

my recollection; and yet the unparalleled effrontery to pretend it was for the purpose of protecting the Indians, is still worse!!

The Indians have exclusively possessed Lennox Island, better known as "Indian Island," ever since the first settlement of the Colony by the British—they improved it so far as they thought proper—they erected buildings—built a Church on it as *exclusively their own*, in which they might adore their Creator—regularly visited it at stated periods to perform the duties of their Religion, when a Clergyman attended—in it they interred their dead—in fine, exercised all the acts of *undisturbed ownership* on it until it was sold by the late Captain Stewart to Mr. James Yeo, for the sum, I believe, of £400 currency. Mr. Yeo, under colour of his deed, for the first time, undertook to establish his title and claim; but as his title was not recorded in the *Indian Registry* he was unable to obtain possession. Mr. Yeo entered an action against Captain Stewart, and of course recovered his money. How Mr. David Stewart got possession of it, or from whom he purchased it, or what he paid for it, or why he declined obtaining a Deed for it until this year, when he found Government inclined to purchase it, are matters with which we have nothing to do. All we care about is, that he purchased the Island for the pure love he bore the Indians, that they might enjoy it in undisturbed tranquillity, and that for so praiseworthy an act, he would be content to take the modest sum of £1500 sterling!!! Incomparable philanthropist!

NOTICE TO PLUNDERERS.

WHEREAS it has been the practice of the above gentry (falsely stating that they had permission from me) during the last Thirty years, annually, to cut Longers and Firewood on my land, consisting of 200 Acres, situate between the lands of Charles Stewart, and William Stewart, Esqrs., Lot 48, the boundaries of which are distinctly defined—and not content with cutting for their own immediate use, have thought fit to give authority to other persons to do the same, and realized a considerable profit therefrom:

This is to notify all persons that I never have given, and do not intend to give to any person, the privilege of cutting down Trees on the said property, but do hereby offer a reward to the person who shall give such information as will convict the offender or offenders of the like sum as shall be awarded by the Magistrate against the plunderer.

MOFFAT'S VEGETABLE LIFE MEDICINES.

[FRESH SUPPLY.]

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Phenix Bitters have been gratefully and publicly acknowledged by all persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The Life Medicines recommend themselves in diseases of every form and description. The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling around them; and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death: and hence the prejudice of these well informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red colour from the agency of the liver and the lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety, Langour and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scurvy, Ulcers, Invertebrate Sores, Scorbutic Eruptions and Bad Complexions, Eruptive complaints, sallow, cloudy and other disagreeable complexions, Salt Rheum, Erysipelas, common Colds and Influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful—so much so, that in the Fever and Ague Districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is, to be particular in taking the Life Medicines strictly according to the directions. It is not by a Newspaper notice, or by anything that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.

MOFFAT'S MEDICAL MANUAL; designed as a domestic guide to health. This little pamphlet, edited by W. B. Moffat, 375, Broadway, New York, has been published for the purpose of explaining more fully Mr. Moffat's theory of diseases, and will be found highly interesting to persons seeking health. It treats upon prevalent diseases, and the cases thereof. Price, 25 cents (1s. 6d.)—for sale by Mr. Moffat's agents generally.

THE MONTHLY REVIEW,

DEVOTED TO THE CIVIL GOVERNMENT OF THE CANADAS.

THE Canadas have been united under an amended constitution—the foundation has been laid for an improved system of government. The success of that constitution will greatly depend upon a correct understanding and a just appreciation of its principles; and the advantages of the new system of government will be essentially influenced by the views and feelings of the inhabitants themselves. At a period so eventful, and under circumstances so peculiar, it is of the utmost importance that the principles of the constitution should be carefully analysed, and dispassionately expounded; that the relations between this and the mother country, and the mutual advantages connected with those relations, should be explained and illustrated; that the duties of the several branches of the government, and the different classes of the community, stated and enforced; the natural, commercial, and agricultural resources and interests of these provinces investigated and developed; a comprehensive and efficient system of education discussed and established; the subject of emigration practically considered in proportion to its vast importance; the various measures adopted to promote the welfare of all classes of the people originated and advocated; and a taste for intellectual improvement and refinement encouraged and cultivated.

Such are the objects of the Monthly Review; objects which it is intended to pursue with views and feelings as unbiased and comprehensive as those of the Government itself. Such a publication is a desideratum in the Canadas. The subjects to which its pages will be devoted require, at the present juncture, a more elaborate discussion than is suitable to the columns of a newspaper, and ought to be embodied in a convenient and permanent form. The topics discussed, and the subjects introduced, will become more varied as the immediate objects which have called the publication into existence shall have been accomplished. A monthly retrospect of public affairs, containing notices and observations respecting the measures of the Government, and the leading events and questions of the day, will appear in each number.

The Monthly Review will, for the present, be conducted under the supervision of John Waudby, Esq., late Editor of the Upper Canada Herald, assisted by several able writers in the two Canadas. A general invitation is also given to gentlemen of talents and acquirements to contribute to the columns of the Review. Each number will contain from 60 to 80 pages, royal octavo, double columns, small type, and fine English paper. Each volume will contain not far from seven hundred pages, and furnish about as much reading matter as is contained in three common octavo volumes of five hundred pages each.

Terms—Price, 20s. per year, including postage, payable in advance. As the work is undertaken with no view to emolument, it will be enlarged and improved in proportion to the amount of available subscriptions. It will not be sent to any Subscriber without payment of six months' subscription in advance. No subscription received for less than six months. All Post Masters are respectfully requested to act as Agents. Any Post Master, or other person, forwarding the names of six Subscribers, with the subscriptions, will receive a copy gratis, during the same period. The First Number will appear on the first day of January, 1841. All communications must be addressed to the Editor of the Monthly Review, Toronto, and be post paid.

The Editor is permitted and authorised to add, that the Monthly Review has been undertaken with the sanction, and under the patronage of His Excellency the Governor General; although the writers alone will be responsible for the matter which it may contain.
Toronto, Nov. 4, 1840.

THE COLONIAL HERALD.

(New Series.)

THE Publishers of the COLONIAL HERALD, intending to enlarge and otherwise improve their Newspaper at the commencement of the New Year, respectfully request, that ALL PERSONS indebted to them will immediately settle their respective accounts, in order that they may be enabled satisfactorily to meet the increased and, otherwise, ruinous expenses which will necessarily be incurred in carrying their intentions into effect. They also beg leave gratefully to acknowledge the very liberal support they have hitherto received from the public generally, and respectfully solicit a continuance of that support, hoping, by their unwearied attention to the public interest, and the independence of their political principles, to give increasing satisfaction.

The NEW SERIES of the COLONIAL HERALD, although it will contain a much greater quantity of matter than the old or present Series, will be published on the SAME TERMS as the latter, viz.—Fifteen Shillings per annum, P. E. Island currency, payable half yearly in advance. In every case where these terms are not complied with, the paper will necessarily be discontinued. The price of the paper being so low, and the circulation, when compared with that of the generality of Newspapers in the neighbouring Colonies, so very limited, it is absolutely necessary that this rule should be rigidly adhered to.

Persons intending to subscribe for the New Series of the *Herald*, on immediately paying one year's subscription in advance, will be supplied with the remaining Numbers of the current year gratis; and any person in the country or elsewhere willing to act as Agents, will be supplied with one copy gratis, for every Ten Subscribers they may procure, and for the regular payment of whose subscriptions they will become responsible.
