Managing Servants.
"I never keep a servant, some way," sighed a woman the other day. "They get so impertinent and talk back, till I can't endure it, and so just ship them." Not much wonder they get impertinent. No servant who has the slightest atom of self respect is going to stand being lectured before a tableful of people. And the mistress who will do that isn't a lady no matter what she claims to be. A mistress should remember that servants are, after all, human and are dominated by much the same spirit as their employers, though in a different degree, perhaps. Whatever injures their ideas of self respect hurts their self esteem, and trouble is bound to come. Lecture your servants, if you will, but do it behind closed doors. The public is not interested in your domestic troubles.—Exchange.

Not an Easy Task.
A nursery governess in an English family of affluence must be a young lady of considerable educational attainments. She must have a good knowledge of English and French, be able to teach the elementary rules of arithmetic, write a good hand, be quick at needlework, and in addition be kind and conciliating in disposition and make up her mind to endure all the annoyances, drudgery and fagging which the charge of young children impose.

Benevolence Street.
In Canton they name streets after the virtues, as here they are named after persons. Thus there is a street called Unblemished Rectitude, a Pure Pearl street, a street of Benevolence, and another of Love.

A form of clothing known as knee cuffs is said to be used quite generally in France by all classes during the winter. It is a woollen cuff for the knees, much the same as in England is worn around the wrists.

POISONED BLOOD
Dreadful Death Draught Comes from Diseased Kidneys.

When Uric Acid Flows in the Veins, Life Looks Out of Darkened Windows, Expecting Soon the Close of Day.

The fashionable Italian poison of the XVI. century was Aqua Torfana. It was used by the medicis and all the first families of Rome, Genoa and Naples. In five years, historians tell us, over 600 wives used it to make widows of themselves.

In these modern days a more terrible and more prevalent poison is decimating the human family, and men have asked in vain for an antidote. It is the uraemic poisoning of the blood, caused by diseased kidneys. The poison which these useful organs should filter from the blood is allowed to remain in the circulation, and courses through the body like

"Accursed Hebenon... whose effect Holds such an enemy with blood of man, That with a sudden vigor it doth posset and curd Like eager droppings into milk, The thin and wholesome blood."

To-day there is a remedy. Science has discovered a sure cure. All may have and apply it. It is sold under the name of **DODD'S KIDNEY PILLS.**

It is a specific for all kidney ailments. It cures by restoring the Kidneys, so that they properly perform their natural functions. It is the only known cure for Diabetes, and Bright's Disease. For sale by all druggists everywhere, and the Dodd's Medicine Co., Ltd., Toronto.

Mr. Vernon Bromley, Trenton, Ont., says:—"For a number of years have suffered severely from Rheumatism and Sciatica. Was induced to procure a half dozen boxes of Dodd's Kidney Pills which I have used; and from being a cripple I am a well man."

Mr. Thos. Harrison, St. Mary's, N. B., says: "In spite of all other treatment, I suffered for nearly a year with Stone of the Bladder. I was relieved by passing the same, after using one box of Dodd's Kidney Pills, and completely cured by a few boxes."

Mr. Wm. McEvela, 275 Field St., Ottawa, says:—"Two boxes of Dodd's Kidney Pills have worked a wonderful cure in my case. Had been laid up with kidney trouble for months."

G. B. Cones, Orillia, Ont., says:—"I most cheerfully testify that five boxes of Dodd's Kidney Pills have cured me of Diabetes from which I suffered two years."
