

BOUQUET FOR MRS. STEWART

Mrs. J. D. Stewart smiles after receiving a bouquet of flowers from five-year-old Kathleen Hogan. Premier Matheson in the background also smiles approvingly as the little donor expertly carried out a most im-

Veterans Minister Speaks At Meeting in Montague

That the people of Canada in their own interest, should give the John Diefenbaker Government an opportunity to carry out its program—was the theme of the address given by the Hon. A. J. Brooks, Minister of Veterans Affairs, at the largely attended Progressive Conservative meeting held last night in Yeo's Theatre, Montague. He was introduced by Mr. Leslie Hunter, former member of the local Legislature, who said that Mr. Brooks was well qualified as Minister of Veterans Affairs, having served in both World Wars, and being a member of the House since 1935.

In his address, Mr. Brooks spoke on unemployment, trade and peace, which he felt were the three main issues in the coming election. He also said that there should be equal opportunities for all Canadians. In his reference to the Maritime Provinces he outlined assistance given by the present government in the Beechwood and Thermo Electric power projects.

In speaking on the unemployment situation, Mr. Brooks said that in his opinion it was a world wide condition for which neither the Liberal nor Conservative Governments were directly responsible although the Liberal Government had been warned by their advisers and had done nothing to offset the condition.

Mr. Brooks spoke of the unfair balance of trade between Canada and the United States and said that it should be more world-wide and that it was the policy of the Diefenbaker Government to establish new markets in foreign countries as well. On the subject of peace, Mr. Brooks said that John Diefenbaker was an expert on foreign affairs for many years and Canada's position in regard to peace would be just as safe in Mr. Diefenbaker's hands as in Mr. Pearson's, and that both parties were equally as strong in working for peace.

Mr. Brooks was high in his praise of the four Island members and made mention of the fact that John A. Macdonald, shows a keen interest in and works hard for ex-service men as he received more correspondence from Mr. Macdonald concerning veterans affairs than

from any other member in the House and urged strong support by the people of Kings County in view of his work in this and other fields. In closing Mr. Brooks said if John Diefenbaker, one of the most brilliant lawyers in the Dominion of Canada, a great debater and a great Parliamentarian, surrounded by some of the most outstanding young men in the country, were given credit for what had been done since June tenth, the Progressive Conservative Party, will be returned with a total of 140-50 seats.

Mr. John A. Macdonald Progressive Conservative candidate for King's, outlined the extensive public works projects for Kings County and gave a resume of legislation passed by the Diefenbaker Government since taking office.

The meeting was chaired by Mr. C. A. Shaw, president of the Kings County Progressive Conservative organization. Following the meeting, Mr. Brooks and his party were guests at Hill Side Inn, where they were served a delicious lunch by the proprietress, Mrs. Thomas Jackson.

Appointed Honorary Colonel Of No. 5 Signal Regiment

Lt.-Col. Daniel Nelson Bell, E. D. 60, of Charlottetown, has been appointed Honorary Lieutenant-Colonel of the 5th Signal Regiment, Royal Canadian Corps of Signals (Militia) in Charlottetown, according to an announcement from Halifax by Maj.-Gen. M. P. Bogert, CBE, DSC, CD, General Officer Commanding Eastern Command.

During the First World War, Lt.-Col. Bell served overseas in the ranks of the Canadian Expeditionary Force. In 1923 he was commissioned in No. 6 District Signals (Militia), later designated the 5th Signal Regiment, and served in that unit until the outbreak of hostilities in September 1939 when he joined the active force. In 1942 he was promoted to the rank of Major in the 6th Divisional Signals and served with that unit until 1945.

After being released from the active force, he was appointed to command the 5th Signal Regiment (Militia) and promoted to the rank of Lieutenant-Colonel in April 1946. He commanded the unit until June 1947 when he retired to the Supplementary Reserve.

LT.-COL. BELL

In civilian life Lt.-Col. Bell is a supervisor in the Department of Veterans Affairs in Charlottetown.

Cites Gov't Reason For Drilling Well At Parkdale

There is a reason why the Provincial Government decided to drill a well at the Smith barn in Parkdale, Premier A. W. Matheson said last night. The reference is to a letter in yesterday's Public Forum which noted the well is being drilled, and took issue with the development because Parkdale village is in the process of installing a water system and would want the government to buy the water from the village system.

The Premier explained that the government is setting up a diesel training course and is using the Smith premises and is using the Smith premises to accommodate it. We have the services of a specially trained man who is coming on loan from British Columbia through a special arrangement, he said. "We could not afford to wait until the Parkdale system was installed because we only have the man's services for six months."

