

Local and Other Items.

Jay Gould has announced his retirement from Wall Street.
SHEETS have fallen in price to one cent per pound at Richibucto.
The EXAMINER is sprinkled every day with a strong disinfectant.
A SUPPLY of Bovine Vaccinia Virus will arrive to-night at Watson's.
CHLORIDE of Lime and Carbolic Acid, wholesale and retail at Watson's.
We are indebted to Hon. D. A. Macdonald, San Francisco for late Californian papers.
REV JESSE MURRAY, of St. John, N. B., died on the 1st inst., after four years' illness.
It is probable that the crew of the wrecked steamer Earl Duffrin will have to winter on Anticosti Island.
ZION CHURCH.—The regular weekly Prayer Meeting in the Zion Church, this evening, commencing at 8 o'clock.
TORONTO will ask the Dominion Government to reump \$10,000 spent in relieving the families of the Northwest Volunteers.
MR. FABRE, of Montreal, has forbidden the celebration of a mass for Rich, at which there was to be a political demonstration.
The steamer Carroll, Capt Brown, arrived from Boston this morning with freight and two passengers, Miss McLeod and Mr Smith.
By arrangements made with the manufacturers, the second lot of Lane's Mico-Mic cure for smallpox, now in, will be sold for \$3 a box at Watson's.
TWENTY DOLLARS LOST.—In this city, yesterday, four \$5 notes. The finder will be suitably rewarded by leaving them at EXAMINER office.
ST. PAUL'S CHURCH.—The regular Wednesday evening literary service will be resumed this evening. Bible classes will remain suspended for a week or so longer.
"KITTY" MOORE, a native of Omagh, County Tyrone, Ireland, died in Ottawa on the 30th inst., at the advanced age of 106. She lived in Ottawa since 1837.
The funeral of the late Miss Ruth Kiekham, daughter of Capt. Kiekham, of the Zerele, took place from the Convent de Notre Dame this morning, and was attended by the Sisters and pupils of the school.
STRANDED.—The rebr. Glen, Hanrahan, master, from Timbuctoo, P. E. I., and with cargo shipped by Senator Howland to John Sadler, Chatham, was stranded at Point Sapin, Richibucto, on the 19th inst. Eight passengers and crew were safely landed, and nearly all the cargo saved and stored. There was no insurance on the vessel.
The meeting of the Young Men's Union last evening was a particularly interesting one. A paper was read on "Color-Harmony," after which an animated discussion took place on the relative values of truth, execution and suggestiveness in paintings. The subject for next meeting is "High Art." Chairman—Mr. C. D. Sterns.
A TRAGEDY was enacted at St. Jean, Port Joliet, Quebec, on the night of the 30th inst. A young man named Belanger was visiting Miss Daigle, the young lady with whom he kept company, and while he was in conversation with her, he was shot through the head by her brother and died 30 minutes afterwards. Miss Daigle, who was the only witness of the affair, has become crazed.
On the 26th ult., an impressive ceremony took place at the Mother House of the Congregation de Notre Dame, Villa Marie, Montreal, when thirteen young ladies took the holy habit, and nine made profession, at the hands of the Bishop of Arichat. Two of the latter belong to this Province, viz, Sister St. Marie-Claire, of Charlottetown, daughter of Mr. Patrick McCarey, and Sister St. Clementina—Miss Jane McDonald, of Panmure Island.
To the Monetary Times, Messrs. Dodt & Rogers, importers of hardware in Charlottetown, P. E. I., speak their mind thus: "Business is now very dull here; payments are slow, and the farmers feel bad over the very low prices for produce. Potatoes are selling in some parts of the country for 10 cents per bushel; pork at 3 1/2 to 4 cents per lb. Several failures are already reported among country merchants. Bad all over, the National Policy does not seem to do us any good. But quite the reverse, and as we said before, it is a huge political blunder, and is certainly a curse to the best interest of P. E. Island.
The experience of the manufacturers of the 'Myrtle Navy' tobacco is a valuable lesson to political economy. Previous to their commencing that brand, the tobacco made of the finest Virginia leaf was always held at fancy prices, and put up in some fancy style of manufacture. It was thought that only the rich would buy such tobacco, and at the old prices none but the rich could buy it. The makers of the 'Myrtle Navy' resolved to strip the manufacture of the tobacco of all its fancy costs and put their profit at so low a rate that no competitor could possibly undersell them with the same quality of article. From the very first until now their rate of profit has been a uniform percentage upon the cost. It is their enormous sales which make their low rate of profit a satisfactory one in the aggregate, and also gives them firm hold upon the market. Their success is an excellent lesson for manufacturers to study over.

