### Auto Union Head Foresees Price-Wage Spiral Threat

ATLANTIC CITY, N.J. (AP) — President Johnson told the United Auto Workers Union Monday that "we must not choke off our needed and speedy economic expansion by a revival of the price-wage spiral." "Avoiding that spiral is the responsibility of business, and it is also the responsibility of labor," the president told the convention of the 1,000,000-member union, which three months from now will negotiate wage contracts with car manufacturers. "At the same time, the president told some 3,000 UAW delegates and jammed galleries that "now our times require that here at home we pursue a warm-hearted war, a war of compassion for the well being of all the people." Johnson got a noisy, friendly reception from an audience estimated at 12,000 in the same convention hall where he is expected to be renominated at the Democratic party convention in August.

### Go't To Protest TCA Advertising

By DON MACLEOD As the result of an advertisement which appeared in a Scottish publication, letters of protest will be sent to the management of Trans-Canada Airlines and the federal government by Minister of Tourist Development, J. David Stewart. Rising on a question of privilege in the Legislature yesterday, Dr. George Desjar, minister of education, said a two-page advertisement in "The Scottish Field," sponsored by Trans-Canada Airlines, told of the attractions of Canada, but neglected to mention the Atlantic Provinces. He said there was no mention of this province's national park, the fine beaches here, and no mention of the "fine Scottish tradition of Cape Breton, New Brunswick scenery, or salmon fishing in Newfoundland." He said the advertisement was paid for by all the people of Canada on behalf of Trans-Canada Airlines but as far as the airline is concerned, the people of the Atlantic Provinces do not exist. Mr. Stewart said he will "leave no stone unturned" to bring this glaring oversight to the attention of the airline and the government of Canada.
