

100% PROFIT is what many of our clients realized upon their investments during 1899.

The Iron Monitor Gold Mining Co

will prove no exception. The company own the "IRON MONITOR" claim almost adjoining (less than 300 ft) the famous "REPUBLIC" that last year paid in dividends over

\$500,000.00 DOLLARS.

The Superintendent's report is flattering, showing two veins upon which over 430 ft. of development work has been done, which yields good values.

The officers ARE NOTED MINING MEN.

The President, Mr. V. D. Williamson, financed the sale of the "REPUBLIC" to Montreal Capitalists for

\$3,500,000.00

We believe with the same amount of development work the "IRON MONITOR" will equal the "REPUBLIC"

REMEMBER in 1897 shares of the "REPUBLIC" sold for less than TEN CENTS are to-day worth ONE DOLLAR and SHAREHOLDERS HAVE RECEIVED MANY TIMES THEIR ORIGINAL INVESTMENT IN DIVIDENDS.

We have a limited number of shares for sale at

FIVE CENTS

\$50.00 for 1000 Shares

which within two years we predict will be worth \$500.00.

This is an opportunity you cannot afford to miss. The share is bound to advance quickly absolutely upon its merits, therefore it will be necessary for you to act promptly in order to secure shares at the above figure.

THE DAILY EXAMINER

FEBRUARY 23, 1900

A TRIBUTE.

THE tribute unanimously paid by the Dominion House of Commons to the Canadians whose "conspicuous gallantry" won the applause of Lord Roberts was well conceived by Sir Charles Tupper and well expressed by Sir Wilfred Laurier. Sir Wilfred's message to Colonel Otter, sent at the suggestion of Sir Charles, was as follows:

"OTTAWA, Feb. 21. —I desire to convey to you and your men grateful thanks of Government and Parliament of Dominion for gallantry displayed on the battlefield. Canada warmly appreciates sacrifices made by her sons for honor of Empire. Wounded have our sympathy and our prayers for speedy recovery. Those who have given up their lives will ever be held in remembrance by a grateful people. (Signed) WILFRED LAURIER."

A resolution of the House of Commons was also passed "expressing sympathy with the families of those who have fallen in South Africa." These expressions represent truly the feelings of the people of Canada. They are also timely and appropriate. Many Canadians have in the past laid down their lives for the defence of their country and not a few have, individually, fallen in our Empire's struggles for the promotion of British liberty and civilization in foreign lands. But never before has a Canadian regiment, representative of Canada, taken a conspicuous part in a foreign campaign or been distinguished for gallant service in the field. It is, therefore fitting that we should, formally, as one of the young auxiliary British nations, mark our high appreciation of the Canadian regiment's heroic conduct and our sympathy with those whose sons have fallen nobly in the fight. We can now feel somewhat of the Imperial pride, mingled with sadness, which Great Britain has in those brave and loyal sons of hers who have carried her flag to the remotest parts of the earth, and with it the incalculable blessings of Christianity and Civil Liberty.

In the words of that fine poem of the Rev. McLean Sinclair, published but a day or two ago, and referring to our united British Empire:

We are Britons all by name,
Britons, too, in heart and aim,
And we'll stand with British flame
By thy colors bright.
Trust in Him who reigns on high,
Keep His law before thine eye,
Let thy shells and bullets fly,
Strike and strike aright.
Crush and tame thy stubborn foes,
Break the yokes which they impose,
Save thy friends from wrongs and woes
Spread abroad their light.

NOTES AND COMMENTS.

—Universal regret is felt on account of the severe (though not absolutely dangerous) wounding of General McDonald, the brave and successful leader of the Highland Brigade.

—Regarding the story of his resignation, Hon. J. I. Tarte says:—"There is not a word of truth in the story. It is pure bosh." So much the worse for the Liberal party and the country!

—There must have been great excitement at the Opera House last night. News published in THE EXAMINER at three o'clock in the afternoon was accepted as something later and better—and there was wild applause.

—Of strength of General Cronje's force, the London correspondent of the Herald says that "Cronje probably has with him, besides his original force of 10,000, 8,000 vaders of Cape Colony, some of whom were of the command that fought Clements at Rensburg and others were at Stormberg. According to some authorities the Free Staters, who are moving from Colenso and Ladysmith, will add ten thousand more to Cronje's ranks, if indeed, they are able to join him."

ESTEEMED EXCHANGES.

Montreal Star: The best thing to do in the interests of the country, and for that matter, in the interests of the party, is to make promises to no one but to keep clear and free to select from the party, after the elections, the best men from among those elected. There should be no promise of railway portfolios or public works portfolios, or any other portfolios, without having the opportunity to take stock of the available material. The people of Canada are in no mood to put up with bad men, with promise breakers, or corruptionists, or men who are disloyal. Assuming that the Conservatives are to win the general elections they will have no chance of escaping the odium and the condemnation that has come upon the Liberals unless they select men of probity and tried loyalty.

A MILITARY NUMBER.

The March number of the Canadian Magazine will be a special Military Number with colored Military cover, the design of which shows the Canadian Mounted Rifles parading on a Canadian street. The organization of the Second Contingent and the embarkation will be described by two writers and each of the articles will be illustrated with a number of photographs which have been taken specially for this purpose. Mr. J. Castell Hopkins writes the opening article in which he gives the history of British Policy in South Africa during the present century. Malcolm Ross, a member of the Artillery Brigade in the Second Contingent, has an excellent article entitled "Types of Artillery." C. A. Matthews writes a short biographical sketch of the Minister of Militia. The publishers announce that this will be the finest number of the Canadian Magazine they have ever turned out and will be superior in many ways to their Christmas number which won them so much praise. The Canadian Magazine is so exceptionally well printed that no person who may conceive great expectations with regard to this military number can possibly be disappointed.

CHRISTIAN CHURCH.

A New Church to be Erected in Charlottetown.

On a lot pleasantly situated in the centre of a block facing the south, between Prince and Hillsboro Streets, the Christian Church is to be built in the near future, the architect being Mr. W. C. Harris. The building is arranged so that a grass lawn will be on the north and south.

The church will be 65 feet long and 30 feet wide. The entrance porch is in a circular tower at the south west angle, lighted by a stained-glass gothic window. In the porch is a circular stair leading to a small gallery in south end of the church and to a circular classroom above the porch. In the north end of the church is the pulpit platform, arranged in a six-sided form in which is pulpit, baptistry, organ, choir. Opening from the platform and baptistry are two robing rooms and entrance, and above these the vestry.

The exterior design is a bold treatment of gothic architecture. The interior has a curved, groined ceiling, finished in stained wood. The lighting will be very effective, the light entering high on the walls and condensed towards the west side of the church. The floor is arranged so that each seat rises slightly above the one in front, the seats being on a radiating plan giving a good view of the platform. The six-sided end behind the pulpit and choir and the general arrangement of the ceiling are expected to be very conducive to good hearing.

The church seats three hundred easily, and will be heated by hot air. The walls are of brick and the foundation of Wallace stone.
