

de fro y saliva, which coming into contact with the affected part of the throat, probably occasioned the most violent of the paroxysms—the unearthly glance and cry previous to a convulsion, resembling the quickly retiring, shrill, and hopeless screech under a sudden and coming catastrophe, just too as if the mind saw something which you did not see; and the well-known aversion to water and air. The boy could not partake of any liquid presented. He burned for thirst, but he never could swallow.

FRENCH OPINIONS ON THE ABEDIATION OF THE QUEEN REGENT OF SPAIN.—With Christina disappears the alliance between France and Spain. Anarchy, triumphant at Madrid, is for constitutional France an enemy not less implacable than Don Carlos would have been. Thus, in six months, M. Thiers has broken off our two most intimate alliances—those of England and Spain.—*La Presse*.—The punishment reserved by Providence for this guilty Princess has been long delayed. She unchained revolution in the Peninsula, and resisted the legitimate heir, in order to place the crown upon the head of her child, whom she now leaves as a mere instrument and a hostage in the hands of the factions, and whom she can neither counsel nor protect. One usurpation, at least, is punished.—*La France*. Spain is in a state of revolution. Whether this revolution was necessary or not is the question. We shall return to this point, but we must not forget that Espartero in his manifesto declared that the Regency of Queen Christina was sacred, and that the ambassadors have declared that they quit Spain the moment the Regency should be attacked. If they should withdraw, and Espartero, placed between the alternative of his popularity and his declaration, should remain faithful to the letter, what authority will then be in Spain?—where will be its alliances and its support?—*Le Temps*.

THE REMAINS OF NAPOLEON.—The expense of transporting the Emperor's remains from Courbevoie to the Hotel des Invalides is estimated at several millions of francs. Immense preparations are on foot. The vessel carrying the coffin will arrive at Courbevoie. A triumphal arch will be there erected to receive the Imperial remains, and this ceremony will take place with the utmost pomp. The cortege will enter Paris by the Barriere de l'Etoile and the Champs Elysees. Benches will be erected on the line of passage, right and left, and covered with magnificent draperies. In front of the Invalides, a new road will be opened to receive the procession, and for this purpose a number of trees will come down. To aid the perspective, a flying bridge will be constructed, and will afterwards be taken down. The immense Court of the Invalides will be entirely covered, and hung with velvet of a violet colour, (the characteristic hue of Royal mourning), and will likewise be transformed, by the aid of a vast number of wax-lights, into an enormous *chappelle ardente*. Twenty-four white horses of an excellent breed have been imported from Germany, and by these the hearse will be drawn.

THE COLONIAL HERALD.

SATURDAY, DECEMBER 5, 1840.

The Mails for Nova Scotia, &c. were dispatched on Tuesday last, for the first time this season, by the Winter route. Judging from the state of the weather, for the last few days, we were led to expect the return Mail last night or early this morning. In this, however, we have been disappointed, as the couriers have not yet (4 p. m.) made their appearance.

MECHANICS' INSTITUTE.—This Institution commenced its Third Session last Wednesday evening, at the National Schoolhouse, which has been granted to the use of the Institute this winter, by the kind permission of His Excellency the Lieut. Governor. The President took the Chair, and opened the session by delivering an extemporaneous address upon the present and future prospects of the Institute. He congratulated them upon the continued existence of the Institute—upon the increasing value of its property—upon the improvement in the change of their lecture room, by the kindness of His Excellency, their respected Patron—and upon their prospects generally—and urged them to persevere, one and all, in the useful and instructive work. The Rev. James Waddell then read, to a crowded audience, an excellent lecture upon Light and Vision. In discussing it, he explained the principles of reflection and refraction; he discussed upon the different kinds of lenses, and upon colors—explained the uses of concave and convex glasses—enlarged upon the different parts of the eye, its humours and its membranes—and gave his subject, generally, a most popular view, which rendered it highly interesting to a mixed audience.

On Wednesday evening, the 16th inst. the President (Charles Young, Esq.), will deliver a lecture upon *Elocution*, accompanied with recitations and select readings, both serious and comic, in illustration of his remarks. As it will be the last lecture for the present year, the Committee have resolved that the doors of the Institute be thrown open to the public for that evening.—*Com.*

HIGHLAND SOCIETY OF PRINCE EDWARD ISLAND.—The regular quarterly meeting of this Society took place on Monday evening last, and which was the anniversary of St. Andrew. After the business of the meeting was over, the members sat down to a most sumptuous Supper; prepared in Mrs. Jones's usual excellent style. The Hon. the President, Donald McDonald, was in the Chair, assisted by Charles Young, Esq.; a number of Toasts were drunk in flowing bumpers, and the happy party broke up as the sma' hours approached, in perfect harmony. The room was handsomely decorated with festoons of tartan, with a transparency of St. Andrew, with a portrait of the Queen and Prince Albert, and with the Banners of the Society.—*Gaz.*

CIRCULATING LIBRARY.—On Sunday, the 29th ult. the sum of £31 11s. 3d. was collected in the Roman Catholic Church in this town, for the purpose of purchasing pious and religious books, to be given out to the poorer classes of this mission. Any person desirous of aiding the above cause, will have an opportunity of doing so, by sending their subscriptions to the Rev. Mr. Reynolds.—*Gaz.*

We are informed that, a few days since, the bodies of nine seamen came on shore about five miles to the Eastward of Tignish. A ship's boat was also picked up about the same time at Tignish.

