## A SENSATIONAL CHARGE MADE

### Against a Former P. E. Islander.

REV. W. T. McLEOD OF BROCKTON, MASS.

Action taken by the Boston Presbytery

[SPECIAL TO THE EXAMINER.]

BROCKTON, May 9.—The judicial commission of the Boston Presbytery met yesterday and investigated the charges against the Rev. Wm. T. McLeod, who was temporarily pastor, until a few weeks ago, over the Presbyterian Church here.

This commission decided to suspend Mr. McLeod from the gospel ministry until satisfactory proof of his innocence was presented.

McLeod is understood to be in Charlottetown, P. E. Island his former home, and likewise it is stated that he has prepared for a hasty departure from that city.

The charges against McLeod have been in the hands of the police for some time and a warrant for his arrest was issued at the time the case was first called to their attention, and before the church folk had taken action.

The allegations are very serious and elaborate.

When reports of certain acts of the clergyman first came out, much commotion was created, the definite result being a division of the membership of the church over which McLeod was presiding pastor. The Board of Elders in the church first brought the charges to McLeod's notice and asked for his resignation which he tendered them.

Then the church by a vote of 44 to 18 refused to accept it, but as McLeod was not settled pastor the action of the elders was irrevocable.

For this action about eighty members of the church seceded and formed an independent presbyterian church.

Those members claimed that their action was not through sympathy or friendship for McLeod, but because the government of the church, through the elders, was unsatisfactory and they were allowed no part in the proceedings in which McLeod was called to account.

The enquiry yesterday was held behind closed doors, but among the witnesses called were some of those upon whose statement the police obtained a warrant for McLeod but too late to secure his arrest.

## PROVINCIAL LEGISLATURE.

MONDAY, May 8.

House met at 4.45. Mr. Campbell asked the Commissioner of Public Works what action if any, has been taken to repair the bridge at Victoria, Crapaud, that was destroyed by the storms of last summer; if no action has been taken what course do the Government intend to pursue to have that very important public work repaired.

Hon. Mr. McLean said it was contemplated to have a steel bridge erected there, and they had received several tenders. He hoped in the near future to see a good permanent structure there.

Mr. Shaw asked the Commissioner of Public Works to table all plans received by the Government of this Province for a new P. W. College and the names of the persons furnishing said plans respectively, a copy of the tenders received for the construction of said college, said copy to state respectively the plan on which each tender was made, and the tender accepted; a copy of the specification and agreement entered into with the Government and the contractor, the amount, if any, agreed upon by the Government and contractor in excess of the tender accepted, the changes or alterations from plan accepted, if any; and the amount agreed upon if any, between the Government and contractor in consideration of said change or alteration; and also a statement of all further changes or alterations proposed to be made in construction or material in connection with said College; and all papers and correspondence in connection with the contract and awarding of the same, and also in connection with any changes or alterations made or proposed to be made in connection with the construction of said college.

Hon. Mr. McLan promised all available information at an early date. There were no changes contemplated at present but if, during the progress of the work, changes were deemed necessary in the interests of the public they would be made.

Mr. Shaw asked the Commissioner of Public Works to table a copy of all tenders for supplying with meat and flour the Hospital for the Insane and Poor House for the year 1898 respectively, and the names of the tenders accepted.

Hon. Mr. McLean tabled the information asked for.

Hon. Mr. Rogers moved the second reading of the bill amending the Act of Incorporation of the City of Charlottetown by providing for the better inspection of milk, which cattle and dairy premises. The motion carried, and Mr. Fortes was called to the chair. Progress was reported.

Mr. D. A. McKinnon introduced a bill incorporating the Montague Electric Company, which was referred to the private bills committee.

On motion of Hon. Mr. McLaughlin the bill incorporating the Mount Stewart Forester's Hall Company was read a third time and passed.

The Budget Speech.

At the evening session, Hon Mr. Farquharson moved that the House go into committee of supply. In doing so he paid a tribute to the intelligence of the Opposition, and thanked them for their consideration. He then proceeded to deal with the matter of emigration, pointing out that our people are taught to believe they cannot get along here. Islanders are to be found in the Yukon. That country has brought down wrath upon the Government because every man in it did not do exactly right. But we cannot all do right, even here. The Government are to be commended for establishing good government in the Yukon. He thought we should be in a position to keep our people at home. We are slow-going. We do not branch out into industries or manufacturing. The present Government have had a little more enterprise than their predecessors; and if we succeed in carrying out our legislation the people will get what they want and our reward will be sure. Look at our butter, cheese, lobsters and other products. We have great capabilities, yet the people are leaving us. We must do something to keep them at home. We sent a delegate across the Atlantic, and his report was before the House. The delegate did his work well and the cost of the mission was trifling. The Premier then spoke of the recent visit to our Province of Professors Robertson and Macoun and the benefit the mission was to our people. He attended all the meetings they held and the large gatherings were delighted. Professor Robertson spoke highly of the intelligence of our people, saying they were equal to those of the most advanced parts of the Dominion. But the Opposition say we are only following in the steps of our predecessors. Canada has become a nation under the present Administration. Some 6000 or 8000 people have come into Canada this winter. The great Northwest is being populated. The Doukabor, the latest settlers, are a good people.

Hon. Mr. Farquharson then proceeded to compare the present trade of Canada with the United States and the trade between the two countries a few years ago. It is only a few years since there was almost a commercial war brought about by the Conservative government through

## TROUBLE WITH THE TRANVAALS

### Is the Expectation of the Hour

THE MATTER IS ASSUMING MUCH IMPORTANCE

Mr. Chamberlain Hastily Leaves London.

[SPECIAL TO THE EXAMINER.]

LONDON, May 9.—The crisis in the Transvaal is beginning to overshadow all other topics of public interest. There is an uneasy feeling in official circles.

Despite the fact that Mr. Chamberlain is not known to suffer from any disposition he left town suddenly, an unusual thing for him to do.

His private secretary strictly concealed his destination.

The Secretary's absence causes no end of speculation in parliamentary circles. The general opinion is that the country has reached the limit of tolerance of Oom Paul's diplomacy. It is felt that something must be done to terminate the present unbearable situation.

The Canadian Commons.

[SPECIAL TO THE EXAMINER.]

OTTAWA, May 9.—It was private members day yesterday.

Sir Charles Tupper reviewed the protest respecting the action of Lord Aberdeen in refusing to carry out various appointments made by the late Government after its defeat, money for papers on the subject.

The motion for the papers passed, but it was intimated that only such papers as were not recent would be brought down.
