

THE DAILY EXAMINER.

MAY 23, 1893.

Notes and Comments.

This was Arbor Day in the city schools. The proceedings were of a very interesting character.

The Empire thinks that when Count Mercier gets up at the approaching Reform convention and moves a resolution denouncing the wicked Tories and lauding pure government, the professional humorists will feel that a strong competitor has appeared on the scene.

According to a recent despatch from Ottawa a comparison of certain articles in the trade returns of Canada and the United States shows that our returns credit our neighbors with having more from us than their returns acknowledge to have been purchased. Thus of the Canadian produce valued at \$6,750,000, the United States returns only acknowledge \$5,300,000. The impression at the customs department is that quantities of Canadian produce returned as exported to the United States are really destined for Europe.

The royal commission of inquiry into prohibition, which was organized in 1891 and is still pursuing its investigations, may prove to be the first of many similar commissions. It will at least have one initiator if the United States Presbyterians have their way. The report on co-operation with other churches, which is likely to be adopted by the general assembly, favors the establishment by congress of an impartial commission of inquiry concerning the liquor traffic.

The value of the exports of merchandise from the United States during the twelve months ending April 30, 1893, was \$248,594,427, a fall during the corresponding period of the preceding year \$1,811,343,173, a decrease of 162,748,746. The value of imports during the same period was \$226,151,988 and \$832,145,371, an increase of \$64,006,617. During the twelve months ended April 30, the exports of gold amounted to \$110,039,026, and the imports \$19,541,327, an excess of exports of \$90,497,699. During the corresponding twelve months last year the exports of gold amounted to \$75,624,762, and the imports to \$49,109,853, an excess of exports of \$26,504,939.

The following suggestions of the British Parliamentary Debates committee will likely be of interest to Canadian parliamentarians: "That all speeches should be given fully—not necessarily verbatim—and in the first person; that the debates should be issued as an official publication, the stationary office being empowered to make arrangements for the reporting and printing of the speeches; that the debates should be circulated with the dates and proceedings on the second morning after the delivery of the speeches in the House, and that the practice of furnishing members with proofs of their speeches for revision should be continued."

R. P. Porter, superintendent of the United States census, has just issued a bulletin containing statistics relating to farms, houses and mortgages in the State of Connecticut. The real estate mortgage movement from 1880 to 1890 was a progressive one, beginning with a debt of \$9,156,506 and ending with one of \$17,703,325. During this period a debt of \$138,483,732 was incurred, represented by 90,758 mortgages—19.46 per cent. of the debt was on acre tracts and 80.54 per cent was on lots.

Football.

The Crescents have been hard at practice for the past few weeks preparatory to their return match with the Pictou team. Last spring, it will be remembered, the Crescents visited Pictou and played a draw, neither side scoring a point. A return match had been arranged for last Thanksgiving Day, but failed to materialize. No doubt tomorrow's match will be a hard fought one, as both teams are well matched, and a lively and well-contested game may be anticipated. The personnel of the Crescents team will probably be as follows:

Full Back—Fred Kennedy. Half Backs—James Rundle (Capt), Addison Miller, Ed Trisnor. Quarter Backs—A. Leigh, L. McMillan. Forwards—A. Gaudet, F. Handrahan, W. Edmonds, F. Wright, D. McDonald, C. Acorn, R. H. Campbell, J. McQuillan, J. McDonald.

700 yards all wool colored delaines, suitable for summer wear. We will clear parties at 25 cents per yard. They are regularly worth 41 cents. Call to-day and secure a bargain. Ask to see our 10 cent dress goods.—James Paton & Co.

ARBOR DAY IN THE SCHOOLS.

Upper Prince, West Kent and Queen Square Schools

Celebrate Arbor Day in a Becoming Manner.