The first important contribution to this collection of papers, says Mr. Douglas Brynner, keeper of the Historical Archives of Canada, was made by the War Office, which consented to transfer the Canadian Military correspondence, going back nearly 100 years, which was packed up in Halifax ready for transmission to London. "These papers number upwards of 200,000 documents of various shapes, sizes, and contents, and no provision having been made for clerical assistance, I was obliged, unassisted, to classify, arrange and prepare them for binding. They are now on the shelves bound in one thousand and eighty-seven (1,087) volumes." This, it seems to us, is a modest statement of the finish of a hard and tiresome task. But this was several years ago, and we are pleased to know that Mr. Brynner has now some assistance in his labors as Archivist.

THE PUBLIC HEALTH
NEW CASES.
Since our last issue three cases have developed in the McMahon family, quarantined on Sidney Street. The victims are Mrs. McMahon, whose husband died of the disease last week, and two children aged three and five years. They will be removed to the hospital this evening.

CONDITION OF PATIENTS.
Dr. Jenkins at 1 o'clock to-day made the following report:—
To the Chairman of the Board of Health:
SIR,—I have to report the death of Mrs. Forrest at 2 a. m., and of Mrs. Hugh Smith at 10 a. m. These patients have been in extremis for several days. Kate Somers and Rosa Wood are very low. Agnes McDonald is a little better this morning, but her case is serious, being complicated with metro-hemorrhage. Mary Breen is also somewhat improved, but her case is still serious. Of the men, Way still holds out. Music is much improved. Crockett improves slowly but steadily. All the others are doing well.

THE PATIENTS IN THE CITY.
The patients in the city are all doing well to-day. Mr. J. W. Mitchell is convalescent.

DEATHS.
Since the last issue of THE EXAMINER four deaths have occurred. Louisa Hawkins, aged 19, died at 5 o'clock yesterday evening; William Bell, aged 18, died at 7 o'clock yesterday evening; Mrs. Capt. Forrest died last night, and Mrs. Hugh Smith this morning.
Mrs. Forrest was the mother of a large family of small children.

ACKNOWLEDGMENTS.
His Worship the Mayor acknowledges with thanks the receipt of the following contributions:—A friend, \$10; Miss Carroll, Queen Street, 1 barrel apples; C. A. Hyndman, 1 dozen bottles ale; Mrs. Chas. Matheson, 4 bottles wine, etc.; ladies of Kensington, parcel of linen, etc.; Mrs. F. S. Moore, parcel of clothing.

A SUGGESTION.
SIR,—It is to be hoped that before any of the infected houses are relieved from quarantine, the Health Officer will have all clothing and other articles which would retain the disease destroyed. It will be remembered that a few years ago the Whaley family, upon moving into premises formerly infected—but which remained unoccupied for over a year—contracted the disease by handling a small quantity of woollen goods which remained in the house. The greatest caution should be taken at the present time be observed, in order that a repetition of the above cited case may be avoided.

PRUDENCE.
The wisdom of the law making vaccination compulsory must be apparent to every reasonable mind when it is considered that every unvaccinated person in the community, not only is himself exposed to extreme danger of becoming a victim of smallpox in its most fatal form, but what is still of much greater consequence, the certainty of his becoming a new centre for the spread of the disease among many others. Boards of Health should therefore insist upon making vaccination universal, and place the house or houses of such persons as refuse to submit to the regulations under quarantine, pending compliance with such regulation.

