

**Growing Crops in Great Britain.**

The *Mark Lane Express*, in its review of the British corn trade for the past week, says: "With the exception of a few light showers the weather has been dry and seasonable. The growing crops have made satisfactory progress in spite of the comparatively low temperature which prevailed after sundown. Blooming time having passed under favorable conditions which now looks strong and healthy. What ears in certain districts are complained of as puny compared with the luxuriant growth of the rest of the plant, and not well filled with grain. Although a dry atmosphere and sunshine have done wonders in improving the prospects of the crop, it should not cause surprise if the yield on threshing reveals a deficiency, as the excessive moisture from which the plant suffered probably left some disease behind it. In Scotland the weather has been seasonable. The cereal crop is maturing satisfactorily. Barley does not seem to have sustained so much injury as in England. Oats are sadly thinned by grub. Similar advices have been received from Ireland, but it is very disheartening to find that disease has broken out in the potatoes, to which the earlier sort have already succumbed.

According to a recently published parliamentary return the increase in the wealth of Great Britain during the twelve years ending with June, 1867, as indicated by taxable incomes, is remarkable. The assessed values of all kinds in 1864-5 amounted to £330,580,729; in 1866-7 these figures had grown to £490,344,906. The increase is said to be most marked in the assessment on employments and industrial establishments and appliances. It has to be taken into account that of late years exemptions and abatements were considerably extended, so that the actual increase would be really greater than the apparent increase. In the last two years there has been a falling off, owing to various causes, not very difficult to discover.

A cable despatch of Saturday to the New York press, quotes the London *Economist* of that date as follows:—"The stock markets, despite the tendency to relapse on various occasions during the week, are generally favorable. Home and foreign governments advanced in many instances, and some Turkish issues were especially benefitted by the news of the Anglo-Turkish alliance, the publication of which on Tuesday had a decidedly favorable effect, but the market being feverish, suffered a relapse on Wednesday; the changes on Thursday were irregular.

**EXAMINATION FOR SCHOLARSHIPS**

IN CONNECTION WITH THE **Prince of Wales College.**  
1st and 2nd August.

Open to all Candidates, 18 years of age and under, except to those from Charlottetown.

EDWARD MANNING,  
Supt of Education.

**FOR SALE,**

**Valuable Freehold Farms and Building Lots.**  
near Winsloe Station, Malpeque Road, five miles from Charlottetown.

THE subscriber has been instructed to offer for sale that splendid Property known as **Kenwith**, formerly the residence of the late Hon. J. M. Hall. The Farm consists of about Six Hundred Acres of excellent land, a large portion of which is cleared and has been for several years in pasture; the rest is covered with firewood and fencing materials. The substantial stone Dwelling House commands a charming view of the country, and is surrounded by beautiful plantations and a park-like farm. It would make a delightful residence for a gentleman and being only five minutes' walk from the station, affords such an opportunity to farm—and yet be within easy distance of Ch'town—as does not often occur.

The property has frontages on the Upper and Lower Malpeque Roads, old North River Road and North River, and will be sold in lots to suit purchasers. For further particulars apply to

The Greatest Medical Discovery since the Creation of Man, or since the Commencement of the Christian Era.

There never has been a time when the healing of so many different diseases has been caused by outward application as the present. It is an undisputed fact that over half of the entire population of the globe resort to the use of ordinary plasters.

DR. MELVIN'S CAPSICUM POROUS PLASTERS are acknowledged by all who have used them, to act quicker than any other plaster they ever before tried, and that one of these plasters will do more real service than a hundred of the ordinary kind. All other plasters are slow of action, and require to be worn continually to effect a cure; but with these it is entirely different; the instant one is applied the patient will feel its effect.

Physicians in all ages have thoroughly tested and well know the effect of Capsicum; and it has always been more or less used as a medical agent for an outward application; but it is only of very recent date that its advantages in a porous plaster have been discovered. Being, however, convinced of the wonderful cures effected by DR. MELVIN'S CAPSICUM POROUS PLASTERS, they now actually prescribe them, in their practice, for such diseases as rheumatism, pain in the side and back, and all such cases as have required the use of plasters or liniment. After you have tried other plasters and liniments, and they have failed, and you want a certain cure, ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER. You can hardly believe your own convictions of its wonderful effects. Although powerful and quick in its action, you can rely on its safety for the most delicate person to wear, as it is free from lead and other poisonous material commonly used in the manufacture of ordinary plasters. One trial is a sufficient guarantee of its merits, and one plaster will sell hundreds to your friends. Ask your druggist for DR. MELVIN'S CAPSICUM POROUS PLASTER, and take no other; or, on receipt of 25 cents for one, \$1 for five, or \$2 for a dozen, they will be mailed, post paid, to any address in the United States or Canada.