The pupils of Upper Prince Street School planted a number of trees this morning in celebration of Arbor Day. After the work was concluded the classes were gathered together in the Hall, where His Worship the Mayor presided during the rendering of the following programme:

- Chorus—"Beautiful May"
Essay—"The Trees"
Winnie Cotton
Simultaneous Reading—"Arbor Day"
The Octo"
Miss McKinnon's Dep't
Recitation—"A Hymn"
H. Dawson
Kindergarten—"Dance"
Miss Wryatt's Dep't
Recitation—"Song of the Chestnut Tree"
Alicie Boreham
Recitation—"The Echo"
Concert Recitation—"Primary Department"
Recitation—"In May"
Kathleen Fitzgerald
Song—"Our Lives are as Happy"
Infant Classes
Recitation—"Gladness of Nature"
Recitation—"The Heart of the Tree"
James Williams
Recitation—"The Heart of the Tree"
James Williams
Chorus—"Hearts of Oak"
Number of Boys Reading—Indignation Meeting. John L. Robinson.

These most worthy of honorable mention were solo by Gower McLean and the recitations by Somerled McLeod and Ernest Mitchell. Dr. McLeod then gave the boys a very practical address on hygiene, showing the importance of keeping the skin clean. Touch, he said, was the sense through which all the others could be cultivated. He showed that the growth of boys was slow and gradual, like that of trees, and it is only by slow but continuous growth that a boy can become a great man. A noble tree is like a good and noble man. Even Christ compared himself to a tree.

The boys of Queen Square School assembled this morning at an early hour with glad faces and rejoicing and began with great delight the work of planting trees in front of the school and of decorating the surroundings, the work being done tastefully and a certain number of trees planted directed by the Principal of the school, Mr. McSwain. All the boys assembled in their hall and gave a grand and most agreeable display of their musical and literary talents. A fair number of parents, together with all the teachers of the different departments gladly assisted at the proceedings in the Hall. Boys from each of the departments under the guidance and instruction of their teachers, executed their distinct parts in such a manner as to elicit from the audience prolonged laughter and clapping. The manner in which the boys, considering the age and size of many, delivered and entered into the spirit of the different exercises shows the interest taken in them by their teachers. The musical part of the proceedings was highly commendable and the harmony that existed all through in so many young and sweet voices shows that the fine arts are not disregarded in Queen Square School.

Mr. McCourt, Revs. P. J. Hugin and A. J. McAnby gave appropriate addresses, expressing their appreciation of such a day from various standpoints. They showed the utility of trees, and expressed their desire of having this more clearly shown to the children. "God Save the Queen" was then sung in the good old-fashioned way.

Death from Natural Causes.

EX-MANAGER SWAN, OF THE STOCK FARM, FOUND DEAD.

JAMES ROBERT SWAN was found dead in the Carey barn on the Stock Farm at an early hour this morning. Swan was employed on the Stock Farm for about twenty six years past, and after Mr. Bell was dismissed he was made manager, only to be in turn dismissed by the Government during the late session of the Legislature. He had packed up all his furniture and intended to move into town this morning. Yesterday afternoon, after packing up his household effects, he left his house to visit some of his neighbors. When last seen alive he was crossing the fields in the direction of the barn where his lifeless body was found.

As Swan did not return home during the night, his wife and family became alarmed, and two of the employees on the Farm—William Welsh and John Andrews—went in search of him. They searched from 10 o'clock until 3 this morning, but failed to find any trace of him. At 4 o'clock they resumed the search, and half an hour later they found the body of Swan in the barn as above stated. The barn is about half a mile from the farm house. The body was lying on its back on a pile of hay, the face only being exposed. There were no marks of violence about the body. Swan had lately been suffering from heart disease, and since his dismissal by the Government it is said that he has worried considerably. He was on good terms with everyone employed on the farm. He was about as usual yesterday, and there is no suspicion that he committed suicide.

