Daily Mail says that unless peace takes speedier progress, the Queen Regent will seriously consider changing the Ministry.

Gold from the Klondike.

SAN FRANCISCO, July 19.—The amount of gold brought down by the miners who returned from the Klondike on the steamer St. Paul is now placed at about \$3,000,000. Of the amount \$715,000 has been deposited at the Selby Smelting Works and a trifle over \$300,000 at the mint in this city.

**TOURISTS.—Prince Edward Island Illustrated is a beautifully illustrated book on P. E. Island. For sale at the bookstores or at this office—50c**

## AT THE SEASIDE AT HOME

There is no preparation like "Almond Pink," healing, soothing, softening. For sunburn, etc., it has no equal. Pleasantly perfumed. Dries immediately, not sticky. Positively harmless. Made and sold by

A. W. REDDIN, Phm B  
CENTRAL DRUGSTORE  
Sunnyside.

## Going Cheap

Job lot of Women's and Children's Boots selling cheap in Boxes on our middle counter. Children's for 29c.

## GOFF BROS

## SPANISH STUBBORN AT HAVANA.

### No Intention of a Surrender.

THEY WILL MAKE A STOUT RESISTANCE.

Great Enthusiasm Said by Blanco to Prevail.

[SPECIAL TO THE EXAMINER.]

MADRID, July 21.—An official despatch from Blanco announces that great enthusiasm prevails in Havana, and that the feeling in favor of resisting the Yankees is universal.

The Spaniards will die rather than surrender.

ILL-TREATING PRISONERS.

Spanish Soldiers Ill-treated in the Philippines.

[SPECIAL TO THE EXAMINER.]

MADRID, July 21.—Advices from the Philippine Islands say that natives are ill-treating four thousand Spanish prisoners, but that it is hoped that the friendly offices of the French Government will rescue many of the Spaniards.

DESTITUTION IN ALASKA.

SEATTLE, Wash., July 20.—An official letter from Captain Abercrombie, U.S.A., now at Copper River, Alaska, contains the statement that there are now 200 destitute men there. The captain says he has fed 500 persons thus far, and that if means are not devised to relieve the country of those who have failed to get to the Yukon and have lost their outfits in trying to ascend the Copper river and the tributary streams, there will be actual starvation this fall. Captain Abercrombie says in conclusion that the transportation companies refuse to carry the stranded miners without compensation.

Relief for Santiago.

SANTIAGO, July 20.—The Red Cross steamer State of Texas arrived yesterday and discharged 1,400 tons of provisions. A pound and a half of food was served to every citizen.

The water supply has been turned on, and all liquor stores closed.

Last night the city was very quiet and there was no disturbance, the distribution of the supplies from the State of Texas being anxiously awaited, as there was literally nothing in the city to eat. Before the refugees left for El Caney flour was selling at \$150 a barrel, beans at \$90 per hundred pounds, condensed milk at \$5 a tin, and hardtack at \$1 per piece. At El Caney the prices were still higher, \$25 for a tin of condensed milk and \$5 for a piece of hardtack. The ruin and want in the city are almost inconceivable.

AUXILIARY CRAFT.

WASHINGTON, July 20.—The navy department is rapidly collecting the large fleet of auxiliary craft, made up of merchant ships, large ocean going yachts, tugs, etc., from Atlantic coast ports to Cuban coast waters, where they will be placed on blockade duty, thus releasing the larger ships for more active duty at Porto Rico and the coast of Spain. Three of these smaller craft was sent south today and most of them will be on the way within a week, stopping only long enough at Norfolk to have their batteries strengthened. When the war broke out a large number of these auxiliary craft were purchased. They have been distributed along the Coast from Maine to Florida, making an effective coast patrol. There is felt to be no further need of this patrol, so that with the exception of a few important points the auxiliary craft will be withdrawn for service in Cuba.

A fishing bureau is to be organized at Halifax. One of the Halifax merchants, in a recent interview with the Halifax Herald, said: "One chief part of the bureau's work would be the issuing of weekly market reports from the leading points of distribution in Jamaica, Porto Rico, Brazil, Demerara, etc."

## THE FINAL STRUGGLE AT MANILA.

### The City Now Ready for the Fight.

GERMANS HAVE THE STRONGEST FLEET IN THE BAY.

The City may not be taken Without Much Bloodshed.

[SPECIAL TO THE EXAMINER.]

NEW YORK, July 21.—A despatch from Manila says: Every energy is being bent within the city to prepare it for the final struggle.

The people are exhorted by the clergy and the military authorities, and their hopes are buoyed by false reports as to the relief from Spain and Spanish triumphs in the West Indies and along the Atlantic coast.

The city seems as nearly ready for the conflict as the material in the hands of Spanish can make it. The German fleet now here, not counting supply vessels, includes the Cormoran, Kaiser, Kaiserin, Augusta, Jean and Princess Wilhelmina.

Their metal exceeds that of any other fleet here.

The British fleet includes the Immortalite, Bonaventure and Rattler, but the presence of so many German vessels is expected to draw other ships. It is freely predicted that there will not be a bloodless capitulation of Manila.

TAKING THE SPANIARDS HOME.

[SPECIAL TO THE EXAMINER.]

WASHINGTON, July 21.—The contract for transporting some of the Spanish prisoners from Santiago has been awarded to J. M. Ceballos, the New York agent of the Spanish Transatlantic Company.

ARTILLERY IMPROVEMENT.

LONDON, July 20.—In the course of a recent speech Mr. S. Maxim said:

Everything in the military and naval line is in a state of transition. As we increase the muzzle velocity of our guns in order to get greater length of range and penetration we meet with fresh troubles. Smokeless powder corrodes the bore of a gun with greater rapidity than the older powder. But, working in conjunction with Lieutenant Dawson, we have experimented and brought out a new invention which, I think, ought to revolutionize the firing of heavy artillery. Ordinarily, with high velocities the bore of a gun is very rapidly destroyed, but we can now extend the life time of a gun more than ten times. By a new system—a new principle—we are able completely to eliminate the erosion due to the escape of gasses past the projectile, and we can virtually restore the velocity of a badly worn gun so that practically, it shoots as well as a new one."

NOW FOR PORTO RICO.

WASHINGTON, July 20.—Admiral Sampson has received final orders from the navy department as to the part the American fleet is to take in the campaign against Porto Rico, the duties of the navy being to lend every support and assistance to the land operations. As there is no Spanish fleet in San Juan harbor or other Porto Rican Ports, the navy has a limited field of operation. The reduction of the harbor fortifications will be the main work, but this and all other operations of the fleet will be supplementary to the main operations conducted by the army. The strategists, military and naval, are agreed in the view that the taking of Porto Rico is primarily a military undertaking, and Admiral Sampson's orders are on these lines.

Germans at Manila.

BERLIN, July 20.—All the official information in regard to the incident in which the German cruiser Irene figured at Subic Bay, Philippine Islands, is refused here. The German officials will only admit that differences of opinion between Admiral Dewey and Admiral Von Diederichs as to the right of searching warships having occurred, and the Germans add that Admiral Von Diederichs refused to allow German warships to be searched.