On the night of Thursday, the 19th inst., a small schooner of 30 tons, called the *Caledonia*, belonging to Donald Montgomery, Esq. New London, was driven on shore, at Egmont Bay, in a gale of wind, and has since become a total wreck. Her cargo, consisting of Salt, we understand, is nearly all lost.

On the same night, a Brig, timber laden, went on shore at the West Cape. Total wreck.
The *Harriet*, M'Kay, of New London, sailed from that place for Miramichi, with a cargo of barley, oatmeal, &c. on Monday last, but was compelled, by stress of weather, to put back about 10 o'clock the same night. She got inside the bar in safety, and being unable to hoist her mainsail in order to get into a more secure berth, was compelled to drop anchor. The storm increasing, she parted her chain cable, and was driven ashore on the flats on the East side of the harbour, and is, we understand, a total wreck. The crew were saved from the vessel, with some difficulty, by a boat from the shore.

The schooner *Margaret*, Paulet Le Clerc, master, belonging to this Island, sailed from Miramichi, for Richibucto, on the 29th ult. with a cargo of flour, iron, &c. and put into Bedeque on Tuesday night last, having been unable, from stress of weather, to make Richibucto, and is now frozen in. The master, and one of the hands, we understand, are severely frost bitten. The cargo will be landed as soon as possible.

On Wednesday night last, the *Countess of Westmorland*, Thomas Nisbett master, belonging to Mr. John Davis, jun. bound to Cork, having mis-stayed, while beating out between Governor's and St. Peter's Islands, struck on the S. W. reef of Governor's Island, wind blowing S. S. W. It is very doubtful whether she will be got off.

The *Victoria*, Fotheringham, for Liverpool, and the *Ocean Queen*, Roberts, for Ipswich, sailed on Wednesday last.

MARRIED,
At Elliot River, on Tuesday the 24th ult., Mr. William Auld, of Cove Head, to Eliza, eldest daughter of Mr. Donald Manson, of Tryon.

On Tuesday last, by the Rector of Charlottetown, Mr. Alfred H. Compton, of St. Eleanor's, to Sarah Davis, second daughter of Mr. George Tanton, of the same place.

Secretary's Office, Nov. 30th, 1840.
The Lieutenant Governor has been pleased to order the names of Bentinek Harry Cumberland, and William Swaby, Esquires, to be inserted in the Commission of the Peace for Queen's County; and the Hon. Peter Stewart Macnutt, in the Commission of the Peace for Prince County.

T. H. HAVILAND, Sec'y.

Tracadie, Nov. 13, 1840.

THE MONTHLY REVIEW,

DEVOTED TO THE CIVIL GOVERNMENT OF THE CANADAS.

THE Canadas have been united under an amended constitution—the foundation has been laid for an improved system of government. The success of that constitution will greatly depend upon a correct understanding and a just appreciation of its principles; and the advantages of the new system of government will be essentially influenced by the views and feelings of the inhabitants themselves. At a period so eventful, and under circumstances so peculiar, it is of the utmost importance that the principles of the constitution should be carefully analysed, and dispassionately expounded; that the relations between this and the mother country, and the mutual advantages connected with those relations, should be explained and illustrated; the duties of the several branches of the government, and the different classes of the community, stated and enforced; the natural, commercial, and agricultural resources and interests of these provinces investigated and developed; a comprehensive and efficient system of education discussed and established; the subject of emigration practically considered in proportion to its vast importance; the various measures adopted to promote the welfare of all classes of the people originated and advocated; and a taste for intellectual improvement and refinement encouraged and cultivated.

Such are the objects of the Monthly Review; objects which it is intended to pursue with views and feelings as unbiased and comprehensive as those of the Government itself. Such a publication is a desideratum in the Canadas. The subjects to which its pages will be devoted require, at the present juncture, a more elaborate discussion than is suitable to the columns of a newspaper, and ought to be embodied in a convenient and permanent form. The topics discussed, and the subjects introduced, will become more varied, and the immediate objects which have called the publication into existence shall have been accomplished. A monthly retrospect of public affairs, containing notices and observations respecting the measures of the Government, and the leading events and questions of the day, will appear in each number.