AN OVER-EXCITED BOARD.
SIR,—Owing to the precautionary measures taken, the smallpox has not arrived yet. The quarantined patients have not yet shown any of the premonitory symptoms. Mr. Abbott suffered severely on Saturday for want of water, although a stream runs close to his residence. The committee were too drunk to attend to his wants. If the Board would make an order to close the whiskey dens instead of respectable people's residences it would have more effect in preventing the spread of the disease if it should come here; but we apprehend no danger, as the licensed vendor has received 110 cases of smallpox remedies (special blend).

MORE A-ON.
ALBERTON, Nov. 30th, 1885.
THE ALBERTON BOARD OF HEALTH DEFENDED.
SIR,—We notice an article headed "A Protest" from a gentleman at Alberton. Now, we doubt that the above is the emanations of a gentleman. Surely a gentleman would not state falsehoods. Now, Mr. Editor, the Board of Health at Alberton has neither acted silly nor arbitrary, but only took such precautionary measures as would tend to prevent the spread of this malignant disease, and for such action they have the support of a very large majority of the citizens and of the approval of the country people to a unit, and only a few of the cranks belonging to the place, who are very much incensed because they themselves are not clothed with the authority, and the cases he cites are very wide the mark. In the first place, there is only one officer who attends the Station on arrival of trains, and when Mrs. Oulton arrived at the Station, she was asked by the officer where she was from, and she replied, from the Brae, Lot 9, where her son reside, and she was allowed to pass, and no attempt was made to arrest her. Neither did her husband interfere. Mr. J. S. Abbott had been from home five or six days, and on his return, was questioned where he had been, and not giving satisfactory answers, nor not being vaccinated for the past seven years, he was conveyed to his home and his house flagged till the officers would vaccinate him and his household, and could give him a clean bill of health. Surely the Board cannot be too particular where their responsibilities are so particular where the old Board of Health at great. Had the Board of Health at Alberton in the fall of 1878, and the winter of 1879, been so energetic and vigilant in

the discharge of their duty, and destroyed the old clothes belonging to the two victims of smallpox, Alberton would have been spared the scourge it experienced, and many valuable lives would have been spared, and the business of the place would not have been paralyzed. Neither would the Government be called upon to expend some two thousand dollars to stamp it out. "An ounce of prevention is better than a pound of cure."

Yours,
AUDI ALTERAM PARTEM.
Alberton, Nov. 30, 1885.
BOARD OF HEALTH AT ELDON.
The members of the new, or re-constituted, Board of Health for Lots 57 and 58, consisting of the following gentlemen, viz: D. A. Macleod, Esq., merchant, Eldon; James St. C. Moore, Esq., John Murchison, Esq., Point Prim; Alexander McMillan, Esq., Belfast; Mr. Donald McLeod, Orwell Head; Mr. Donald Stewart, Murray Harbor Road, and John O'Connell, of Montague, after being duly sworn by Donald R. McDonald, Esq., J. P., met in the Court Room, on Monday last, 30th ult., and immediately proceeded to business by appointing John O'Connell to act as Clerk of the Board, and passing a series of resolutions, intended to aid more or less in preventing the spread of that dreadful epidemic, the smallpox.

Whereas, the smallpox is still prevalent in Charlottetown, and
Whereas, direct communication is kept up by steamers,
Resolved, That persons be appointed in the following places, viz: Green Marsh, Orwell Cove, Newton, Glavin Ponds, Surry and the Valley, Selkirk—all within the precinct of this Board, which includes Lots 57 and 58, to act with and assist this Board, in the event of smallpox epidemic breaking out within its precinct. Said persons to report to and be in communication with this Board.

The names of the persons so appointed are:—
Messrs. Roderick Macdonald, Green Marsh; John J. Macdonald, Northpole, Orwell Cove; John Murphy, Senr., Newtown; Angus McLean, Glavin; Alexander Williams, Ponds; Patrick James Kelly, Valley, and John Bruce, Surry.
Resolved, That in case of any outbreak of smallpox within the precincts under the jurisdiction of this Board, that the one of those gentlemen before named, nearest to the infected family or district, report immediately to this Board, and also ascertain if a suitable house can be obtained for an hospital.
Resolved, That application be made to the Government, that power be granted to this Board to employ competent men to go from house to house to vaccinate all those who have not been vaccinated.