The forenoon an inquest was held before Dr. Conroy, coroner, and a jury composed of William McPhail (foreman), Benj. E. Wright, Francis Andrews, Hector McLeod, W. D. Coffin, John Cook, and John D. Matheson. After taking the evidence of William Welsh, John Swan (son of the deceased), and Emma Swan (wife of the deceased), the jury returned the following verdict:

"That the deceased, James Robert Swan, is the opinion of the jury, from the evidence given, came to his death from natural causes."

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

BOWELL AND FOSTER

Interviewed in Halifax.

HALIFAX, May 23. Messrs. Bowell and Foster met the business men of this city yesterday and had a number of interviews on various lines of industry. Suggested tariff changes were discussed, and satisfactory conferences took place. Messrs. Daly and Angers were also here. Late in the evening they left on the special for New Glasgow and Pictou. They spend the morning looking over the steel works at Trenton. Tuesday afternoon they leave New Glasgow for Quebec direct.

The Heathen Chinese.

SAN FRANCISCO, May 23. The Chinese quarter is under unusually heavy guard. There have been fears of an outbreak among High Binders since the decision upholding the Gray law was announced, but nothing happened to justify them until yesterday when the dead body of a Chinaman was found in the harbor. He had been murdered by High Binders for refusing to pay the tribute to the steel works at Trenton. Tuesday afternoon they leave New Glasgow for Quebec direct.

American Schooner Seized.

OTTAWA, May 23. Captain Knowlton, of the fishery protective service, to-day reported to the Department of Customs the seizure at Magdalen Islands of the American fishing schooner Lawrence A. Munroe. This is one of the vessels which have been listed for seizure for having in May last purchased supplies at Canoe without having a modus vivendi license and not reporting to customs. There are a number of Yankee vessels in the same category.

Immense Cattle Shipments.

MONTREAL, May 23. Eleven steamers with 6,649 cattle left Montreal last week, being over two thousand more than the previous week. The value of last week's shipment will be over half a million dollars. Eight steamers will load with live stock between now and Saturday.

Drowning Accident.

KINGSTON, Ont., May 23. Dr. McDonald, graduate of the Royal Medical College, was drowned on Catalpa Bay yesterday. He and four companions had been previously upset from a boat and rescued, but McDonald returned to pick up his derelict boat, and was drowned.

Clarke Wallace and Home Rule

OTTAWA, May 23. Clarke Wallace, Controller of Customs, was invited to this evening to address a meeting of Anti-Home Rulers. He will reply to the speech made by Mr. Costigan at the meeting held last Thursday evening.

Home Rule Demonstration.

LONDON, May 23. About 250,000 people attended the demonstration in Hyde Park yesterday support Gladstone's Irish Home Rule Bill. Great enthusiasm prevailed.

Peter Lynch, Q. C. Dead.

HALIFAX, May 23. Peter Lynch, Q. C., of this city, is dead.

Y. M. C. A.

Lakeland Wilkes.

We call attention to day to the advertisement of W. S. McKie's finely bred Wilkes stallion Lakeland Wilkes. This magnificent animal is attracting the attention of all lovers of a good horse. As an individual, he is not excelled by any horse on the island. But to see him will justify this assertion: His breeding, on the side of both sire and dam, is the best, carrying in his veins the most fashionable blood of the day. His sire, General Hancock, 1165, is fast proving himself one of the best sons of the great George Wilkes, 222, he having the credit of adding to his already high laurels the fame of siring the world's half-mile champion pacer Victor Mazzone, 1051. (This horse has gone quarters in the marvellous time of 29 1/2 seconds, and is expected to smash all records in his two-year-old form.) His dam Leguna is by Lakeland Abdallah, a full brother to Harold, (sire of Maud S., 2082) and Lord Russell (sire of Kremling, 2074). It would be hard to get more royal breeding. Now if the farmers want to raise good-sized stylish carriage horses (a kind that will always sell well) with the best chance on the island to get 2,300 performers into the bargain, call and see Lakeland Wilkes at Robert Woods' stable (lately occupied by Owen Trainor) on King Street. Farmers, call and see him anyway. Robert will be proud to show him, and he's worth giving a couple of blocks to see.