The Monthly Review will, for the present, be conducted under the supervision of John Waudby, Esq., late Editor of the Upper Canada Herald, assisted by several able writers in the two Canadas. A general invitation is also given to gentlemen of talents and acquirements to contribute to the columns of the Review. Each number will contain from 60 to 80 pages, royal octavo, double columns, small type, and fine English paper. Each volume will contain not far from seven hundred pages, and furnish about as much reading matter as is contained in three common octavo volumes of five hundred pages each.

Terms—Price, 20s. per year, including postage, payable in advance. As the work is undertaken with no view to emolument, it will be enlarged and improved in proportion to the amount of available subscriptions. It will not be sent to any Subscriber without payment of six months' subscription in advance. No subscription received for less than six months. All Post Masters are respectfully requested to act as Agents. Any Post Master, or other person, forwarding the names of six Subscribers, with the subscriptions, will receive a copy gratis, during the same period. The First Number will appear on the first day of January, 1841. All communications must be addressed to the Editor of the Monthly Review, Toronto, and be post paid. The Editor is permitted and authorised to add, that the Monthly Review has been undertaken with the sanction, and under the patronage of His Excellency the Governor General; although the writers alone will be responsible for the matter which it may contain.
Toronto, Nov. 4, 1840.

THE COLONIAL HERALD.

(New Series.)

THE Publishers of the COLONIAL HERALD, intending to enlarge and otherwise improve their Newspaper at the commencement of the New Year, respectfully request, that ALL PERSONS indebted to them will immediately settle their respective accounts, in order that they may be enabled satisfactorily to meet the increased and, otherwise, ruinous expenses which will necessarily be incurred in carrying their intentions into effect. They also beg leave gratefully to acknowledge the very liberal support they have hitherto received from the public generally, and respectfully solicit a continuance of that support, hoping, by their unwearied attention to the public interest, and the independence of their political principles, to give increasing satisfaction.

The NEW SERIES of the COLONIAL HERALD, although it will contain a much greater quantity of matter than the old or present Series, will be published on the same terms as the latter, viz:—Fifteen Shillings per annum, P. E. Island currency, payable half yearly in advance. In every case where these terms are not complied with, the paper will necessarily be discontinued. The price of the paper being so low, and the circulation, when compared with that of the generality of Newspapers in the neighbouring Colonies, so very limited, it is absolutely necessary that this rule should be rigidly adhered to.

Persons intending to subscribe for the New Series of the Herald, on immediately paying one year's subscription in advance, will be supplied with the remaining Numbers of the current year gratis; and any person in the country or elsewhere willing to act as Agents, will be supplied with one copy gratis, for every Ten Subscribers they may procure, and for the regular payment of whose subscriptions they will become responsible.
Charlottetown, Nov. 2, 1840.

MOFFAT'S

VEGETABLE LIFE MEDICINES.

THESE Medicines are indebted for their name to their manifest and sensible action in purifying the springs and channels of life, and ending them with renewed tone and vigor. In many hundred certified cases which have been made public, and in almost every species of disease to which the human frame is liable, the happy effects of Moffat's Life Pills and Phenix Bitters have been gratefully and publicly acknowledged by all persons benefited, and who were previously unacquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

The Life Medicines recommend themselves in diseases of every form and description. The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling around them; and to remove the hardened feces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual costiveness, with all its train of evils, or sudden diarrhoea, with its imminent dangers. This fact is well known to all regular anatomists, who examine the human bowels after death: and hence the prejudice of these well informed men against quack medicines—or medicines prepared and heralded to the public by ignorant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red colour from the agency of the liver and the lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

Moffat's Vegetable Life Medicines have been thoroughly tested, and pronounced a sovereign remedy for Dyspepsia, Flatulency, Palpitation of the Heart, Loss of Appetite, Heartburn and Headache, Restlessness, Ill-temper, Anxiety, Langour and Melancholy, Costiveness, Diarrhoea, Cholera, Fevers of all kinds, Rheumatism, Gout, Dropsies of all kinds, Gravel, Worms, Asthma and Consumption, Scoury, Ulcers, Invererate Sores, Scorbutic Eruptions and Bad Complexions, Eruptive complaints, scall, cloudy and other disagreeable complexion, Salt Rheum, Erysipelas, common Colds and Influenza, and various other complaints which afflict the human frame. In Fever and Ague, particularly, the Life Medicines have been most eminently successful—so much so, that in the Fever and Ague Districts, Physicians almost universally prescribe them.

All that Mr. Moffat requires of his patients is, to be particular in taking the Life Medicines strictly according to the directions. It is not by a Newspaper notice, or by any thing that he himself may say in their favor, that he hopes to gain credit. It is alone by the results of a fair trial.
