GENERAL TELEGRAPHIC NEWS.

LONDON, G. B., May 27.—Capt. Edward Palliser suggests, in a letter written to the Times, that Canada has, in passing the patriotic militia act, a splendid chance of manning a navy. She occupies, he says, a most important strategic position in the empire, both on the coast and inland.

BOSTON, May 27.—Over one hundred delegates representing the Building Trades unions of Suffolk and Middlesex counties, met here to-day and condemned the contract system as conducted by Mayor Mathers and Superintendent of Streets Carter. It was charged that the Metropolitan Construction Fund had awarded contracts for city work without being placed in competition with other firms.

BUREAU AVRES, May 27.—Advice received here from the state of Rio Grande do Sul are to the effect that skirmishes between the Brazilian government forces and the insurgents continue, but that no engagements of importance had occurred.

RIO DE JANEIRO, May 27.—The yellow fever, which has been epidemic here during the past three months, is now decreasing both in the number of cases and in virulence.

HARTFORD, Conn., May 27.—At midnight last night Linus N. Bart, a farmer, was awakened by a noise in his bed room. He lighted a lamp and found Ernest Driggs, a former employe, in a closet. Driggs knocked the lamp from Bart's hand, and shoved a revolver in his face.

The programme of the soiree included a visit to the cemetery of Pere La Chaise, where many of those who lost their lives in the troublous days of the commune were buried. The police, however, would allow none but those carrying wreaths to enter the cemetery, and the making of speeches was forbidden.

Not all Quacks.

Because there are quack doctors scouring the country, seeking whom they may victimize, is no reason that your own family physician, of whose skill you have had abundant proofs, is one. This rule can be applied to some remedies with great force, because they are physicians' prescriptions and have been stamped with the approval of thousands of patients as well as physicians. They cannot be considered in the light of "patent medicines, of secret remedies," as the terms are generally understood. Another prejudice among most of our people is, that a remedy is only for external use, and nine times out of ten they are correct. Johnson's Anodyne Liniment is unlike any other preparation made and called liniment, and is an exception to the rule. It was a mistake ever calling it anything but Johnson's Anodyne.

It was devised by an old family physician expressly for use in his own private practice to allay pain, prevent and cure inflammation, both internal and external, which explains why it acts so promptly to relieve and cure colds, coughs, bronchitis, fshma, catarrh, diphtheria, and all other forms of sore throat, and all these diseases being the result of acute internal inflammation. The information around each bottle is worth a much to every family. The proprietors I. S. Johnson & Co., will send a pamphlet free to any one, containing much valuable information entitled "Treatment for Diseases."

A beggar, who for many years had subsisted on charity, died a few days ago in Auxerre, France. In a trunk he left behind him the value of 1,000,000 francs and in his cellar were found 400 bottles of wine of the vintage of 1790.

A lame back, or a kink in the neck, is quickly removed by a free application of Dr. Manning's German Remedy, the universal sal pin cure. All druggists sell it.

THE MAHER-GODFREY FIGHT.

A clinch followed, and in the break away Maher again put his left on the darkey's face. The round closed in a clinch, with honors for Maher.