A FINE SHOW.—For the trouble of walking into the shop, any of our citizens who feel so disposed may look at one of the finest shows of Dry Goods ever exhibited in Charlottetown. We allude to the display now being made in every department of the large store occupied by James Paton & Co. Up stairs and down stairs the rooms are beautifully decorated and the goods displayed most tastefully. In the Carpet Department a dozen surprises await the visitor, a suite of rooms being laid off and carpeted and furnished with charming effect. Everybody should make a point of visiting this first-class establishment to-night. All are made welcome, and those who go will be delighted with what is to be seen.

Extract from The Guardian of May 22nd.

SUCCESS.—James Paton & Co.'s show on Saturday was a complete success. Hundreds and hundreds visited the store during the day and evening, and were immensely well pleased with what they saw—and bought. The display of Dry Goods was second to none ever shown here, and the Carpet Department was the centre of attraction. We will not attempt to describe it here, but will simply say that it was magnificent and well worth a visit. The Show will be continued to-day and to-morrow.

The above Show will be kept open until TUESDAY EVENING. Visit it—it will repay you.

JAMES PATON & CO.

Charlottetown, May 22, 1893.

BELKAISER, 18197,

Grandson of George Wilkes, 222,

Is a seal brown horse, three years old, about 15 1/2 hands and 2000 pounds in weight, bred by the well-known horseman, Dr. J. W. D. Y., New York. His sire is Kaiser, 2300, record 2 28 1/2 in a race (foaled in 1882), sire of 3 in list, by George Wilkes 222, sire of 79 in 230 list, of 83 sons sires of 807, and 51 daughters dams of 65. George Wilkes stands at the head of over 1200 performers in 230 list, and made only nine seasons in the stud.

The first dam is by Bellewood, 371, by Woodford Mambrino 221 1/2 (sire of dam of Kremling, 2074) out of Belle, dam of Belmont, sire of 100 from 2082 to 230. Second dam by Greyhound 231, by the sire of Ednan Allan 225, sire of Daniel Lambert, sire of 36. Greyhound's dam produced two with records of 2:24 and 2:25. Dictator, 113, sired the dam of Belkaiser's sire; he is also sire of the dam of Nancy Hanks 204, the world's champion trotter. The other champions are Kremling 207 1/2, champion trotter; Martha Wilkes, champion race record 2:08 1/2; Moquette 210, champion four year old stallion, and Silicon 215 1/2, champion two year-old race record. The crosses close up in Belkaiser's pedigree combine the leading blood lines in the pedigrees of these champions of the turf. Belkaiser's is the Wilkes-Mambrino cross—the most successful Wilkes cross. A few of the great sires bred this way are Red Wilkes, sire of 79; Onward, 64; Alcantara, 51; Alypone, 31 (sire of Martha Wilkes 208); Guy Wilkes, sire of 23, including Sable Wilkes 218, sire of F. S. dam 229 1/2, first yearling trotter in 230 list; Jay Bird, sire of 25, including Allerton 209 1/2, and Eagle Bird 221, sire of Monbars 211 (3 years). Eagle Bird was foaled in 1882, when his sire was only four years old. Another is Simmons (foaled in 1879), sire of Greenleaf 210 1/2, New York Central 213, Simmoolon 213, Coralloid 214 1/2, and 25 others.

A premium of \$150 will be given to the owner of the first trotter by Belkaiser credited with an official record in table of 230 trotters, provided horse is living and in hands of his present owners. Although making this offer, the service fee has been placed at the low figure of \$25, to be settled by note if not paid at time of first service. Usual return privilege season of 1894 if mare proves not in foal. Catalogue giving full particulars of pedigree, etc., furnished on application. Breeders will do well to call at stables of Mr. J. D. McLeod, near new Masonic Temple, where horse can be seen in charge of George Williams. dy 21, wy 4w—may 23
