PARIS, Dec. 20. In the Chamber of Deputies to-day the bill granting subventions to the public schools was adopted after an animated debate. During the discussion De Cassagnac was called to order and subsequently formally censured by the President of the Chambers.

CORRESPONDENCE.

We do not hold ourselves responsible for the opinions or statements of our correspondents.

A Suggestion.

To the Editor of the Examiner. DEAR SIR,—Your able leader of Tuesday about steam communication wants careful consideration. As you truly observe the Steam Navigation Company's boats are not suitable or safe for traffic at this season of the year; and as their contract has about expired, it is hardly fair to ask them to now endure risk. But in St. John's, Newfoundland at the present moment, there are lying idle a number of sealing steamers, built sufficiently strong to stand any ordinary blizzard. These vessels contain the latest improvements known to science, and their owners would charter one of them for a price. I respectfully submit that, if efficient steam communication, winter and summer, with the Mainland is part of the terms of union, then, our resource is to apply to the Dominion Government at Ottawa for a fulfillment of those terms; and I would go farther and say, that, neither the citizens of Charlottetown or the people of this Island have ever yet energetically pressed this matter on the notice of the Government. Allow me to respectfully suggest the calling of public meetings and the formation of Chambers of Commerce to look after the interests of Island trade. If immediate action was taken, one of those sealing steamers could be on the Georgetown-Pictou route next week. Soliciting the favor of commenting on your remarks about Ocean Traffic in a future issue, I remain, Yours respectfully, HENRY GOOMBS.

An Answer for "Elsie."

To the Editor of the Examiner. I. It is to be found in Owen Meredith's "Lucille," Canto v. page 105:—"So it will be, so has been since this world began, And the happiest, noblest, and best part of man, Is the part which he never hath fully play'd out: For the first and last word in life's volume is—'Doubt.' The face the most fair to our vision allow'd, Is the face we encounter and lose in the crowd." II. In Victor Hugo's "Toilers of the Sea," in Book II:—"The blue of the sky, the gentleness of all the movements of the scene, the serenity of the noontide, seemed to exclude the idea of mischief. The waves danced merrily in the sunlight. A Judas' kiss is the first step to treachery: of such carresses the ocean is prodigal. Her smile, like that of woman's, sometimes cannot be trusted." III. Shelley is buried in the Protestant burial-ground at Rome. The following is the inscription:—"Percy Bysshe Shelley. Cor Cordium, Natus. IV. Aug. MDCCXII obiit VIII. Jul. MDCCCXXII. "Nothing of him that doth fade, But doth suffer a sea change, Into something rich and strange." The expression Cor Cordium, "the heart of hearts," is in allusion to the asserted fact, that, when his body was burnt on the shores of the gulf of Spezia, the heart was the only portion that the fire did not consume. NOTICE.

THE Charlottetown Gas Light Company I have imported a fresh supply of Bray's Patent Burners, especially made to consume only three feet of Gas per hour with the tap turned full on. These Burners are intended for use in Halls, Bedrooms, Kitchens, and other places where a light from a small consumption of Gas only is required. By regulating the tap, the Gas consumed can be reduced to any desired quantity less than three feet per hour. These Burners are so scientifically made that they will give a light equal to about ten candles at a cost of three quarters of one cent per hour. The price of these Burners to consumers of Gas will be ten cents each. [ju 10 cod] at