There is water available at the Smith barn now the premier said. He added that because of the number of men who will be taking the course more water will be needed than is now available. SHOT TO DEATH DURBAN, South Africa (Reuters)—Two elderly sisters and their mongrel dog were found shot to death Tuesday night in their lonely home overlooking "hoodoo valley"—as it has come to be known — at Drummond, Zululand. In the valley of a Thousand Hills, Zulu legend has it, a hoodoo settles on any European who stays there for any length of time.

G. M. Munroe, secretary of the Canadian board on geographical names, said Thursday that while Sir Randle's first name has not been used for any Canadian geographical feature, his surname has. "Holmes Point, on the east coast shore of The Narrows between Lake Melville and Groswater Bay, was named after Sir Randle in 1922 by the Hydrographic Service of Canada."

The bay and lake form parts of Hamilton inlet, about one-third of the way up the Labrador coast.

B.I.S. Makes Plans For St. Patrick's Celebrations

Preparations for the St. Patrick's Day celebrations were made last night at the March meeting of the Benevolent Irish Society. The president, J. Pius Callaghan, presided.

Thomas Flynn, the patron and chairman of the shamrock committee informed the members that shamrocks would go on sale in the city March 10. The proceeds will go to the Sisters of the Precious Blood.

Chief Marshal William McCarron urged the members to be prepared for the parade which will be held on Sunday, March 16th, and asked assistance in procuring hot hats.

The society's annual smoker and initiation will be held on Monday, March 10. The Emerald Branch will be the guests of the society.

John Walsh, chairman of the ticket committee stated that the tickets for the play were obtainable from members and could be picked up at various firms in the city who were kind enough to co-operate in the society's endeavour.

J. Pius Callaghan, director of St. Patrick's play "Red Headed Pat," which will be held at the Community Centre on Saturday, March 15 in the afternoon and evening and on Monday, March 17, stated that the cast was practicing regularly and would give the patrons one of the finest Irish entertainments in years.

He said that the Ladies Auxiliary would have a sale of candy during the play, the proceeds of which would go to their charitable purposes. The children of both orphanages will be the guests of the society at the matinee on Saturday afternoon.

The president, Mr. Callaghan, will deliver his annual St. Patrick's message of greetings to the people of the Province over CFCY on the Saturday preceding St. Patrick's.

Find Explorer Has Name On Labrador Coast

OTTAWA (CP) — A British explorer who wanted his name on Canada's map—by having a Labrador lake called after him—already is commemorated on the Labrador coast, it was disclosed Thursday.

The will of Sir Randle Fynes Wilson Holme, made public in London Wednesday, disclosed a request that Canada be asked to rename Lake Winokapu in Labrador after him. Sir Randle, who died in December aged 93, asked that the lake be called Lake Randle.

He said he had been the first person to get there, in 1887, but the Royal Geographical Society recalled that evidence, including a paper by Sir Randle in 1888, indicated Hudson's Bay Company traders had reached it 20 years earlier.

G. M. Munroe, secretary of the Canadian board on geographical names, said Thursday that while Sir Randle's first name has not been used for any Canadian geographical feature, his surname has.

"Holmes Point, on the east coast shore of The Narrows between Lake Melville and Groswater Bay, was named after Sir Randle in 1922 by the Hydrographic Service of Canada."

The bay and lake form parts of Hamilton inlet, about one-third of the way up the Labrador coast.

Heater Cars For Maritimes

244 heater cars have been moved into the Maritime Provinces to meet the requirements of potato shippers, according to word received yesterday by Mr. Heath Macquarrie, Conservative candidate for Queens.

As noted in a recent release from the Potato Marketing Board office, there has been a definite shortage of cars required to move potatoes from this Province and it is hoped this situation will now be remedied.

Vote Funds To Supervise New City Playground

The Charlottetown Kinsmen Club last night voted \$400 to provide summer supervision for the new playground at Des-Brisay Crescent. The president of the club, Clive Stewart, reported on the progress being made in the project.

Club member Jack Miller was special speaker and gave an illustrated talk on his profession, interior decorating. He was introduced by co-chairman Gerald Purdy.

Reports were presented on the annual founder's day celebration by Ray Archer, on funds raising by Victor MacDonald, and on presentation of the play "Man and Superman" by the Canadian Players of Stratford, Ont., by Clive Cudmore. Jim Murray was chairman.

JAPANESE CARS Japan's exports of automobiles in 1957 were estimated at 6,600 cars, compared with 1,300 in 1956.

to William Michael Russ, eldest son of Mr. and Mrs. William Russ of Hamilton. The marriage is to take place in St. Patrick's Church, Hamilton, Ontario in the near future.

