**IN MEMORIAM**

BUNBURY W. M. S.

**MR. URBAN ALCHORN**

Neighbours and friends were saddened to learn of the death of Urban D. Alchorn, Fairview, on May 28, 1950, at the early age of 69 years. Although not enjoying good health for some time he was able to be around and enjoy the fellowship and kindness of his family and friends until about a week previous to his death, when his condition became serious, and on the above named date his soul passed on to higher service. Mr. Alchorn was born in Fairview, son of the late James and Elizabeth Alchorn. His wife Violet Blanche MacNeill predeceased him in 1936. He leaves to mourn four daughters and three sons, viz: (Aetha) Mrs. Harry Stewart, (Montague) Mrs. Geo. MacEachern, Dawson Creek, B.C.; Vera and Eleanor at home; Lloyd, Toronto; and Clarence at Loyalton, Ontario. He is also survived by two sisters, Mrs. Lena MacKinnon, Fairview, Mrs. Nellie McLeod, Charlottetown and two brothers, Vinton and Melville in the U. S. A. as well as seven grandchildren. Urban as he was familiarly known was an honest upright man, a kind and obliging neighbour but above all a dutiful and loving husband. He was diligent and faithful in all his works and ways and his burden was not an easy one, as his wife died when the family were quite young, and he endeavoured at all times to the best of his knowledge and skill to bring them up to be good citizens, and it is in the home where his wise counsel and kindly deeds will be most sincerely missed.

The funeral service which was largely attended was held at the home and conducted by his pastor, Rev. Mr. Webster who spoke feelingly of the deceased and comforting words to the bereaved. The hymns sung were "Safe In The Arms of Jesus" and "Abide With Me". After which all that was mortal of a loving father and friend was conveyed to their last resting place in the family plot in the New Dominion United Church Cemetery.

The pall bearers were, John MacLeod, Newlan Taylor, Dugald MacLean, Alex MacIsaac, L. C. MacIsaac and Allison Macmillan.

The floral tributes were many and beautiful testifying to the esteem of the deceased.

**Card Of Thanks**

The family of the late Urban Alchorn wishes to thank all those who sent Cards and Messages of Sympathy as well as for acts of kindness shown them during their sad bereavement.

TORINGTON, Devon, England—(CP)—This was a real "Birdie." R. Short tied off the sixth green, drove into a shrub and killed a yellow hammer nesting there.

**CARD OF THANKS**

I wish to express my sincere thanks to the Doctors and Nurses of Victoria General Hospital, Halifax, N. S., who attended my wife during her recent illness; to those who sent Cards of Sympathy and Floral Tributes and to all who in many ways assisted me during my recent sad bereavement.

J. A. Matheson.

**BABY'S RASHES**

are often a sign of upset digestion. See how quickly this type of rash often disappears after the use of Baby's Own Tablets. Pleasant to take, easily crushed to a powder if desired, these little tablets sweeten baby's stomach and clear out irritating material that also may be causing gas, feverishness and fretfulness. Get Baby's Own Tablets today. They have been the standard of mothers for over 50 years. Only 29¢.

Wild Berries Plentiful

Although the commercial value of raspberries, blueberries, cranberries, etc., is not a great factor in our Island economy, yet the revenue derived from these fruits in some years is quite substantial. The domestic use of these berries also adds greatly to living standards in some sections.

According to the ladies who are the main berry pickers right across the Province, there is a record crop of raspberries. Blueberries have been small but follow-

**Among The Farmers**  
Federation of Agriculture News

**Dairymen To Meet**

The directors of our Dairymen's Association will meet in Charlottetown this evening to finalize arrangements for operating the new wing of the Dairy Storage, which the Government has announced is now nearing completion.

Other matters coming under discussion will be to decide on a local program and budget for the next year and to discuss dairy policies after the Privy Council decision is given.

The Dairy Farmers of Canada are meeting in Ottawa on August 14th and 15th to discuss this policy question on a national basis and also to co-ordinate plans for the National Public Relations and Publicity Campaign for dairy products.

The financial response to this campaign will then be announced. It is being sponsored jointly by our three National Dairy groups, the Dairy Farmers of Canada—the producers, the National Dairy Council—the manufacturers, and the Associated Milk Foundations which is the Fluid Milk Group.

**Potato Meetings**

This evening the Potato Growers in Kings County, Nova Scotia, will complete their series of meetings and the vote regarding the potato marketing board. Similar meetings in Colchester, another large potato growing county, will be held shortly.