MARRIAGES

MURRAY — MacDOUGALL — On Saturday, February 15, 1958, in Calvin Presbyterian Church, Toronto, Ontario by Rev. D.G. M. Herron, Elsie Catherine, daughter of Mr. and Mrs. J. Albert MacDougall, Argyle Shore, P.E.I. To J. Stanley Murray, son of Mrs. Gordon Murray and the late Mr. Gordon Murray, Brackley Beach, P.E.I.

CARLSEN — MacLEAN — At the Grace Lutheran Church, San Diego, California January 2, 1958 by Rev. John C. Johnson Edith Jean MacLean, R. N. formerly of Upper Montague to Kenneth Glenford Carlsen of Riverside, California.

DEATHS

YEO — At his home, 186 Harvard St., Summerside on March 6, 1958, Franklin Freeman Yeo in his 83rd year. Resting at the Compton Funeral Home until Saturday noon then to Trinity United Church for service at 2.00 p.m. Interment will be in People's Cemetery.

McGRATH — On March 5, 1958, Patrick McGrath, formerly of Covehead, age 72 years. He remains resting at the Hennessy Funeral Home from where the funeral will be held on Saturday morning to St. Eugene's Church, Covehead, for Requiem High Mass at 9 o'clock. Interment in the church cemetery.

All Main Highways, Many Secondary Roads Are Open

Snowplows worked Wednesday night and yesterday in an effort to open main highways and secondary roads which were blocked by a snowstorm which hit the Province Wednesday afternoon.

The one and one half inches of snow that fell, accompanied by high winds, caused many a traffic tie-up. An I.M.T. bus was stalled in the Milton area during the late afternoon and evening, but passengers were brought to the city by cars and the bus was brought in later.

Yesterday main highways were open to Montague and to Souris and other roads in Kings County were being attended to as quickly as equipment could be released from the main highways. All roads were reported to be open in the Summerside area.

The traffic tie-up was greatest in the eastern half of the Province.

Claim Missile Invulnerable To Known Defence Measures

CHICAGO (AP) — An army scientist Tuesday night announced the development of a new ballistic guided missile which he said is "invulnerable to any known enemy counter-measures."

The new weapon, more powerful than the army's first ballistic guided missile, the Corporal, was introduced by Dr. William H. Martin, civilian director of army research and development. It is called the Sergeant.

A surface-to-surface missile like the Corporal, the Sergeant has a range of about 100 miles, Martin told reporters. The Sergeant has been tested successfully a number of times, he said, but is not yet in operational use.

Martin, in an address to the Headline Club, Chicago professional chapter of Sigma Delta Chi, professional journalistic fraternity, said the Sergeant "represents a completely new weapons system embodying late technological developments."

30 FEET LONG Martin said the Sergeant is 30 feet long and incorporates many improvements over the Corporal both in power and accuracy.

"I can tell you that it has demonstrated a very high degree of reliability. It can deliver a nuclear punch deep into enemy lines, and its extremely accurate guidance system is invulnerable to any known enemy counter-measures."

He said the new weapon is a solid-propellant rocket, has far greater mobility, can be more easily stored, and more quickly readied for action than many other weapons systems.

"It is air transportable," Martin said, "and can be rapidly emplaced and fired under all conditions of weather and terrain by a comparatively small crew."

Canadian Soldiers To Be Protected From Radiation

OTTAWA (CP)—Canadian soldiers are being issued with some means of protection against the silent, invisible killer in nuclear warfare—gamma rays.

Army headquarters said Thursday all components of the regular army will be issued with, and trained in the use of, scientific instruments to detect nuclear radiation.

Canadian Soldiers To Be Protected From Radiation

OTTAWA (CP)—Canadian soldiers are being issued with some means of protection against the silent, invisible killer in nuclear warfare—gamma rays.

Army headquarters said Thursday all components of the regular army will be issued with, and trained in the use of, scientific instruments to detect nuclear radiation.

Plotting areas of nuclear fallout and avoiding them is, at present, the only defence against battlefield radiation, the army said.

Every soldier will be issued with a small dosimeter, worn around the neck like an identity disc, which will register radiation and provide medical authorities with information on dosage received by the wearer.

Every unit will be issued with survey meters to calculate how soon a contaminated area can be entered safely.

PISTOL-LIKE SHAPE

Another instrument, shaped like a pistol, will be used to detect small amounts of radiation on clothing, equipment, food, water and the like.