Mr. Dewar is at present attending the annual meeting of the New Brunswick Potato Growers Council at East Florenceville, N.B.

The Island plan has been completed as far as the Federation Committee is concerned and has been officially presented to the Provincial Marketing Board for their formal approval and recommendation to the Government.

The Provincial Board has the authority to call meetings of the trade and have nominations completed for the dealer representatives on the Potato Board. It is noted where meetings have been called for next week to obtain nominations from the private dealers and from the co-operatives.

There have been several technical amendments made to the draft of this plan which was presented to the county meetings but the principles and the general outline have not been changed.

The general purpose of this Potato Marketing Board in each Maritime Province is to eliminate price-cutting as far as possible and to improve our present system of potato marketing in the interests of the producers, but to interfere as little as possible with the ordinary channels of trade.

**U. S. Potato Acreage**

A recent release regarding the potato acreage in the New England States indicates a 12 per cent drop from last year and a 30 per cent drop from the ten year average—1939-1949. Maine shows a 13 per cent drop from 1949 and the smallest acreage since 1928.

The complete potato acreage in the United States, this report states, is down to the lowest since 1876. However, it must be kept in mind that yields have increased and consumption per capita has decreased in recent years.

Our Federation, through the C. F. A. has taken steps to have those approximate estimates of potato crops, etc., withheld until some definite information can be given that will be a true guide to the trade and to the producers.

The general feeling of our organized farmers is that such wild guesses, especially about the potato crop, upset rather than stabilize the whole industry.

**Rural Telephone Question**

There have been some recent inquiries about what action the Federation took about having the services improved on our rural telephone lines. This question was discussed at many of our local meetings, and a general plan for maintaining standard of lines and services was approved by the majority of the rural telephone companies at annual or special meetings.

Immediately following the sanction of this plan, a brief, based on those recommendations, was prepared by a special committee and submitted to the Public Utilities Commission and the Minister of Industry and Natural Resources.

We have recently received acknowledgement of the brief but there has been no official action taken as yet to implement those recommendations.

**Directors To Hear Report**

All the Provincial and County Directors have been summoned to a special meeting next week to hear a report from the I. F. A. F. Conference and a review of general farm problems and conditions in the old country by Mr. W. R. Shaw. This will be followed by a regular business meeting of the directors.

**Wild Berries Plentiful**

Although the commercial value of raspberries, blueberries, cranberries, etc., is not a great factor in our Island economy, yet the revenue derived from these fruits in some years is quite substantial. The domestic use of these berries also adds greatly to living standards in some sections.

According to the ladies who are the main berry pickers right across the Province, there is a record crop of raspberries. Blueberries have been small but follow-

**ing recent rains there is promise of a big crop. Cranberries, where they are cultivated, are also doing well.**

**Agricultural Scholarships**

Some time ago we mentioned where arrangements had been made through the C. F. A., with the Nuffield Foundation of England to grant scholarships to two young Canadian farmers each year to study farming in the old country.

One applicant will be selected from western and one from eastern Canada commencing this autumn.

The Provincial Federations in each Province are asked to select a couple of candidates and recommend them to the C. F. A. Committee. Those applications are for practical young farmers approved by a Provincial Federation.

Another scholarship arrangement is for the farm course at the Agricultural College, Truro. Last year Maritime Co-operative Services Ltd. provided a number of scholarships for farm boys from each Province, who were recommended by their local co-operative.

This is a very practical course emphasizing general animal, soil, disease, engineering and marketing questions and any boy with Grade Eight education who can read and write intelligently and understand practical lectures is eligible. Fifty dollars will be available through this scholarship. Fifty dollars is also available through the Department of Agriculture for those who take the course for two winters.

We also understand that students who can qualify under the Dominion-Provincial Youth Training program get fifty cents per day board allowance along with one round trip paid from their home to the College.

There were only three Island boys on this course last year. Many of our older and successful leading farmers credit their success to the start they got during this course at Truro. Further particulars and application forms are available for those interested in either the Farm Course or the overseas scholarship.

The Truro course starts this year on October 25th, and ends March 30th. Application forms for both scholarships should be made before September 1st.

**New Swine Booklet**

The Dominion Department of Agriculture has just received a new booklet entitled "Management and Feeding of Bacon Hogs", written by H. W. Clay, our Senior Livestock Fieldman.

This booklet is practical and complete and is highly recommended by the Department for both Adult Farmers and Junior Swine Clubs. It is available now by request to the Department of Agriculture.

Mr. Clay is to be congratulated for the splendid job he has made of putting his wide knowledge of this subject on paper.
